PETITION AGAINST A-BOMB IS MURDER

Dear Editor:

I am writing in regard to an
announcement I heard over the
radio, in which it was said that
the Portland Council of Churches
was sending a petition to President
Truman, against dropping the
atom bomb. It is to these people
I speak.

Surely some of you people have
sons in Korea or know people who
have sons in Korea. I wonder if
you know that you are killing
them with that petition, just as if
you would have many more Amer-
ican boys killed.

Do you suppose the red Chinese
army would think 'not dropping'
the "A" bomb is universal brother-
hood? I don't. I think they would
think of it as bad military strategy.
The world has tried for many
years to teach the Chinese "Uni-
versal Brotherhood", but have they
succeeded? I think it is a little
late to begin now.

You ask who am I to write such
a thing against your petition. Well
I am only one of the many who
will have to fight and die for your
Universal Brotherhood.

I ask you to think of your peti-
tion. It is not a petition of mercy
as you think. It is a petition of
murder, of your own country-men.
These men don't ask why they are
fighting they are not afraid to
die to keep your home safe, but
why should they be murdered need-
lessly, when the dropping of the
"A" bomb would teach the Reds
in the language they understand,
that world domination does not
belong in the world of the twen-
tieth century. Or is that what you
want?

Do you want to be ruled by
savages, who know nothing but
hatred and murder, and have been
taught that all their lives? I ask
you are you sure you know what
you are doing to your Country.
Dave E. Smith,
U. S. Coast Guard

EDITOR'S NOTE:

Popular conception pictures the
atom bomb as an all-powerful,
single weapon that will annihilate
the enemy in one fell swoop.

Its use, however, requires a tar-
get whose strategic value is in
proportion to the cost of its man-
ufacture. The same value in anti-
personnel and other bombs would
doubtlessly accomplish more in the
conduct of battle.

Rules of warfare designate the
ultimate objective to be the killing
of the enemy and knocking them
into submission. Should leaders of

the nation, in military and in gov-
ernment, decide that an atom
bomb will speed conclusion of the
war, they should not be restricted
by any appeals to Mercy.

War isn't exactly merciful. It is
ruthless, destructive, savage and
hardly a game in which "gentle-
manly ethics" and "rules of Broth-
erhood" have any effect.
