TWO STRIKES ARE ON TODAY

Demand of Laundryworkers and Sawmill Employes for Higher Wages.

The Laundry Workers' Union met Saturday night and adjourned exclusively in the Journal, declared unanimously in favor of a strike.

About 235 employes are out, and they say that unless their terms are granted soon it is believed that every laundry of the association will be closed up.

Several of the laundries are running high-handed today, and making strenuous efforts to secure other labor. Their teamsters, although supposed to have a union of their own, are working in harmony with the proprietors, informing customers that the strike is of not much significance and that it will soon terminate.

At the Troy Laundry, two-thirds of the employes are out. According to the statement of the manager, one-third reported for work this morning.

Pickets have been established by the union at all the laundries and the situation will be watched closely and reported to the workers' headquarters which have been opened at Third and Columbia streets, in the Walters' Alliance hall.

entire matter in the hands of the local Executive Board, with full power to act, who placed a business agent in the field who was able to find out from the bosses what they considered a reasonable agreement and scale. The remainder of the month then passed in the business agent receiving the glad hand and happy smile from the bosses, but no information. The bosses seemed to be satisfied with the present conditions, no matter what the employes thought. No signatures having been secured before March 31, the matter was then carried to the Federated Trades Council and the good offices of their grievance committee invoked. When they reported back to the Council the matter was then placed in the hands of the Arbitration committee of that body. In the meantime, acting under the instructions of the International office, the International agreement was dropped, and a local agreement was prepared, and the scale formerly submitted was reduced to what we believe is as low as we can go. This was placed in the hands of the Arbitration committee of the Federation to submit to the proprietors, who refused to sign on account of the article relating to the employment of Union help through the office of the Union when Union help was available; but they can hire non-union help when we are unable to secure them, but we expect the Union help thus employed to become members of the Union within fifteen days after going to work. If we are not protected in this way it would be but a short time before the Union employes would be out of jobs, and their places filled with an ever increasing army of non-union labor. The agreement which we present is not nearly so binding as the one in vogue in San Francisco. Regarding the scale the differences are not so great as the employes would have the public believe, and is about 20 per cent under the San Francisco scale.

"We have assurance that sufficient capital will be forthcoming to start a large Union factory, if the matter is not settled at an early date. The proprietors attempted to forestall us by informing the machinery houses that they would boycott them if they sold machinery to be placed in Portland within a year. We have been told that we can get the ma-

LOOKING FOR PROXIES.

"GRAVEYARD" McGINN, candidate for senator,—"Why let me see; though dead many years, I used poor Foster's proxy some time ago, but the papers published it. Guess I'll pick out names this time that are not so well known. I might need 'em at the next primaries."

THE PENALTIES OF WAR

More Than 2,000 Americans Have Died of Disease in the Philippines.

(Scripps-McRae News Association.)
WASHINGTON, April 28.—With the surrender of Quevarra to General Grant in Samar, War Department officials believe the most serious portion of the army's work in the Philippines is over, unless troubles with the Moros should increase.

In subduing the Tagalo insurrection, according to the latest official figures, the United States has employed 3477 officers and 108,800 enlisted men.

Of these, 649 men and 50 officers have been killed in action, 12 officers and 207 men have died of wounds, and 306 officers and 210 men have died of disease.

BEEF TRUST SUIT LINGERS

Three Months Before Decision Can Be Had.

(Scripps-McRae News Association.)
CHICAGO, April 28.—Special Attorney Day and United States District Attorney Betcha continued today the work of preparation in making war on the so-called beef trust.

There are no new indications that a bill of injunction will be filed this week. Contrary to expectation, the Federal officers will not ask for immediate relief.

It may be 90 days before an injunction will be issued, if at all.

Instead of asking for a temporary restraining order, a permanent injunction will be applied for.

Going through the usual routine, it would be at least three months before a decision could be reached by the court.

By this time grass cattle will have come into the market, relieving the present situation and forcing a natural reduction of prices.

FORGER

Returned to This City for Trial.

Detective Joe Day arrived from Spokane this morning with Frank Wiley, wanted here for a number of forgeries, committed under the name of Bender.

Day mailed the requisition papers to Olympia and proceeded direct to Spokane, where the ex-bank clerk was being held. After a little parley, Wiley consented to come to Portland without the formality of the requisition.

Ex-Captain of Police Belcher was summoned to the jail this morning for the purpose of identifying Wiley. After taking a glance at the prisoner, he said: "Yes; that's the fellow; all right. He passed a forged check on me, but I guess he's got enough to answer for without my prosecuting him. I shall not appear against him."

Others will, however. The first charge will come up in the Police Court tomorrow.
