Dog Food Pioneer Visits Yakima To See Modern Plant

E. W. Ellis, route 2, box 813, who pioneered the distribution of dog food to retail stores, recently visited the big modern plant of the American Products company of Yakima to see in operation the production and processing of dog food.

Over \$30,000 worth of equipment, in cookers, refrigeration and other facilities, is used in the big modern set-up, Mr. Ellis reports. The plant's capacity is 480 cases every 8 hours of operation.

Forty per cent of the dog food processed is meat and one of the major departments of the plant, Ellis notes, is the selection and care of horsemeat.

"Not dead carcasses," he said, "but farm horses that walk into the plant before they are killed, dressed and hung in refrigerated rooms."

As a pioneer in the dog food business, Ellis says he has a personal interest in the American Products company, as a result of many years of business contact. The company, through his representations, plans to put a new sales truck, purchased from Carr Motors, Beaverton, into this area.

Raymond McCallan, veteran son of Dick Cornell of the Beaver Lumber and Supply company on Walker Road, has been appointed as distributor in Oregon for B-Sure dog food, the American company's product.

CARD OF THANKS Always we shall be grateful for the loving acts of kindness, the tender words of comfort and the beautiful flowers, during the illness and passing of our beloved mother.
