FORCED AIR, IN-THE-WALL FURNACE

Now even the smallest home can have the wonderful comfort of forced air heating with a compact PANELAIR. Large homes can have flexible zone heating with two or more units.

NO MORE COLD FLOORS. Panelair spreads a blanket of warm, forced air at floor level. Heat rises gently... fills room evenly.

SAVES FLOOR SPACE. Panelair can be placed against a wall... in a corner... or be completely recessed in a wall.

Panelair is thermostat-controlled... fully automatic... has four-direction heat outlets. And so low in operating costs it's easy on the most modest budget.
