

WHO THE CANDIDATES ARE.

MAJOR J. F. KENNEDY. To write of the personality of Major J. F. Kennedy, candidate on the Citizens ticket for County Clerk, is like gliding reined gold.

W. H. POPE. W. H. Pope, Citizens' candidate for County Auditor, was appointed to that office by Judge Morland in 1894 and he has conducted the work of the office in such an excellent manner that he has been constantly re-elected to the position by the people at every election.

L. R. LEWIS. L. R. Lewis, the Citizens' candidate for County Surveyor, is already the active deputy of the office and is making the race against his principal, who is the Republican nominee.

EDGAR H. THORNTON. The Citizens' candidate for Coroner is Dr. Edgar H. Thornton, a young physician of ability and excellent character. He is a Republican by faith, a doctor by profession, an actor by habit, and will perhaps be Coroner by election.

E. A. AUSTIN. E. A. Austin, a candidate for representative in the legislature, is a painter by trade and resides at Sellwood. He has always been a Republican and a strong worker for organized labor. He is a very popular citizen.

J. C. BAYER. J. C. Bayer, who is a candidate for the Legislature on the Citizens' ticket, has already served two terms in that body. His record was a good one. He is a Republican and has always affiliated with that party.

BOARD OF TRADE.

The Board of Trade will meet next Monday evening in the mining chamber of the Chamber of Commerce building. J. N. Teal will deliver an address on the "New City Charter."

Action will be taken in regard to giving credentials to Ames McGowan, president of the Ames Mercantile Agency, who is going to Scotland on a visit. Mr. McGowan wishes these credentials so that whatever information he gives out regarding Oregon's resources, should receive proper attention as coming from a member of the Board of Trade.

Reports will be handed in by F. Motter on statistics of charges paid in other cities on water, telephone, electric light and other rates.

Mr. Gaston will read his report on the Coos Bay railway, after which there will be a general discussion of the proposed steamer line to Alaska. Secretary Moore is sending Senator Mitchell extracts from the papers in relation to the bids for lumber to be sent the army post at Manila; also whether Portland firms will be allowed to hand in bids if the lumber is sent from Portland harbor.

THE BROOKLYN HORSE SHOW

(Journal Special Service.) NEW YORK, April 24.—The tenth annual horse show of the Brooklyn Riding and Driving Club opens tonight, and it promises to be the most notable event of the kind ever held in the city.

Thirty-nine classes are provided for, covering every department in riding, driving, jumping and special events. A popular feature of the show this year will be the jumping contests. All of the former blue-ribbon winners as well as many new ones are entered for competition. The polo ponies are also much in evidence. The other classes will represent include trotting roadsters, carriage horses tandems, four-in-hands and saddle horses.

The exhibition will continue through the remainder of the week.

MRS. VANDERBILT LEARNS TO COOK

(Journal Special Service.) PARIS, April 24.—Mrs. W. K. Vanderbilt, Jr., attended the culinary exposition lately opened in the Tuilleries Gardens and took a lesson in cooking from "Mother" Moreau, a character famous all over France as an expert in home-made dainties.

Young Mrs. Vanderbilt removed her hat, donned a white apron and a pair of white sleeves and her lesson lasted two hours.

The elder Mrs. Vanderbilt, who was her escort, was highly amused at his daughter-in-law's progress.

DRIVEN FROM DOWIE'S CITY

(Journal Special Service.) WAUKEGAN, Ill., April 23.—James Schumacher, of Zion City, has lost his faith in Dowie, and from being one of the warmest believers and supporters, the general overseer of the Christian Catholic Church has become one of his most bitter enemies and detractors.

Until a few months ago Mr. Schumacher stood high in the councils of Zion, and Elijah Dowie took occasion frequently to exhibit in public the regard he had for his devotee.

ing his money, some thousands of dollars, in Zion City land and various enterprises in which Dowie is the central figure.

He had seven children, and with them had taken up his abode at Zion, where he had erected a little home and expected to pass the remainder of his days.

When Mr. Schumacher was "all in," as a gambler would tersely express it, and there was no prospect of his being able to make further investments, the light of Dowie's countenance ceased to shine upon him with the same refulgence that it had been wont to do. It became generally known in Zion City that he was under a cloud and the faithful were chary of being seen associating with the man of whom the "Doctor" disapproved.

