### AT DAUGHTER'S HOME

Mrs. Ruth Dennis of Spokane, Washington is visiting with her son-in-law and daughter, Mr. and Mrs. Charles Carlon.

She expects to be with them for about two weeks.

## Treatment Cures Cancer If Caught In Early Stages

There are people who brood about the possibility of having cancer and, at the same time, refuse to see a doctor because of fear. They feel that a diagnosis of cancer is a sentence of death and "it's better not to know."

But most types of cancer can be cured if they are detected in time and treatment is begun promptly.

Cancer, a wild and uncontrolled growth of cells in some region of the body, is a serious disease which killed nearly 200,000 Americans in 1948. But doctors believe the number of cancer deaths could be cut by at least one-third if the disease is discovered and treated early and before it has had time to spread.

Some years ago it was extremely difficult to detect cancer until the disease was advanced but today, with progress in medical science and greater knowledge about the disease, the doctor can detect cancer while the malignant growth is still localized in one area of the body.

Cancer, for the most part, is a disease of middle or old age, although it can develop in children and young adults. We cannot tell in every case what causes this lawless growth of cells in the body, but we do know that constant irritation and repeated injury can result in cancer. Meanwhile, research continues in the hope of finding the cause of various types of cancer, as well as how best to cure the disease.

When cancerous cells first begin to grow, there is no pain. The victim suffers pain usually only after the cancer has progressed or reached an advanced stage. But there are danger signals, other than pain, which might be symptoms of cancer and which demand a check with the doctor without delay. These include:

1. A painless lump or thickening, especially in the breast, lip, or tongue.
2. A sore that does not heal, especially about the mouth, tongue, or lips.
3. A progressive change in the color or size of a mole, wart, or birthmark.
4. An irregular bleeding or discharge from any body opening.
5. Any persistent change in normal bowel habits; or signs of blood in the urine or stools.
6. Persistent hoarseness, unexplained cough or difficulty in swallowing.
7. Persistent and unexplained indigestion.

Everyone should have regular physical checkups with his doctor, including chest X-rays, whether he has symptoms of illness or not. If between these regular visits, any symptoms appear which might suggest cancer, no time should be lost in seeing the doctor. Probably there will be no cancer, and it's a great relief to know that. But if cancer does show up, it is better to have discovered early so that prompt treatment can be begun.

## ARRANGEMENTS IMPROVE WITH CLUB'S 3RD FLOWER SHOWING

By Gertrude Pearson

CEDAR MILL—An array of colorful early spring flowers was viewed by visitors to the flower show at Leedy Grange Hall, April 21. The show is the third large competitive display sponsored by the Cedar Mill Garden Club.

Quality of arrangements improved greatly with many outstanding ones depicting spring and using early spring flowers. Horticultural specimens of bulb flowers, primroses, pansies and flowering shrubs also drew comments from spectators.

A background and center of interest depicting spring through the use of iron gates, shrubbery, birds and a bird bath surrounded by a colorful border of flowers drew attention as did the children's section under a May pole using streamers of crepe paper.

Displayed through the courtesy of the Federation of Garden clubs was a collection of pressed flower pictures made by members of clubs in the Portland area.

Chairman of the show was Mrs. A. R. Pearson, with Mrs. E. V. Love serving as staging chairman. Mrs. L. S. Uppinghouse is garden club president.

Sweepstakes winner in the horticultural division of the Jay Gibson trophy was Mrs. James Walters. Tri-color awards were given to a potted copper colored primrose entered by Mrs. Peter Hohnstein in the horticultural section and to an arrangement depicting spring entered by Mrs. W. A. Holley.

Judges for the show were Mrs. H. M. Robinson of Alto Park Garden Club, Mrs. Milton E. Winters of Congenial Garden Club and Mrs. M. C. Yeager of Fir Grove Farmerette Garden Club. First place awards were given as follows:
