# THE EVENING JOURNAL, PORTLAND, OREGON, WEDNESDAY, APRIL 23, 1902.

# Celebrating His Birth 368 Years Ago.

STRATFORD-ON-AVON, April 22. -The silver-toned bells of Holy Trinity Church began to ring at sunrise this morning, reminding all within hearing that in this quaint town, far from the rush and crush of the busy world, was born, 365 years ago, "England's supreme genius.

An impressive ceremony was held at the church this afternoon, when the mayor, the trustees of Shakespeare birthplace, members of the Shakespeare Club and various deputations from schools came to lay their floral tributes on the grave.

The vicar received each wreath separately from the donors and set them in place while the organ played "The Legend of the Avon and the Light of Love," the traditional melody said to have been Shakespeare's favorite song. Tonight the play, "Twelfth Night," evokes special interest on account of the appearance of Miss Ellen Terry and others players of note.

LET US SEE.

(Journal Special Service.) INDIANAPOLIS, Ind., April 23. - The organization of a majority of the 200 electric lighting companies of Indiana into one association probably will result from the conference being held at the Denison today. The association will not be in the nature of a trust, but will be simply a mutual organization for bettering the conditions of the business.

## MINES AND MINING.

Resumption of work will be commenced at once on the Bonanza West, near Baker City.

The Buzzini placer mines on Beaver creek, in Eastern Oregon, are attracting considerable attention. A strata of very rich garvel has been struck!

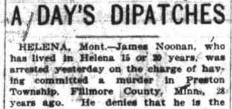

The Hoosier Bay Mining Company is making plans to install 25 additional stamps in their mill on the Prairie Digsings mine, of the Prairie City district

The Gem Consolidated Gold Mining Company, with a capital stock of \$1,000,-900, has been incorporated at Union, Or. The mining property is at Sparta.

News from the Badger mine in the Eastern Oregon gold fields is to the effect that a fine strike has been made on the 400-foot level of the property. A considerable quantity of \$65 ore has been opened up.

E. T. Schuler, a cattle king of Eastern Oregon, reports a rich discovery of a copper ledge on Snake river, near the mouth of the Imnaba. The strike has caused intense excitement.

Several gentlemen of The Dalles, who compose the Combination Gold Mining Company, located eight miles from

Noonan wanted. HILLSBORO, Or .- The mohair woolgrowers of Washington County have formed a pool similar to that formed in Polk and other counties of the state. The pool will be offered for sale Saturday.

April 26. COLVILLE. Wash .-- The grand jury of Stevens County has returned two indicte ments against J. E. M. Balley, Prosecuting Attorney, of the county, charging him with perjury and illegal collection of fees. It is charged that Bailey used a railroad pass, but also bought railroad tickets, charged them to the county, then sold or gave them away. It is also charged that he collected \$5 in excess of lawful fees in a criminal case and pock-

eted the money. JEFFERSON, Or .- A bullet from the gun of a hunter crashed through the dining-room window at the home of Mrs. Frank Epperly, lodging in the fleshy

part of her arm. A painful but not danerous wound resulted. ASTORIA, Or .- Ex-Mayor Isaac Bergman has been nominated by the Citizens convention for County Judge.

WASHINGTON .- Evidence in the case of Clarence W. Ide of Spokane, Wash., of attempting to bribe a legislator to

vote for a United States Senator, is in the hands of the President. If the latter considers the evidence of sufficient strength he will withdraw Ide's nomination for Collector of Customs for the district of Puget Sound.

SPOKANE.-Union plumbers employed by Contractor S. E. Johnson have struck because he refused to pay \$5 per day on a contract taken before March 1. Carpenters' Union will not support the plumbers

STATTON, Or .- Andrew Horner, in default of \$300 ball, has been committed to the Marion County jail' for giving liquor to minors. Horner's home was across the river, in Linn County, but the law was violated in Marion.

