WEATHER IS HEAVEN

"The weather here is heaven," exclaims Mrs. Chester Inwall of Lake Road, as she and her husband return to Beaverton after having spent four months in Glendale, California.

Mr. Inwall conducts a business of press-erecting and was working in the sunny (?) southland during their absence, while Mrs. Inwall was more or less visiting, as she puts it.

During the interlude in the

south, Mr. and Mrs. L. P. Putnam kept home fires burning in the Inwall menage and have since purchased a new home on Brinley Road, into which they moved last week.

Mr. Putnam is now working for the Oregon Tuberculosis and Health association. He recently attended a conference of organization representatives at Ashland and on his return stopped at Roseburg and Eugene.

Accompanying Putnam on the trip was Fred Scherer, head of the social hygiene department of the health association.

High Waves Buffet Coast; Worst Storms In 20 Years

P.T.A. MEET POSTPONED

The regularly scheduled meeting of the Beaverton grade school on January 25th was postponed due to the cold weather and icy road conditions. The topic which was to have been on Audio-Visual Aids, will be presented at the meeting to be held May 17.

West Slope.—Mr. and Mrs. Geo. W. Bruer of Canyon Crest Drive, who have a house at Tolivana Park, Ore., have seen some huge storms at the beach on their trips down every two weeks.

The natives at the coast say the storms are the worst in 20 years, and in some places the waves have washed away five to six feet of sand and have uncovered rocks and boulders.

The Bruers home is on a high point so they suffered less property damage than did many of the other people but their stairway was washed away and then washed back again piece by piece.

DIST. NO. 48 NEW SCHOOL

The new district 48 grade school building is progressing in spite of Mother Nature's imposition of cold weather.

The roof decks have been placed on the gymnasium, auditorium and boiler rooms. The next two weeks will see the completion of the built up roof, part of which is already done.

The only remaining concrete work, besides the floor slabs, are portions of the south and east classroom walls. Plumbing in the building has been roughed in, and interior construction will begin as soon as the roof is over the classroom area.
