TRADE LANES

Lyle Rich, that happy boy at Thrifty Market, is doing a little bragging about a deer he says he shot over in Eastern Oregon. We did see the head of this animal and are forced to admit that was a good one. Five points on each side and Lyle says it dressed out 180 pounds.

There are some of the merchants in Beaverton who the City Fathers should know about. They are qualified street cleaners. We see them out from day to day with shovels, brooms and the garden hose trying to keep some of the dirt out of their places of business. For further information ask Carl Nelsen at Safeway Stores.

Did you ever see a big cheese? (We mean the eatin' kind.) If you want to really see lots of cheese all in one chunk, take a look at the one in Thrifty Market. Maybe you can guess what it weighs and thereby win yourself a prize.

There were three more grand openings in Beaverton last week. Good crowds are reported by each firm and there were prizes, flowers and balloons for everyone. We have pictures of the openings but were unable to get them ready in time for this week's edition, so you can read all the details in our issue of the 28th.

The Tip Top Coffee Shop had occasion to call the fire department the other morning. It seems that Doc was really working and the old stove was trying to keep up the pace set by Doc but couldn't make it—so it blew up. Nothing serious happened and the fire was out by the time the truck arrived.

OVER A POUND, UNDER A TON; LOTS OF CHEESE

It's over a pound but it's under a ton and you can take it from there and guess how much cheese is contained in the mammoth exhibit at the Thrifty Market, in Beaverton. Fran Holboke, of Thrifty Market, has been trying ever since the war to get his hands on a mammoth cheese and this time he succeeded with a whopper. So large is it, in fact, that he is offering some \$30 of prizes to the person guessing closest to its actual weight.

Full details of prizes can be learned from his ad in this week, elsewhere in the paper.

TREATMENT HELPS
Mrs. Edna Sheets returned to her home Thursday of last week, much improved after receiving treatment at the Jones Hospital, for about ten days.

"CVA SCARE" SPEECHES NOT UNBIASED STUDY

The dominant political and economic issue in the Pacific Northwest is the Columbia Valley Administration proposals now pending in Congress.

Perhaps no question of public interest has ever been more subjected to misleading statements and slick propaganda than the CVA. Private utilities and their sympathetic big business monopolies have set about to poison the minds of our citizens by almost every means known to man. They have even succeeded in gaining control of the once great Republican Party so that today we find the CVA issue shaping as the main plank in the coming elections with the Democratic Party following the leadership of President Truman in favor of Valley Authorities, and the Republican Party opposing them.

One of the most interesting spectacles constantly being enacted is that of well-known local citizens appearing before service clubs, chambers of commerce and other organizations fortified with a repertory of scare stories depicting our country being turned into a socialist state, some go so far as to say a communistic state, if we adopt the CVA Statism. Welfare State and other phonic coinages are freely used with a well coached dialect by paid hirelings to cloud the real issues.

We even hear of speakers in our midst telling their audience with an air of complete knowledge and understanding, after spending two days in the great Tennessee Valley comprising 41,000 square miles, that such an authority patterned after the TVA would be a frightful thing for the people of the great Northwest.

Plain common sense tells us that as we grow and expand in population and industry we must provide for orderly development and administration of our resources. A sincere and unbiased study will reveal the plain facts that a CVA as now proposed will provide the needed authority for properly coordinating this great responsibility of ours.

There is no better way to decide the issue than thru our American system of political action by the voters, but scare speeches and other unfounded propaganda have no place in this discussion.

Hillsboro Lashes Beaverton Eleven 48-7 In Runaway

Hillsboro high school football team, uncorking a sparkling offensive of speed, power and deception, lashed the Beaverton high school eleven by a score of 48 to 7, at the Hillsboro field, October 14.

From about the second play in the game, there was no doubt of the superiority of the Hillsboro aggregation, as they plowed through the Beaverton line for substantial gains and started piling up their total of seven touchdowns.

Scores were made in order by: Jerry LeBlanc, Connie Sproul, LeBlanc, Ad Rutschman, Lyle Guericke, Rutschman and Danny French.

Beaverton came to life on a few occasions, holding the Spartans to no gain or throwing them for a loss. But the coasctions were far speeded. Its lone score came when the tally against them was 28-0.

Tsugawa returned the kickoff from Beaverton's 20 to the Hillsboro 39 yard stripe. After 2 first downs, Tsugawa took the ball from the 11 yd. line and danced thru the entire Hillsboro line for a touchdown. McKnight kicked the point.

Hillsboro's LeBlanc kicked five conversions and missed one. On
