Night Bike Riders Face Grave Hazards

DO use arm signals to warn those behind that you intend to slow down, stop or turn. Bicyclists must follow rules of road just like motorists if 1947 bike death toll of 550 is to be cut.

DON'T hitch to moving vehicles of any kind. This is one of the most dangerous bike stunts, takes many lives and brings countless injuries. You are in danger from every direction.

DO ride single file on the extreme right side of the road. Riding abreast or weaving in and out of traffic slows vehicles, confuses motorists and boosts chance of accident.

DON'T carry passengers on the crossbar, handlebar or fender. Never break this rule, even for the best girl friend. Extras make bike hard to handle, is one of chief crack-up causes.

DO have a dependable headlight on front and clean reflector on rear for night riding. Risk goes up as sun goes down, so smart riders will have bike in garage by nightfall to be safe.

DON'T ride bike on sidewalk when there are pedestrians or playing children. Dismount and walk your bicycle around them.

VICTORY BELL AGAIN

When, in December 1942, the old B. H. S. victory bell was donated to the war metal scrap drive it was with much sentiment and remorse. But now the song of victory will again ring out to proclaim the news throughout the community.

A new 300-pound orange and black bell has been donated to the school by Mr. George Findley father of Lois Findley, sophomore, replacing the old bell which, as scrap metal went toward the recent war effort.

The new bell will be situated at a top the gymnasium overlooking the athletic field.

SOPHS OUT IN FRONT

Sophomores claim the most members in Torch Honor Society according to Helen Island, secretary of the organization.

With 17 members, the sophomores are way ahead of the seniors who have but 11 and the juniors who have 10.

OFFICIAL LOW DOWN

The first game programs of the year made their appearance at the Beaverton-Hillsboro meet last Friday night, through the cooperative services of the photo department, the annual staff and local business men.

Contents of the program included pictures of both teams, individual statistics, scores of past years since 1937, this season's records, and signals used by the referees.

Programs will be available at all remaining games this season. Profits will go to the annual staff.

WEATHER SAYS 'NO PIX'

For two weeks, one day after another, the weather was excellent, then came the big day!

First year photography students under the direction of Miss Bernice Conoly, advisor, were prepared to take the pictures of junior, sophomore and freshmen classes, Tuesday of last week. On the day designated as 'Picture Day' the weather suddenly "blew up."

The pictures have been postponed until 'the first sunny Tuesday, Wednesday or Thursday', states Miss Conoly.

FITS OF FITNESS

Among groans, moans and creaking bones, the boys in the physical education classes have just taken physical fitness tests. Tests were issued by Rex Putnam, state school superintendent and were given by Gene Freese, physical education instructor.

'Push-ups,' pull-ups, treadmills and curl-ups are featured in the tests.

SAFETY SPEAKER

Paul Warren, from the Safety Division of the Secretary of State Office, was the featured speaker at the Drivers' Club meeting held last Wednesday.

Some plans of future meetings are movies, speakers, instruction and use of a reflex machine. This machine is to test the reaction time of the driver.

OREGONIAN TOUR

First and second year Journalism students were taken on a tour of the new Oregonian building on Wednesday, October 27.

The students were first shown the studios of K.G.W., and were also able to watch a broadcast.

Another point of interest was the huge presses, which print papers at a rate of 90,000 an hour. Each student was given a booklet telling all about the preparing and printing of the paper.

ROBES FOR DRESS

Fifty new maroon choir robes have been ordered by Mrs. Eleanor Duncan, instructor.

Because of the high cost of the robes, it was impossible to buy them for all of the students enrolled in chorus.

DRILL TEAM ACT

The Pep Club for the second time acted as a drill team at the Hills-Beaverton game.

The girls formed an "H" in front of the grandstand and led a yell for Hillsboro. They then came to the Beaverton side and formed a "B" and led a yell for the Beavers.

INCHING ALONG

October's "inch race" of the Hummer staff members finds Joe Rigert, editor-in-chief and Bill Moore, advertising manager, still ahead. Joe Rigert is first with 71 column inches and Bill Moore second with 44 in the October issue.

Total number of inches in print in the fall issues is as follows: Joe Rigert, 131 inches; Bill Moore, 131 inches; Nancy O'Connor, advertising editor, 45 inches; Betty Moshofsky, news editor, 32 inches; Fannie Lee Zook, reporter, 37; Susannah Difani, reporter, 29; Helen Stevens, reporter, 30; John Comer, advertising, 26; Terry Howell, business manager, 24; and Gerald Morford, circulation manager, 17.