To add to Mr. Schumacher's troubles the clothing of one of his little children caught fire a week ago and the child was so badly burned that it died. In the minds of the Dowieites this was a judgment upon him for his sins.

The Dowieites, in consequence, shunned Mr. Schumacher so strictly after this event that he might almost as well have lived in a desert. He rebelled at this treatment and spoke his mind about it.

These utterances reached the ears of Dowie, and not being of a nature exactly complimentary to the "prophet," the latter issued an edict that Mr. Schumacher must leave the chosen city. As all the worldly possessions of the Schumachers were tied up in Zion, this was not an easy thing for them to do. Dowie insisted, however, and they had to go.

VETERANS' REUNION.

(Journal Special Service.) HELENA, Mont., April 24.—Helena is gay with flags and bunting today in honor of the Grand Army veterans of Montana, whose annual state encampment is in session. The reduced railroad rates has resulted in a large attendance of visitors, including members of the Woman's Relief Corps and other bodies affiliated with the G. A. R. The business sessions of the encampment began today and will be concluded tomorrow.

RACING AT NASHVILLE

(Journal Special Service.) NASHVILLE, Tenn., April 24.—All the indications are that the Spring meeting of the Tennessee Breeders' Association, which opens at Cumberland Park this afternoon, will be the largest meet in the history of that popular track. There are over 500 well-known horses now stabled at the track, and the demand for accommodations has been so great that the capacity of the inclosure has been put to the test.

The city is rapidly filling up with the "sporty boys" who follow the ponies, and the stewards are counting on the best meeting the club ever experienced.

As usual, the event of the opening day is the Cumberland Derby, for 2-year-olds, one and one-eighth miles, \$2,000 added. Abe Frank goes to the post favorite. The other entries include a number of well-known horses and the race is likely to be an exciting one. In addition to the Derby other features of the meeting will be the "Avondale" and Belle Meade stakes.

CHRISTIAN ENDEAVORS.

(Journal Special Service.) COLUMBUS, Ga., April 24.—The City of Columbus is in the hands of the Christian Endeavors. Delegates to the eighth state convention have been arriving throughout the day, and the indications this afternoon are that the attendance will far exceed that at Atlanta two years ago. The city is in gala attire in honor of the guests, the decorations being elaborate on both business houses and residences. The largest delegations so far are from Savannah, Atlanta, Augusta and Macon. The convention will be opened this evening with addresses of welcome by Hon. L. H. Campbell and Mr. P. E. Whitlock, president of the Christian Federation. F. G. Shaw of Augusta, state president, will respond for the visitors. For the succeeding sessions an interesting program has been arranged.

EMBARRASSED THE LADIES.

(Journal Special Service.) PARIS, April 24.—Mrs. Bradley-Martin and the Countess of Craven recently gave a fortune telling party. Eighteen English and American ladies were invited and an equal number of genuine Bohemian fortune tellers were engaged.

Each guest drew her fortune teller's name from an urn, and then, beginning with No. 1, her past life was revealed and her future was predicted while the others listened.

Mrs. Bradley-Martin is proud of her invention. The first trial of the novel mode of amusement proved endless fun. But for some of the guests it was embarrassing.

MISSOURI DAY.

(Journal Special Service.) CHARLESTON, S. C., April 24.—Today was set aside at the Charleston exposition as Louisiana Purchase Exposition day, and there was a large attendance of representative citizens from St. Louis and other cities of Missouri. The officials of the St. Louis Exposition were among the visitors and there was also a large delegation representing the Missouri Press Association.

Costs More for Music.

The members of the Musicians' Mutual Association have adopted a new price list to prevail in the theaters the coming season. An increase of 10 per cent in the present wages was agreed upon, and lists announcing the raise will be printed at once. A slightly advanced price list was also adopted for pianos and excursions, beer gardens, parades and meetings, which will go into effect at once.

In the Spring Ue Dr. Prunders Oregon Blood Purifier. Tested and True.

Have you tried Peacock hard wheat flour?

CRACK AT BILLY BRYAN'S HEAD

(Journal Special Service.) CORPUS CHRISTI, Texas, April 24.—It is given out by a prominent Texas party leader and a close friend to James B. Wells, chairman of the Democratic state executive committee, that the Joseph Weider Bailey presidential boom was launched for the sole purpose of defeating Bryan in the South, should the Nebraska again be a candidate.

