Beaverton Union High Tax Stays Under 6% Limitation

JT. DISTRICT 10 MAINTAINS HIGH RECORD FOR ECONOMY NOTWITHSTANDING EXPANSION NEEDS

Maintaining its reputation of staying within the statutory 6% limitation, the Beaverton union high school (joint district 10) district will require taxation as low if not lower than last year, according to Mike Metzler ,superintendent.

Present estimates envision an increase in valuation over the district of $700,000, over last year. Increase during the last fiscal period amounted to about $1,500,000 and millage levied was 14.5.

Should actual valuation increases exceed early estimates, Metzler points out, millage will be reduced in proportion.

School district 10 jt., which includes part of Washington and part of Multnomah counties, has scheduled a meeting of registered voters within its boundaries for May 23, from 2 p.m. to 7 p.m.

In addition to the budget which is to be considered, voters will elect one director for a term of five years and one director for a term of 2 years. All qualified voters (must be able to read and write the English language) are eligible to take part in the election.

Removal of property restrictions as a requisite to voting was accomplished at the last general election.