# RAILROAD NOTES.

The passenger department of the O. R. & N. Co. has issued a circular which quotes the same excursion rates as those put in by the transcontinental lines for the annual meeting of the National Ed-

ucational Association at Minneapolis July 7-11. A pamphlet has been sent-out by the Columbia Southern bearing the title of "Ten Thousand Free Farms." which calls the attention of settiers to lands along the lines of the company which are in market. A considerable space is given to data from Sherman County, which has already been printed by The Jour-

Chairman R. R. Cable of the board of directors of the Chicago, Rock Island & Pacific, says that his company will make a Western extension of the line from Denver. He denies any intention to extend through to the Coast, since he says that the existing traffic arrangements of his company with the Southern Pacific preciude the necessity for so do-

ing.

The Great Northern passenger department at St., Paul has issued a calendar

of heroic dimensions which can be read at a distance without the aid of operaglas.es. At the top is a profile view of a segment of the earth's circle. Red lines teate the Great Northern road. Advancing to meet it from the Pacific is a great steamer from the Orient with a glittering headlight. At the Eastern terminus is a white steamship, which connects with the line and carries passengers and freight to ports on the Great Lakes, via the Sault Ste. Marie locks.

The grain market is stronger this morning, a slight advance being noted all along the line. Walla Walls is quoted at 6 cents; bluestem, 651/2 cents; valley, 65

THE MARKETS.

cents. A small change is also noted in white oats. Eggs are in better demand foday, and as a consequence stiffening in price has been made. A large number of shipping orders are being received, the majority of them being from the Sound and Alaska. On the Alaska orders as high as 17 cents is being received without any difficulty. Locally, eggs are quoted at 15 and 16 cents, most of the sales being

made today at the latter figure. The receipts of poultry is fair, but demand continues extra good, and the market keeps about cleaned up. Quotations remain the same. Butter is again weaker, but no change has been made in quotations. Most of the creamery sales are being made at 20

cents. On account of the opening of lake navigation in the East and the cheapening of freight rates, a decline has been reported in package coffee. Arbuckle's is quoted at \$11.63 and Llon brand at \$11.13. No other changes occurred, today in the gro-

cery line. The vegetable market is still well supplied with all kinds of California greens and a weakening in that line is noticed. Receipts of fresh meats continue very scarce in the local markets. A slight

advance was made on pork today. Re ceipts in the East are getting larger, but no changes in quotations have been noticed.

JOBBING PRICES. GRAIN AND FLOUR.

GRAIN AND FLOUR. Wheat-Nominal: Walla, Walla, 66c; bluestem, 662c; valley, 65c. Barley-Feed, \$22623 per ton. Oats-No. 1 white, \$1.1501.20; gray, \$1.1003.20. Sait-Fine table and dairy, 50s per sack, 74c; Liverpool, 77c; Worcester, 86c; Barrels, Worcester, bulk, 320 bs., \$5.75; bales 2s to 10s, per bale, \$3.10. Honey-Fancy white, 14015c; light am-ber, 124/014c; dark amber, 10012c. Grain bags-Calcuta, \$6.1266.25 per 100 for July-August.

#### lustitute to Get Bodies of a Product of Kensington.

JOINED LIKE SIAMESE TWINS

A companion pair to the famous Siamese twins was born recently in the neighborhood of Fifth and York streets, Philadelphia, but they unfortunately did not survive their entrance into the world more than a brief five minutes. Dr. Hugh P. McAniff was the attending physician, and through his efforts the ocdies of the twin babies will be turned over to the Wister Institute of anatomy, as the specimens of the most outlandish of Mother Nature's freaks.

The Kensington twins are joined together in precisely the same manner as was the Slamese couplet. The band of lesh binding them together is about five inches in length, but through this band run vital blood vessels. The pair were boys, well developed, their total weight being 16 pounds, but they were dead when born in spite of the best efforts of the doctor, who was assisted at the ac-

couchement by a trained nurse. Dr. McAniff states that the mother of the twins weighs about 90 pounds and has already given birth to several healthy children. By request he withholds the name of the family. Among the physiological details of the case it is stated. that there was only one umbilical cord and one placents for the pair.

WONDERS DONE BY SURGEONS

Remarkable Cases Described to Medical Conference in Berlin.

Among criginalities of surgery described at the session of the thirty-first congress of the German Chirurgical Asso ciation, was the case of Dr. Tietze of Breslau, who, having removed a section of diseased bone from a woman's shin, pleced it with a joint from her great toe, thus preventing lameness. Dr. Ruth of Loubeck gave a demonstration of an appliance for administering oxygen with chloroform, rendering it possible to anesthetize weak - hearted per-

sons. Other surgeons confirmed the excellent results of mixing oxygen with hloroform. Dr. Reerink of Freiburg described successful operations on animals by patchng stomachs with pleces of intestines.