The story goes that the early springing of the Bailey boom is intended to discourage even Mr. Bryan's aspirants for a third time, as it is hoped Bailey's name will arouse such enthusiasm among Southern Democrats as to wipe out the last vestige of a chance for Bryan in this section.

Richard Croker is said to have suggested the scheme when a few trusted leaders in each Southern state were taken into confidence, but Bailey was not among them. He was to have been kept in the dark as to the real interest of his boom, and so were the great majority of his followers.

The edict has long since gone forth that Bryan must be thrown over, but how to do this, without antagonizing thousands of his supporters in the South and driving them back into the Populist party, was a poser until Croker's plan

was sprung. The scheme is for Bailey to make the race and go into the next national convention with all the pledged Southern votes he can obtain and then at the proper moment his name is to be withdrawn and his support thrown to Hill, German or some other whom the conservative wing of Southern Democracy may have agreed upon.

The Texas state convention is to be held very early in 1904 and the Lone Star state is to be led off by instructing for Bailey. It is hoped and believed that Texas' example will be followed by other Southern states, who would naturally support a Southern man.

While it is the scheme to send delegations to the national convention instructed for Bailey, great care is to be taken to select the personnel of such delegations. No man who objects to an understanding with the North and Eastern wing of Democracy is to get on a delegation. The Bryan men may write all the platforms, if more be necessary, to palliate them, but no man who is considered at all dangerous to the working of the scheme is to be allowed on a delegation from the South that may instruct for Joseph Weider Bailey for the next Democratic nominee for President.

EDUCATION

Teachers Conventions in Georgia and Ontario.

(Journal Special Service.) ATHENS, Ga., April 24.—Athens is crowded with teachers and educators from all parts of the South, together with a distinguished delegation of Northern philanthropists and educators, who have come to attend the fifth annual session of the Conference for Education in the South. The session will begin this evening and continue through the remainder of the week. From present indications it will be one of the largest and most representative gatherings of educators ever seen in the South.

The conference is made up of representatives of the Peabody Board, of which Robert C. Ogden is chairman, which devotes itself to the education of whites in the South, and of the Slater Board, whose mission is to decrease the illiteracy among the Southern negroes. The Southern Educational Board and the Board of the General Educational Fund. Among the participants in the conference are President E. A. Alderman of Tulane University, Hamilton W. Mabie of New York, President C. W. Dabney of the University of Tennessee, Dr. Albert Shaw, editor of the Review of Reviews, Francis G. Peabody and Rev. Dr. Greer of New York.

CANADIAN TEACHERS.

OTTAWA, Ont., April 24.—Fifteen hundred teachers took possession of Ottawa today and the city was patriotically decorated with flags and bunting in honor of the annual convention of the Northern Illinois Teachers' Association. The visitors were met at the trains by members of the reception committee, who escorted them to headquarters, where they were registered, provided with badges and assigned to homes. The convention will be formally opened this evening with a session in the assembly hall of the High school. An attractive program has been arranged for Friday and Saturday, including papers, addresses and discussions covering a wide range of subjects relating to educational work.

MORE TROUBLE

The Sailor Boarding House War Is Still On.

It is reported that one of the crew from the British ship Lord Shaftesbury was lured away Tuesday night, presumably by representatives from one of the sailors' boarding-houses.

When seen concerning the matter, the British Consul stated that such work is in progress by the boarding-house men here all the time. This port, he said, has become notorious all over the world for the methods which are employed here to induce sailors to desert in order to provide a crew for some other ship, thereby replenishing the purses of those engaged in the work of conducting boarding-houses.

He says that runners go aboard ships and with plausible stories invariably succeed in getting a portion of the crew to accompany them.

Asked why the masters of the ships tolerated the presence of these people aboard the vessels, he replied that they were not aware of their mission, very seldom being acquainted with them personally.

Another gentleman interviewed on the subject gives another version of the matter. He says that the captains work in harmony with the boarding-houses, and secure a portion of the proceeds when the men are furnished employment with another ship.

The money exacted in this manner, therefore, comes from the owners of the vessel losing its men, as they will be obliged to purchase a new crew.

MARRIED.

The Friend of Molineux and the Girl Who Wedded the Clubman.

(Journal Special Service.) WHITE PLAINS, N. Y., April 24.—In St. John's Episcopal Church, Larchmont, today Miss Jessie Flint, daughter of Mr. and Mrs. Frederick W. Flint, was married to Mr. Albert J. Morgan, a young millionaire of New York and Larchmont. The ceremony was performed by the Rev. Richard Cabden, and was followed by a reception and banquet at the bride's home. The honeymoon will be spent abroad.

