MISS JOY PETERSON, Telephone Representative

Joy Peterson has a knack for meeting the public with a smile and solving their telephone problem so that a company work order can be made up. Joy is typical of the telephone Service Representatives who daily help our customers with new orders, location changes, extension installations, and many other problems.

These days there is a delay before new installations can be made. When Miss Peterson shows you the volume figures of new orders and explains the difficulty in getting new facilities built fast enough to accommodate the flood of orders, we know you'll understand and be patient. Miss Peterson and the rest of us are proud that we have already brought telephone service to an additional 10,855 stations to date this year.

From where I sit... by Joe Marsh

Metropolitan Papers Please Copy!

Folks here were burned up over an article on Our Town I reprinted from a city paper. Made us sound like a bunch of "hicks" who whittled sticks and wore chin whiskers. (Last person I saw with chin whiskers was passing through on his way east.)

So I ran an editorial on how we spoke of city "slickers"—as overdressed wisecracks, only interested in making money, and spending it in night clubs.

Fact is, if we got to know each other we'd probably find we're not much different, underneath. City folks work hard; like to come home at night to their families; and relax with a moderate glass of beer, like we do.

From where I sit, it doesn't matter if you live in an apartment house or on a farm—work in an office or a cornfield—the American tradition of quiet home life, temperate habits, and neighborliness is common to all of us.

Joe Marsh