Six surgeons-four Germans and two Frenchmen- reported to the congress the discovery of the cancer bacillus. As each report was quite different from the others and as none of these doctors satisfactorily demonstrated their discoveries, not much confidence was felt by the examining committee, Many experiments as to the origin of cancer are going on. Dr. Gluck of Berlin gave an exhibition of a speaking apparatus of his invention. which enables patients from whom the thyro-cartilage, or Adam's apple, has been removed, to speak more or less distinctly. The apparatus works automatically by inhalation or exhalation. Dr. Huck stated that in twenty cases it had worked well where the entire apple had been removed. One of the latter was a man 74 years old. He had successfully treated cancer of the throat in this way. -Chicago Inter Ocean.

Death of Talmage Creates a Void The Rev. T. LeWitt Taiminge, who died n Washington Saturday evening, was a national clergyman. His sermons were read in homes of California, as well as Maine; in Oregon and Florida. He had but one predecessor in this country's history-Henry Ward Beecher-and there does not seem to be another man who at the present time can take his place. Undoubtedly there are many clergymen opeless combination in the United States who are deeper thinkers and more thorough scholars than ANCIENT RAWHIDE TRUNK. was Dr. Talmage; there are perhaps a score whose elocution would be considered superior; but where is the one man

until the middle and end of the artic hummer, and if the fruit - eating birds had to wait until it was ripe they would starve in the meantime, so they arrive on the very day of the melting of the

But each year the snow descends on an immense crop of ripe fruit before the birds have time to gather it. It is thus preserved perfectly fresh and pure, and to the the melting of the snow disclo bushes, with the unconsumed last year's crop hanging on them or lying, ready to eaten, on the ground.

The frozen meal stretches across the breadth of Northern Asia. It never de cays, and it is accessible the moment the snow melts. The same heat which thaws the fruit brings into being the most prolific insect life in the worldthe mosquito swarms on the tundra. No European can live there without a vell after, the snow melts. The gun barrels are black with them, and clouds of them often obscure the sight.

Thus the insect-eating birds have only to open their mouths to fill them with mosquitoes and, thus the presence of swarms of cliff chaffs, pipts, and the wagtalls in this artic region is accunted for .- Cincinnati Enquirer,

#### BOOKS AND AUTHORS.

Andrew Carnegie has in preparation new book which will be a sort of sequel to his "Gospel of Wealth." It will be published about the middle of April.

The original manuscript of Stevenson's 'Child's Garden of Verse'' has been offered for sale at \$1,800. It contains some poems which are not in the published volume. A collection of 105 of Charlotte Bronte's letters has been priced by the Edinburgh owners, at \$2,250.

Another historical prince has been discovered and pressed into service by the fiction makers. This is the scapegrace cousin of Louis XV.; Rinaldo D'Este, whose adventurous career furnishes the thread for a novel called "The Prince Incognito," by Mrs. Latimer.

Mrs. Humphrey Ward has a new novel in readiness. It will be published serially in Harper's Magazine, beginning with the May issue. The title is "Lady Rose's Daughter," and the story deals with a quite young girl who finds it impossible to reconcile her ideals with the customs of British society as she finds it today.

Stephen Phillip's "Ulysses" is receiving very flattering mention from the reviewers. The author's effort to revive the poetic drama, as shown in this work, in his "Herod" and his "Paolo and Francesca" may not achieve a great popular success, but it is much to his poetic credit that he dares attempt it, in this worka-day age.

People seem to be in doubt whether Frank Stockton meant his recent novel, 'Kate Bonnet." for a satire on the conventional historical novel, or for a bons fide competitor for honors in that class. We have his word for it, however, so far as that goes! that the amateur pirate is truly historical, and that he has tried to give us a faithful picture of the times, - calle meter on an energy

Archibald R. Colquhoun's analysis of he Filippino character, in his "Mastery of the Pacific" is not very encouraging to those Americans who think that unfurling our flags over the islands and establishing free schools will transform the Filippinos into American citizens. He considers that the intermixture of Chinese and Spanish characteristics with those of the Malay makes a peculiarly

The demand for real estate; the flow of | Flanders, Hoyt, Irving, Glisan and Orebuilding permits; the sound of the ham-met and the any show that there is "somethin' doin' " all over the city. Rea estate men are hopeful and show that business is good with them: It isn't merely talk, either. The records bear them out in what they say.

