There's MORE tender meat... POUND for POUND... in this

RIB ROAST

"Trimmed before weighing"
at **SAFeway**

Starting as we do, with just the top grades is vitally
important to Safeway's plan of bringing you fine-
eating meat. But it's not enough. We also make sure
each cut is properly trimmed—before weighing—to give
you full value. You can't eat excess bone and fat. So
off it comes, to save you money!

Take rib roast, for example. Before it goes on the scale,
each roast is cut short . . . large portions of short ribs
are trimmed off to be sold at a lower price per pound.
Lopped off, too, are large pieces of bone and excess
fat. So, pound for pound, you get more tender meat
in rib roast from Safeway. We guarantee you'll be
pleased . . . or your money back.