GIRLS LEARN TO WALK

Walk, turn, sit, stand, walk. Yes, that's what Mrs. Reva Covert, girls' physical education instructor, teaching the girls the rudiments of correct carriage and posture.

She plans a study of the correct way to walk, sit, stand, go up and down stairs and pick up things.

"Most girls are interested in the glamour of stage and screen stars," states the instructor, "so special attention will be paid to their carriage and movement in relation to ours."

It is hoped that this course will motivate a practice of better living habits.

LOW BROW PLANTS

The elementary science students under the supervision of Miss Amarette Barnes, have made a collection of "thallophytes", the lowest type of plants.

The three main divisions are represented in the exhibit. In the algae division are Fanno, Lois Harrington, Ray Hauspleurococcus, spirogyra, and seaweed. Puffballs, toadstools, yeast and varieties of molds represent the fungi division. Lichens, a peculiar combination of algae and fungi, are also represented.

Best all-round collections were brought in by Ralph Salmon, Billy Kriek, Sally Lindsay, Viola Fanno, Lois Harrington, Ray Hausler, Bill Lovett, June Steele, Richard Straley, Gene Walters, Sylvia Wilson and Bill Winter, reported Miss Barnes.

Exhibits of more advanced plant types will follow.

BOOKS DEVoured

Phyllis Palmrose and Mildred Minnick, sophomores, found time last six weeks to read ten books each it was found by a book report survey conducted by Mrs. Beth Metzler, sophomore English teacher.

"How do you find the time?" they were asked.

"I read one book at school and take one home," explains Mildred. Last year I read 60 books."

"I didn't find the time, I took it," laughed Phyllis.

Phyllis and Mildred were followed closely by Audrey and Adair Enger and Ruth Rhone who read seven books each.

FILM SHOW STAGED

Swiss Family Robinson of grade school days came to life in a movie in the student body assembly last Friday.

The student council sponsored the picture, charging 20 cents admission.

FOODS STUDY

The advanced home economics classes had a movie last Thursday on Food Preservation which showed how and why the first food was preserved and how the methods were later improved.

GIFT OF WORDS

Four sophomores have a vocabulary larger than that of a college freshman, it was discovered recently in a vocabulary test given by Mrs. Beth Metzler, sophomore English teacher.

Out of a possible 150 points, Tim Clark made 116, George Jansen 114, Owen Englehart 111, and Phyllis Palmrose 110. The average for college freshmen at the end of the year is 105 points.

The test was compiled by Dr. Inglis of Harvard University, who has spent his life compiling these tests.

Stella Fisher, physician from Portland will be guest speaker at the Y-Teen meeting today.

Girls will have an opportunity to ask questions about her profession.

Grauer & Ackerman

PEP CLUB LECTURES

Poor co-operation with the yell leaders, leaving the stands before that final gun and getting in the way of others were some of the objectionable practices viewed by students in last week's assembly.

These points were humorously demonstrated by the Pep Club to give the students a chance to see how they act in the stands during football games.

DUNCE CAP RETURN

"Boy, it surely is high up here." This is what one of Mrs. McDowalls freshman English students might remark as he sits quietly on a high, but hard stool, with a tall, white, and very pointed "Dunce cap" perched high on his cranium.

Mr. Faul, the person responsible for the joke, needed something to keep them in line, but they have proved different by not having to use it.

DINNER ANY DAY?

Four pieces of equipment arrived in the new cafeteria last week announced Principal I. R. Metzler.

A Dorco steam table, a Champion dishwasher, a Lang electric stove and a Blakeslee food mixer were in the order.

Installation of this equipment will take place as soon as the cafeteria is painted, he states.

COSSACK CHORUS

The combined glee clubs plan to attend the performance of the Don Cossack chorus and dancers who will appear at the public auditorium in Portland, Saturday, November 13.

The chorus, conducted by the originator Serge Jaroff, has appeared in every country in the world except Russia.

School buses will be taken from the school and will return after the performance. Mrs. Eleanor Duncan, chorus instructor, will accompany the group.

CAFETERIA COLORS

Mrs. Eleanor Duncan, English instructor and Mrs. Carol Talbert, home economics, arts and crafts instructor, have decided the colors of the new cafeteria, announced I. R. Metzler, principal. The ceiling and kitchen will be white, the south wall will be rose, and the remaining walls and floor will be green.

DRUG STORE TRAINING

The Home Economics I classes, under the instruction of Mrs. Carol Talbert, have been learning to make different kinds of fillings for sandwiches.

The students had a chance to sample them on Tuesday when their "new kinds of sandwiches" went on sale during the lunch hour.