Dr. K. A. J. McKenzie will erect a twostory frame building on the northeast corner of Davis and Sixth streets. The ground floor has already been leased, and will be devoted to stores, leases for which have already been signed. Lydia Cartes will put up a \$3,500 house on Union ave mus; between East Market and East Mil streets. At a cost of \$4,500 Captain Balley will build two flats on Tenth/street, between College and Jackson. At the southeast corner of Seventh and Clay streets, at a cost of \$4,000. Julia Marquam will have built a two-story residence.

FACTS THAT COUNT.

Notable improvements are making in the alteration of the Northern Pacific city ticket office at the corner of Third and Morrison. The cutting down of the site of the Mason's Scottish Rite Cathedral near the High School is progressing finely. The earth has been removed down to grade and excavation will follow. The Frank Schmitt Company's factory at East Eighth and East Taylor is getting on famously. It is intended to complete it by June 1. There are so many improvements going on in every direction that it is almost impossible to keep track

of them all. The record of real estate transfers for the past four days shows: Saturday, \$16,352; Monday, \$28,310.50; Tuesday, \$16,-108.20; Wednesday, \$4,878; total, \$65.648.70. The building permits for the same period are as follows: Saturday, \$14,865; Monday, \$4,350; Tuesday, \$10,750; Wednesday, \$3,775; total, \$33,740.

Through the courtesy of Charles K Henry. The Journal is given some valuable data. Mr. Henry has kept a careful record of building permits since January . These show for the East Side: January 1 to March 13, 72 permits of the value of \$154,400; March 15 to April 1, 28 permits of the value of \$35,675, or a total of \$190,-075 for 100 permits. For the West Side, from January 1 to

March 13, there were 50 permits issued of the total value of \$241,600.

EAST SIDE IMPROVEMENTS. Opinions of some of Portland's prominent dealers follow:

Charles K. Henry-"I have been selling more generally all over the city than ever before. Of course I common myself largely to East Side property and consequently endeavor to keep better posted there than elsewhere. It is a positive fact that the larger majority of building permits-I mean in number, not in amounts of val-

uation-are issued for the East Side .. "According to my observation, I should say that the greater amount of improvements are being made in that territory north of East Ankeny and extending as far out as the city limits. Prices are stiff, but they do not show a material rise yet over the prices provailing a year ago. More sales are being made now "I notice one feature of the market

that is somewhat, interesting. I have sold considerable vacant property for improvement to new comers, from Idaho, Nebraska, North Dakota, Iowa, etc.

gon streets, from the east line of Twen .veighth street to the east line of Hawthorne's First Addition. There is also one going the rounds for improvements from East Twenty-Linth and Glisan to the Sandy Road. These include grading, sidewalks, sewers, water mains, etc.

## GENERAL IMPROVEMENT.

Knapp & Maxwell-"We feel amazed at the way things are moving. There seems not the slightest doubt but that real estate is stiffening under the unusual demand, and there is certainly a heavy and constant movement. There is a great deal more being sold than has been sold before in many years. In Irvington, it seems to us, there perhaps is a greater evidence of improvement than anywhere else on the East Side."

Mr. Maxwell declared that in a residence here of more than 20 years he never saw so many changes or so great an improvement as that made within the past six months in every part of the city. The Hawthorne estate is one which is well worthy of observation. The 20 blocks which it owns and which is bounded by East Twelfth and East Sixteenth and by Hawthorne avenue and East Yamhill show great improvements. These are a credit to the city, and it is little wonder

that lots are selling here rapidly. The sidewalks being laid in this territory surrounding the whole 20 blocks, are of cement. The houses now building on this tract are modern and the equal, if not the superior, to many others. Within the past six months there have

been completed or are now in course of construction on the Hawthorne tract 20 homes at an aggregate cost of more than \$50,000. Contracts have been let for 10 more residences here that will have an aggregate cost of more than \$30,000. Hawthorne avenue is to be widened from East Eleventh street to Twenty-first street to a uniform width of 70 feet.

