The gun, which has been in course of construction about four years, will first be sent to Sandy Hook for proving. Last week the War Department decided to mount the gun on a disappearing carriage. # GEN. SMITH'S TRIAL IS ON.

(Scripps-McRae News Association.)  
MANILA, April 28.—In the Smith court-martial trial today, Major Walter told of receiving orders from the defendant to kill, burn and turn Samar into a howling wilderness, but in extenuation he said the natives were treacherous. Even with all the severity of war in Samar, the insurrection is still going on. General Smith never intended women and children should be killed. Several privates testified that boys of 12 to 15 years of age were found fighting in the ranks of the insurgents.

# SOL RUSSELL PASSED AWAY

(Scripps-McRae News Association.)  
WASHINGTON, April 28.—Sol Russell, the noted actor, who retired from the stage two years ago, died at his apartments at the Hotel Richmond at 2:30 this afternoon.

His wife and daughter were at his bedside when the end came.  
It was only recently that a cottage in Blue Ridge mountains had been rented for Mr. Russell, and arrangements were being made for the comedian to resume his work on the stage next season, if his health permitted.

He left the stage two years ago when he was stricken with a nervous trouble in Chicago.  
He recovered from that ailment, but about six months ago began to suffer from locomotor ataxia. Since then he has been unable to move.  
Arrangements for the funeral will be announced tomorrow. It is likely to be held under the auspices of the Elks, of which order he was a member.

# MILLION READERS WANTED.

(Journal Special Service.)  
WASHINGTON, April 28.—A million readers are wanted for the new banking and currency bill.  
"I am sending the report of the banking and currency committee to 1,000,000 persons, classified as follows: Clergymen, 125,000; physicians, 125,000; lawyers, 50,000; teachers, principals and professors, 50,000; banks and bankers, 15,000; newspapers and periodicals, 21,000; manufacturers, 103,000; jobbers, 22,000; farmers, 40,000. The reform of our finances and currency is, to my mind, the most important question now before the American people. Especially are those who use their credit for the borrowing of money, the true builders of our nation, deeply and materially interested. Convinced as I am of this fact, I deem it my first duty to do everything in my power to bring to the attention of the people full information about a subject which I regard as the most vital question of our time."  
The foregoing was the statement of Chairman Fowler of the committee on banking, made today.

At this afternoon's performance, the daring bareback riding by Edna and Kitty Cook, the only women somersault riders, was greatly admired. The evening performance will commence at 8 o'clock.

(Continued from First Page.)

chinery when we come with the money. So chinery when we come with the money. So that settles a matter. We intend to use none but honorable means to gain our point, and with our international and that settles a matter. We intend to use none but honorable means to gain our point, and with our international and sixty-one local unions in this city to back us, we feel sure of success.

The Laundrymen's Association issued the following notice today:  
"On March 1 we were presented with their international agreement and scale of wages, requesting that we sign not later than March 15. After thorough discussion it was decided we could not accept their demands, and in a courteous reply covering five pages of typewritten matter we thoroughly explained our position and reasons for having to refuse their request."

"In conversation with the president of the Laundry Workers' union regarding the wage scale he frankly admitted they did not expect to get the wages demanded that their demands were entirely out of reason, but stated that this matter might be left to arbitration. During the latter part of March the president requested a conference with the Portland Laundrymen's Association, but owing to the death of one of the members of the association, it was impossible for them to meet him and his committee on the night which he requested, our secretary replying, giving the reasons why the wage scale he requested, our secretary replying, giving the reasons why that night, and agreed to meet him Tuesday evening, April 1, which at that time seemed to be satisfactory to him. But at the meeting that night he stated that he had no power to act, because the time limit in the proposed agreement had expired, and the same had been referred back to the International Union in Troy, N. Y., together with the correspondence with us upon the subject, saying he would advise us upon receipt of instructions from the International Union."

"On Saturday, April 5, a grievance committee from the Trades Council met the president of the Laundrymen's Association and requested that a meeting be arranged with the laundry workers to talk over our differences, and to see if we could arrange a satisfactory settlement. At the meeting on April 5 after some discussion, it was agreed to refer the entire matter, agreement and wage scale to a committee of disinterested parties, three to be appointed by a side, they to select a seventh, their decision to be final and binding upon both parties. This proposal, Mr. Ganton, chairman of the grievance committee from the Trades Council, heartily approved our method of settlement as being just to all concerned. Our members of the committee were selected and a meeting arranged for Tuesday, April 15, at which they agreed to be present."

"On Monday, April 14, the Laundry Workers' president notified us that they were compelled to withdraw from their agreement to arbitrate. This same day we received a letter from John J. Manning, president of the International Union, saying he had instructed the president of the local union to call upon us and adjust as speedily as possible the points in dispute."

"The Laundry Workers have asked the assistance of the Trades Council, their arbitration committee requested a meeting for Tuesday, April 22. At this meeting this committee presented modified demands and insisted upon their acceptance, stating they had no power to change these demands in any manner. The Laundrymen's Association replied that they could not accept same, but were willing to sign the following agreement:

"From this date we agree to engage none but union members who need union members are available. The same to be employed through the office of the union. But do not agree to discharge any non-union help who are now in our employ, or who may be engaged by us when said union, at our request, has not been able to furnish us with necessary help. The union will at all times have the first chance to fill vacant positions."  
"This they declined to accept."

"The laundrymen feel they have done all in their power to adjust matters, and are now paying more in each department, with one or two exceptions, than their scale demands, and is being paid for union help in other cities."

# SAWMILL EMPLOYES

# Strike at Jones' Mill—Demand for Better Wages.

The members of the Sawmill Men's Union, No. 965, met yesterday afternoon and decided to call out the men at Jones' mill, which will throw 75 men out of employment. The executive committee last week decided upon taking this step, and its action was ratified by the union yesterday.

A union employe stated today that this step was taken after every effort had been made to arrive at a peaceful settlement with the company.  
He continued: "The men in the saw mills of Portland, with few exceptions, have been working for less wages than were received by any other class of laborers in the city. Under present conditions this is not sufficient to support the laborer and his family. The union, therefore, appointed a committee to correspond with the proprietors requesting them to designate a time and place at which a committee of the union could meet them and exchange views on existing differences. The answer designated no time or place of meeting."  
The advance in wages asked by the union is as follows:  
1—All men working in such mills and the mill yards connected therewith to receive \$2 per day for a 10-hour day.  
2—All the men so working in said mills now receiving \$2 per day or more to have an advance of 25 cents per day.  
3—Such advance in wages to begin and take effect on the first day of April, 1902, and to continue for a year thereafter.  
4—Other conditions being equal union men holding cards showing them to be in good standing to be given a preference as against non-union men.  
5—Special arrangements allowed to be made for men and boys who are unable to do a man's

# THE WEATHER.

There has been a general fall in pressure in the North Pacific States during the last 24 hours and a storm of apparently considerable magnitude is central off the Oregon-Washington coast. A low-pressure area also occupies the central valleys, with centers of depression over Minnesota and Kansas.

Light scattering showers have occurred in Washington, Northern Idaho and Southwestern Oregon, and light to moderately heavy rains have occurred in Eastern Montana, the Dakotas, Eastern Nebraska, Iowa and Missouri. Thunderstorms occurred during the night at Bismarck and St. Louis.

The weather continues unseasonably cool west of the Rocky Mountains, but in the states east of this range the temperature averages generally above the normal. Light frosts are reported this morning in exposed places in Washington and Southwestern Oregon.

The indications are for occasional rain in this district Tuesday. It will be warmer tonight in the Sound country and Southeastern Idaho.
