

SENATOR CARMACK LATHERS ROOSEVELT

Pays His Compliments Likewise to the Republican Party.

(Scripps-McRae News Association.) WASHINGTON, April 25.—Senator Carmack of Tennessee, a member of the Senate Philippines committee, discussing the Philippine civil government bill in the Senate today bitterly opposed the Administration's policy. He said the bill, like the Philippine tariff bill, simply presented one aspect of imperialism. He held that it was not a question of only framing just laws for the Philippines, but a question of the right to make any laws whatever for the Philippines. The claim of the Republicans is that they have burned enough towns, wasted enough country and killed enough people to make good their right; that the land is ours because we have strown it with the ashes of its homes and drenched it with the blood of its people.

THE WHITE FLAG SHOWN.

(Scripps-McRae News Association.) WASHINGTON, April 25.—The following from General Chaffee was made public this morning: Manila, April 24.—Before Lieutenant-Colonel Baldwin could be communicated with, he had taken Fort Atupulas, province of Mindanao, after slight resistance and no casualties. Very soon afterward the town of Canast hoisted the white flag, and the datto and others, with a strong following, asked permission to call and make peace. The Sultan of Canast has asked Colonel Baldwin to come to his camp. I have instructed Colonel Baldwin not to move. It is our purpose to show considerable force of troops to the Lake Moros, and then retire the troops by different trails, and thereafter to send expeditions occasionally to the lake. Every effort will be made to prevent a general war. General Davis says the situation at this time is very favorable in the locality where he is operating.

UNITED STATES IN EARNEST

Has Laid Strong Foundation on Which to Prosecute the Packers.

(Scripps-McRae News Association.) CHICAGO, April 25.—Preliminary steps to prepare cases against the packers was taken today, and when Special Attorney Day arrives from Washington actual work on preparing the bills will be begun. It is announced today that the government's investigation, which will be conducted entirely in Chicago, will be national in its scope. Lawyer Day is bringing with him the fruits of a month's work by attorneys in various parts, from New York to San Francisco, on which evidence it is expected the packers will be convicted of organizing and operating a trust. The District Attorney's office has issued a call for any evidence that any person may have to the effect that the packers are acting in violation of the Sherman anti-trust law. Federal officials here are confident that evidence is at hand sufficient to cause conviction in a number of cases. A number of employees of the stockyards and packing houses have signified a willingness to give testimony showing the existence of the trust.

CITIZENS

Ready to Open City and County Campaign.

No Haste in Filling Vacancies on the Ticket.

The managing committee of the Citizens' ticket will have their headquarters opened for the reception of visitors tomorrow. They have engaged rooms 307 and 309 in the Worcester building, corner of Oak and Third, where Chairman Miller Murdock and Secretary W. N. Gatens will install the fixtures and working force for a vigorous campaign. The committee will hold a meeting tomorrow, when plans will be more specifically outlined and the movement already started accelerated to attain the success they expect will result from their efforts. As to the status of the city treasurer's matter, and the adjustment with reference to filling the vacancy caused by Mr. Streeter's resignation, the committee stated through one of its members today that no haste is needed. The committee has, under the law, several weeks in which to act, and therefore no one is worrying about it. The same may be said regarding the status of Senator Inman, candidate for Mayor, and his resignation. While it appears to be likely that the Senator will resign the matter has not yet been brought to a conclusion, and no one knows at this time what will be the decision. In this, as well as in the treasurer's matter, there is no necessity for undue haste, as several weeks will pass before final action must be taken according to the provisions of the election law. The committee has full power to fill all vacancies on the ticket, and will do so in each case when the time comes. Dr. Harry Lane, candidate for the State Senate, was asked this morning what sort of a campaign he would make in the present contest. He replied: "It is up to Mr. McGinn to decide. I have no particular preferences, and shall gladly accommodate myself to the situation."

A member of the Citizens' managing committee regarded the report that there is serious intention to pull off George H. Williams as the Republican candidate for the Mayorality. He replied: "We do not give credence to the report. It would be a confession of weakness that they will not make. It would humiliate General Williams. It would be to retire under fire. It would be to acknowledge that we have nominated a stronger candidate in Mr. Inman. However, this much we will say, that the fact that the question is broached is evidence that the situation is not pleasing to the Republican managers, and already the effect is wrought, whatever may be done. It was a piece of poor political engineering when they allowed the discussion to become public. The total result is to place us all in a very complacent frame of mind."