The bride and bridegroom of today are both fond of outdoor sports, Mrs. Morgan

LOSING HIS JOB

(Scripps-McRae News Association.) WASHINGTON, April 24.—In view of the frequent charges made against United States Minister to Guatemala Hunter, by American residents of that country, the State Department has concluded not to return him to that post after the expiration of his present leave of absence.

HOOD RIVER FRUIT CROP

(Journal Special Service.) HOOD RIVER, April 23.—The Davidson Fruit Company, of this city, is manufacturing 60,000 strawberry crates, as against 40,000 last year. This increase in crates compares with the increase in the strawberry acreage near Hood River, which last year was 150 and this year 655 acres. This season's apple crop will also double former years. Hood River Valley, which has a world-wide reputation for luscious vine and tree products, will this season surpass all previous years in diversity and abundance of products.

Won't Build Line Now.

The presence of C. E. Lytle, the general freight agent of the Columbia Southern at Condon, arrived from Shaniko the other day, led to the report that that company is about to project an additional extension. It was given out that it is proposed to build from Kent or Wilcox in Sherman County, across the John Day River, along the banks of Thirty-Mile to where that stream crosses the road, at a point about five miles south of Condon.

It was further reported at Condon that it was estimated that the cost of construction of the proposed line will be in the neighborhood of \$17,000 over and above what it can be bonded for. In case the line is to be built, an effort is making, it is said, to have the business men and ranchers in the territory to be served, contribute \$75,000 towards the enterprise. Of course it is not expected that any of this money will be paid over until the proposed extension is completed and ready for operation.

BACKWARD SPRING.

(Journal Special Service.) HELENA, April 24.—According to Thomas A. Grimes, of Eichen & Grimes, who owns a large sheep and cattle ranch at Mitchell, about 9 miles northwest of Helena, the season this year is fully two weeks behind that of a year ago and the grass which last year at this time was about six inches high has only commenced to grow. Mr. Grimes stated that the ranges were dry, and that it would be a good thing if there was a fall of snow of about six inches.

COLONIAL TROOPS AT CORONATION

(Journal Special Service.) LONDON, April 24.—Colonial troops to the number of 2,500, will visit London for the coronation, including Australians, Canadians, Cypriots, Dyaks, Malays, Maltese and South Africans. Their accommodation is a matter of concern to the authorities, as the barrack-room accommodation in London is barely sufficient for the number of home troops who will be drafted into the metropolis.

Negotiations have been entered into with the idea of utilizing the grounds of the Alexandra Palace at Muswell Hill as a camping ground.

Use Dogs to Advertise.

This advertisement has appeared for the last two weeks on billboards all over Staten Island and in the local newspapers.

WANTED TO RENT—Dogs; all the dogs on the island, just for two days, at 10 cents per day; you keep the dog and we pay you the cash; any old dog will do; brings your dogs to the gas office at 10 o'clock Saturday morning, April 12, 1902.

To this was appended the corporate name and address of the company which supplies Richmond borough with gas. It was expected by hundreds of boys with beads by hundreds of boys with beads yesterday morning, and two policemen posted on the street in front of the office. They were soon joined by an agent for the Society for the Prevention of Cruelty to Animals. The crowd of dogs and boys did not appear.

At 10 o'clock the company's manager said to the waiting reporters and police that they proposed attaching an advertising card to each dog presented. Ten cents would be given to the person bringing the animal, and when it was returned on Monday, with the advertisement still attached, the second 10 cents would be paid. During the day 60 boys, girls and young men brought dogs, permitted the attachment of the cards and received the promised reward, but they came singly and in pairs, and at no time was there a crush or any excitement.

SHIPMENTS TO CALIFORNIA.

The George W. Elder sailed Tuesday night with about 1,400 tons of general merchandise, the largest tonnage she has carried this season. In the shipment were 430 sacks of potatoes. At Astoria she received an additional 100 tons of goods for California.

Nearly every steamer that leaves this port for San Francisco takes from 50 to 75 tons of blacksmith iron, a fact which is not generally known. The iron manufacturers here are building up a great industry, gathering up all the scrap iron throughout the country and exporting it in the manufactured form.