Hawthorne avenue, when this improvement is completed, will, with its easy grade, become doubtless, a favorite driveway. Hawthorne Park itself is a beautiful place, and all the purchasers of property in the tract have access to this park where Nature has done so much and man so little. It is an ideal spot for children A condition of sale of lots in this tract provides that no house shall be erected that shall cost less than \$1,500, and that no one shall be allowed to build more than one house on a lot. Since this is so this part of the city, when fully built up, will present an attractive appearance, and it is unlikely that any architectural freaks will be reared to offend the eye of good taste.

#### EAST SIDE PROSPECTS.

M. E. Thompson-"I am handling principally property in Williams Avenue Addition, in Upper Albina. This addition was platted by the Portland Trust Company last November, I made the plat, which consists of 35 acres and contains 10 large blocks, with 24 lots to the block, 600x200. This property was taken up right out in the stumps and brush. It extends from, Williams avenue on the west to Union avenue on the east and from Morris street on the south to Fre-mont on the north. We did not attempt to remove the stumps, but merely cleared away the brush.

"We have awarded the contracts for the improvement of this tract which call for the removal of \$0,000 cubic yards of earth in the way of grading, etc., and for the laying of a mile of sidewalks. A petition has been sent the Water Company for mains to serve the whole tract. Negotiations are progressing with the gas company to put in gas mains. A large number of persons are ready to commence building as soon as the streets shall have been graded and the water, gas and sewer pipes shall have been laid. "We have made a condition binding buyers who propose to build in this addition. For all lots between the east and west boundary lines in the blocks south of Fargo street and extending to Morris street, it is provided that no residence shall be erected at a cost of less than \$1,000. On all lots north to Fremont no house can be built that shall cost less than \$800. "Since November 1, last, there have been sold in Williams Avenue Addition about 100 lots, leaving 93 lots still on the market. These range in price from \$375 to \$600, but there are many that are held at \$500. These are reasonable at these prices, because they include improvements. "Now as to realty in other parts of the city. I find inquiry for desirable residence property in every direction. Take lots at Woodlawn and at Portsmouth, for example. These are in demand, and are being sold on a rising market. In some localities where one could heardly even give away a lot a year ago, they are now selling readily. Great as the amount of building now is, if the price of building materials, plumbing, etc., was less expensive than they now are, there would be even a greater activity than is now

Sumpter, are feeling elated over reports recently received from Louis Ostland, who is superintending the development work. He reports having struck a 15 foot ledge, from which ore has been taken that assays \$2540.

## SOCIAL NOTES.

The Vade Mecum Club will give a dance on the evening of May 1, at Burkhard Hall.

Mrs. James Kohn and daughter, Miss Sara, have returned from a six-months' visit to relatives in San Francisco and New York. They are at home at The Portland.

Mrs. W. T. Williamson, of Salem, is visiting relatives in the city.

Mrs. F. F. Rogers has returned from a visit to San Francisco.

"The Girls," a new dancing club, will give their initial dance Thursday evening. May 1, at Parsons' Hall. The patronesses will be Mrs. Batchelor, Mrs. Hilton and Mrs. Forbes.

The Academy Club gave a delightful dancing party last Friday evening at Parsons' Hall. The Patronesses were Mrs. S. E. Mulford, Mrs. L. L. McArthur, Mrs. W. D. Fenton and Miss Mor-CTORS.

The members of the Congregation Ahaval Sholom, are planning a monster excursion to Astoria on June 1.

Mrs. Conde Hamlin, of St. Paul, Minn ... will deliver an address before the Civic Improvement League, Friday evening April 25, at the First Baptist Church.

Watson's Restaurant, open nights to 1 a. m.

A public recital will be given by the pupils of Miss Henning, Miss Higgins, Miss Denril and Mrs. Hidden, this evening at St. Helen's Hall.

"Politics of Today" was the subject under discussion at last night's meeting of the Afro-American League, which took place at the club's rooms at 2691/2 Everett street.