The City and County Central Committee will hold a meeting this evening, at the call of Chairman Sweek, in the rooms of the State Central Committee, which, for the present, at least, will be the headquarters of Mr. Sweek's committee. Regarding the matter to be considered, nothing was given out. General plans for the campaign will be decided, and matters lined up for vigorous work.

(Journal Special Service.) THE DALLES, April 25.—Negotiations are pending which, when consummated, will pass The Dalles, Portland & Astoria Navigation Company into the hands of the Columbia Northern Railway Company. The merger is practically completed, and all it needs before ratification is to increase the purchase price a small amount on each share. The new company offers \$25 per share, and the boat company asks \$20.

The D. P. & A. N. Co. is better known to river passengers as the Regulator line, and was established in 1890.

SUGAR TRUST

Does It Own All the Sugar in Cuba?

(Scripps-McRae News Association.) WASHINGTON, April 25.—The Senate Cuban committee today decided to make an investigation of the charge that the sugar trust holds the entire Cuban sugar crop, and has appointed a sub-committee consisting of Platt of Connecticut, Burnham and Teller to conduct the inquiry. Officials of the sugar trust and others will be called to testify.

(Scripps-McRae News Association.) NEW YORK, April 25.—Three men were found dead in Petera's hotel at Coney Island this morning. One was identified as Frank Miller, but the others are unknown. Gas was pouring from a jet, which it is believed, was accidentally turned on by some one of the men before retiring.

WHEW!

Fabulous Figures for White Star Line.

(Scripps-McRae News Association.) LIVERPOOL, April 25.—A report is circulated this afternoon that the White Star line, the only line not in the new Atlantic shipping combine, has been sold outright to J. P. Morgan & Co. According to the report, Mr. Morgan is paying \$10,000 for each 100 shares of the company. The formal transfer, the report says, will occur when the present agreement between the White Star line and the British government ends.

MONEY BESIDE A NEGRESS

Haughty Mississippian Will be Tried Next Thursday.

(Scripps-McRae News Association.) WASHINGTON, April 25.—Standing at the bar of justice beside a colored woman, charged with assaulting an officer, Senator Money of Mississippi this morning pleaded not guilty to the charge of assaulting Conductor Shaner, with whom he had a fight on Thursday, during which Shaner was cut by the Senator. Shaner and Motorman Hooper, who were brought into court on countercharges, also pleaded not guilty to assault, and their trial will be held next Thursday.

CORRIGAN'S CONDITION

CAPTURED

Murderous Half-Breed Now in Jail.

Illegal Distillery Provided Anderson With Liquor.

Nick Anderson, the half-breed Indian who made a murderous assault upon George L. Tooley at Holbrook Sunday last, was brought to this city by Deputy Sheriff George McMillan today and lodged in the county jail. He was captured last night by J. A. Schuneman, Marshal of the town of Rainier, while apparently attempting to get out of the country. Sheriff Frasier had telegraphed Anderson's description to all points along the Columbia river, where he would be likely to pass. Deputy George McMillan, Harry Meyer and F. D. Mathews, who left Portland for Holbrook yesterday morning by team, arrived at Sawyer's Island too late to catch Anderson. They procured a rowboat and crossed Columbia slough to Smith's place and found the house where the fugitive had lived, and learned that Anderson had left there at 10 o'clock of the same day, giving his keys over to another man and telling him that he was going to leave for a few days. It is evident from the scarred appearance of Anderson that he received a hard beating from Tooley and his wife. His eyes are both blackened, a big bump stands out on the side of his head, his lip is cut, and a bad wound was inflicted near the knee, presumably by blows of the hatchet in the hands of Mrs. Tooley. Tooley is still alive, but his condition is worse today than it was yesterday, and there are slim chances for his recovery. The arrest of Anderson has unexpectedly revealed a skeleton that has apparently been grinning for a long time at Uncle Sam's Revenue Inspectors of this district. It is said that there is a distillery of spirituous liquors situated on Sawville's Island. Nick Anderson is supposed to have procured his whiskey there that led him to the commission of an assault. Anderson will claim that he was drunk and not responsible for the act he committed; and it is believed that with a long term of imprisonment staring him in the face, he will not hesitate to tell all he knows about the persons who are illegally manufacturing "firewater."
