From where I sit ... by Joe Marsh

Get The Truth!

Called on my good friend "Cappy" Miller, who edits the County Bee, the other day. And hanging up on the wall of Cappy's office is this slogan for his paper:

"Remember there are two sides to every question. Get both sides. Be truthful."

A good slogan ... not just for a newspaper—for people, too. Because there'll always be two sides to every question: the side of those who vote one way, and those who vote another—the side of those who enjoy a temperate beverage

like beer or ale, and of those who swear by nothing but cider.

And from where I sit, once you've got both sides—and faced them truthfully, you realize that these differences of opinion are a precious part of what we call Democracy—the right of the individual to vote as he believes, to speak his mind, to choose his own beverage of moderation, whether beer or cider.