Fortland Club, Fifth and Alder. Finest lunch in city. Portland Club, Fifth and Alder.

The Chamber of Commerce received a

letter from Captain John Ramsey Gordon, master of the steamship Strathgyle, complaining about the pilotage service at the mouth of the Columbia River.

mouth of the Columbia River. BIGHT HOUSES NEAR STEEL bridge on payment of \$15 to \$25 per month, at low prices. Houses on 11th and Kearney, West Side, for \$1650, at \$15 per month. # PROPOSALS FOR LUMBER.

County Court, Multnomah County, Port-

County Court, Multhomah County, Port-land. Oregon. Scaled bids will be received at the office of the Clerk of the County Court for Multhomah County until 10 o'clock a. m., Monday, the 5th day of Mey, 1902, for furnishing and delivering lumber for re-pairs of the Madison-street and Morrison-street bridges. Specifications for said lumber are now on file and may be seen at the office of the Clerk of the County Court.

at the office of the Clerk of the County Court. The successful bidder will be required to promptly execute a formal contract to be approved by the District Attorney of this county, and also to execute and deliver to the Clerk of the County Court a good and sufficient bond in total the amount of contract price for the faithful per-formance of such contract. All bids must be accompanied by a cer-tified check in the amount of 10 per cent of the bid. The County Court reserves the right to reject any and all bids. By order of the County Courts -I., G. SWETLAND, Clerk Portland, April 22, 1905.

now in the national museum.

This amusing story was told\_of the niece of Phillips Brooks, the famous divine:

fast, dressed them for school, made up One evening, as her mother was tucktheir lunches, washed the dishes, made ing her snugly in bed, a caller was waitthe beds, sorted the solled linen and put ing in the parlor. Her mother told the it in the tubs, swept and dusted the little one to say her prayer and said that parlor, sewed a button or two on the she would be back in a few minutes. children's clothes, interviewed the gas The caller stayed only a short time, man, grocer und butcher, put off the and when the mother went upstairs again "That will do, madam," interrupted she asked the little girl if she had said

her prayer. "Yes, mamms, I did and I didn't," she

sald. "What do you mean by that, dear?" "Well, mamma, I was awfully sleepy, so I just asked God if he would not ex-

cuse me tonight, and he said 'Oh, don't mention it, Miss Brooks."

"I bet Tinkens that my bicycle could go a mile a minute for 50 miles. I won." "You don't mean to say that you rode

#### that fast?" "No."

"Then how did you arrange it?" "Why, I put the bloycle in the baggage car of a through limited."

these, forced by the perpetual sunshine Have you tried Peacock hard wheat of the artic Summer, bear enormous crops of fruit. But the crop is not ripe flour?.

and the second second

Some of these new-comers have been in Portland for a year living in rented houses. They admit that they like it so well here that they are glad to live here permanently and that is the reason they are buying vacant lots and putting up homes of their own."

ON THE UP-GRADE.

Benj. I. Cohen, President of the Portland Trust Company, said:

"In a general way I may say that we are now getting the accumulated benefit of years of saving and that real estate will advance more rapidly from now on during the next 12 months. This is true because real property has Schind it this accumulated force.

"There is every indication that Portland will become a big city, and in all big cities lots are more closely built upon than here, consequently the values per square foot are higher.

"I think the day is past when one can afford to give a full-sized lot, 50x100 fest to build a cottage upon renting for \$12 a month. The tendency seems to, be to cover the lot with buildings, and thus, by making an increase in rental incomes, to add very largely to the value of the

ground. "In addition there is a big immigration to Oregon. Portland has never yet out grown the territory tributary to it, and just now the city is growing fully as rapidly as the country. Many of the new-comers have money with which to buy property on a cash basis. All these various complicated causes make for higher prices in Portland realty." A petition is now in circulation for

signatures for the improvement of East Couch, East Davis, East Everett, East | prevailing."

## COURT NOTES.

Mrs. E. T. Caswell has filed sult in the State Circuit Court against E. O. Caswell and L. E. Caswell to recover possession of five lots in Peninsula Addition, which she claims E. O. Caswell, as trustee, had no right to sell to a third party.

William J. Wright was yesterday ordered to pay to Lizzie E. Wright, who is suing for a divorce, \$35 suit money.
