## March Of Dimes Donations Fall Short Of Quota

The Beaverton-West Slope area fell far short of its March of Dimes donation expectations, declares chairman Jim Duncan, who reports a total of \$1055 received at press time, and an appeal is sent out for more money to build the defenses of this area from poliomyelitis epidemic threats. Last year's total was \$1278.

Beaverton high school turned in \$150; Beaverton grade school \$184; Raleigh grade school, \$57.17 and Cooper Mountain school about \$15. Barnes school, closed for alterations, did not participate in the effort.

"We have set a goal of \$1300," Duncan reports, "and residents of the area are asked to give to the great tasks the local division of the National Infantile Paralysis Foundation may be called upon to meet."

Half the money collected remains in the county while the balance is sent to the national foundation, for research and national emergency demands.

## McKay Cafeteria On Paying Basis Says PTA Leader

School cafeteria at the McKay grade school, started by the local PTA, has proved a great success in the short time of its operation, declares Mrs. Scott Horney, president of the association, in regard to an erroneous impression some readers may have gained from statements printed in connection with last week's story of the resignation of two school directors in the district.

One of the issues which may have loomed large in determining the school directors to resign, according to their statements, was the request for \$500, by the PTA, for a cafeteria fund. Mrs. Horney declares, however, that the money asked was for a revolving fund with which to pay for expenses of canning summer produce and fruit, as well as for the hire of an assistant cook for the school cafeteria.

"As a matter of record," Mrs. Horney states, "we have all bills paid and a balance of \$50 still left in the cafeteria fund. The money we requested was to start a project of canning which would enable us to take advantage of low summer prices on produce."

An election will be held on February 20 for the two unexpired school directors terms. One will run until June, 1948 while the other position will run until June, 1949. Announcement of candidates for the two jobs have not definitely been made at present time.

ACTION BASED IN SERVICE DISCONNECTION DUE TO LONG DISTANCE CHARGE DISPUTE

### Arthur A. Carlson Enters Race For Co. Commissioner

Arthur A. Carlson, 52, Aloha garage and machine shop proprietor who has lived in Washington county for the past eight years, is an official candidate for the post of county commissioner, on the Republican ticket. Mr. Carlson's experience in government includes a term, from 1922 to 1926, as city commissioner in Tauton, Massachusetts, a city of from 45,000 to 50,000 population.

Mr. Carlson was first in Oregon in 1907, where he lived until the war called him in 1917. Upon mustering out, he stayed in New England and moved west again about 1940. For the last 25 years, he has been connected with trucking and road construction and has designed and built road-building equipment to order.

Carlson believes in a county living up to its responsibilities rather than letting the state or federal government step in with resulting loss of smaller community's identity. He points out that the road and school problems are fast getting out of hand, with population increasing so tremendously, and believes Washington county should begin to streamline itself in order to meet its mounting responsibilities.

Carlson lives half a mile south of Reedsville and emphasizes that he is "not retired."

## Kiwanis Quintet Arranges Benefit With "Grey Ghosts"

BEAVERTON TEAM MEETS HILLSBORO FIVE FRIDAY NIGHT TO START AAU COMPETITION

Some of the classic basketball handling ever exhibited in Beaverton is due in the high school gym Monday, Feb. 16, 8 p. m., when the Beaverton Kiwanis quintet meets a travelling aggregation from St. Louis, Mo., the "Grey Ghosts", in a benefit game designed to raise funds for purchasing equipment for the local team. Tickets are now on sale by local merchants and high school students.

The Grey Ghosts will be making their first appearance here but the team's reputation promises high class ballhandling along with the clowning antics which are such an important part of its routine.

The Beaverton five at the end of league play in the Multnomah loop, bettered their position at the end of the first half of league games, when they stood at fourth. According to Marble Cook, one of

claiming \$30,000 damages and asking \$500 attorney fees, A. H. Barron, automobile repair and garage man of Aloha, filed a complaint Feb. 5 in the Washington county courthouse against the West Coast Telephone company, exclusive phone service franchise holder of Washington county, because of a business service disconnection which grew out of alleged wrongful long distance charges.

A. D. Scripture, district manager of the company, at Forest Grove, states that the company has engaged Paul Patterson, Hillsboro attorney, to represent the company in defense of the action.

Mr. Barron alleges that the phone company discontinued service on or about December 15 and has informed persons attempting to call him that his telephone had been disconnected which, he feels, was meant to imply that Barron was either out of business or financially unable to provide telephone facilities for the accommodation of his business.

The plaintiff, Mr. Barron, cites Section 11-467, O. C. L. A. as the basis for his claim to recover treble \$10,000 the amount of damages done him because of the "unreasonable prejudice and disadvantage and discrimination" which he says so damaged his reputation and business.

According to his charges, the telephone company had on numerous occasions prior to the disconnection, charged, demanded, collected and received from Barron toll payments for long distance calls in excess of its public schedules or tariffs and for calls which Barron claims he did not make.

The complaint is drawn up on the form of three separate and complete actions, each of which asks the amount in damages, of \$30,500.

The West Coast Telephone company is a corporation organized under the laws of the state of Washington and is in the business of furnishing telephone service as a public utility over its "independent" network of communication lines.

Attorneys for Mr. Barron in the complicated action are Stearns and Lessard of Portland.

## Even A Dog Has Dental Woes In The Modern Age

Even a dog has his dental troubles in this modern age, according to Lee Brant of Rodarbal Kennels on Leahy Road, in reporting a gold crown now being sported by "Little Benjamin", an imported Labrador retriever valued at \$5,000.

Little Benjamin, who was sold to Al Winters of Portland at a bargain price because his owner couldn't stand to see England's post-war food rationing make a dog's life even doggie, suffered a broken tooth. Slated to appear for the first time in the United States February 14 and 15, in the Klamath Falls retriever trials, the dog suffered a handicap because the broken tooth, a lower canine, made it harder for him to carry game.

The gold crown, which is also an amalgam of a newly discovered metal, helps the dog balance his retrieving mouthful more easily, as the game now will not tend to slip out of his mouth. Doctor Norman Johnson, Beaverton veterinarian, performed the dental repair.

Brant declares that Little Benjamin, two and a half years old, is one of England's greatest dogs and he expects big things from his star boarder.

George C. Bersch, oldest breeder of Labrador retrievers in the United States, at present visiting Wally Dertick, Beaverton dog fancier, has dogs boarding with the Rodarbal Kennels, Brant reports.

From Glasgow, Montana, Bersch introduced Labrador breeding stock to the United States. His host, who lives near St. Mary's Academy, is also a pioneer fancier of Labradors, but is not a breeder.

Another nationally known dog man, Charles Morgan, from Random Lake, Wis., has established winter training quarters at the Rodarbal Kennels. He will return home about the first of April.
