

TEA CULTURE PLAN

Southern Pacific's Experiment in Rogue River Valley.

So the laudable energy of R. B. Miller, general freight and passenger agent of the Southern Pacific, is due the inception of an idea which may yet add some more to the varied and exhaustless resources of Oregon.

Mr. Miller has given the subject much study, and is convinced that the climatic conditions of the Rogue River Valley are such as to develop the tea-growing industry in Oregon.

Yester day a package of a dozen tea plants, all fine and vigorous specimens of the Japanese variety arrived here. They are well advanced, and are from 4 to 12 inches in height.

GREETED BY MINERS

Demonstration at Sumpter to Democratic Candidates.

In numbers, in spontaneous enthusiasm and in the magnitude of the arrangements, the reception given at Sumpter Saturday night to George E. Chamberlain and the other candidates on the state ticket was unexampled.

The visitors arrived on the afternoon train and were met at the station by a committee of the Democratic Club and citizens generally.

In the evening there was a grand rally at Miller's opera house which was packed to the doors. As the exercises opened the hills back of the town were made to blaze with red and green lights and the pyrotechnics of oratory were rivaled by the display of lightning on the outside.

Portland Republican Club

The Republican Club of Portland held its biennial meeting Saturday night and elected the following officers: Executive board—First Ward, W. E. Harris; Second Ward, C. E. Lockwood; Third Ward, D. J. Quimby; Fourth Ward, Dr. A. C. Smith; Fifth Ward, Judge W. M. Calk; Sixth Ward, C. T. Belcher; Seventh Ward, Dr. W. H. Saylor; Eighth Ward, H. C. Smith; Ninth Ward, J. E. Hunt; Tenth Ward, F. C. Barnes; Eleventh Ward, M. Billings; F. A. Bancroft was chosen president, Dr. W. H. Saylor vice president, Charles E. Lockwood secretary and F. C. Barnes treasurer of the board and of the club.

Republican Rally

The Young Men's Republican Club of Portland is arranging to assist in opening the campaign in this city with a grand rally. To help the executive committee attend to the details of the following auxiliary committee has been selected:

He Looked the Part

There is a certain Portland man who is noted for his witty rejoinders, but he quite eclipsed himself in this regard yesterday. For some time he had not been looking at all well, but lately had begun to show a marked improvement.

Union Men Only

Operations were resumed again Saturday on the new building being erected for the Union laundry, at Second and Columbia streets, after a suspension of work several days because the contractor was employing non-union carpenters, brick and stone masons.

Bushman Declines

John A. Bushman has declined the nomination given him on the Citizens' legislative ticket. The committee has not yet selected a man to fill the vacancy.

MEASURES HIGHER

Half a Cent Advance on Packed Goods—Butter Lower.

As predicted in The Journal last week there has been an advance in Eastern packed meats. This morning the dealers were notified that hams and all other Eastern meats had been advanced half a cent.

Butter is quoted today the lowest that it has been this season, and as low as it went last year. This morning creamery men lowered the price of the best creamery to 17 1/2 cents a pound.

Eggs still remain at the same quotations, but the market is in a rather mixed condition. Some dealers say that the price is 16 cents straight and others assert that it is weak at 15 cents.

RIVER AND OCEAN

The bar tug Tutooh will be laid up for 30 days because there is not sufficient business in sight to warrant keeping her in commission.

The steamer Australia is expected to arrive in San Francisco today from Tahiti.

The two torpedo boats now nearing completion at the Union Iron Works will have their trial trips during this week at San Francisco.

The transport Buford sailed from Manila for San Francisco April 25. She is bringing troops E and F of the Third Cavalry, and 688 short-ton men.

The British tramp steamer Ventnor, arriving in San Francisco from Calcutta, reports having sighted the schooner Ancona, which is 106 days out from the Philippine Islands for Port Townsend.

It is now almost impossible for the grain fleet of vessels bound for deep-water points to secure crews at San Francisco. Captains of vessels are paying sailor boarding-house keepers as high as \$50 each for men.

When returning from Gray's Harbor Friday with an empty barge, the tug Sampson caught on some obstruction near Astoria, damaging its steel hull, tearing off a strand for a distance of 141 feet. It is believed that the hauler touched the wreck of the bark Alden Besse, which sunk there 12 years ago.

The stern-wheel steamer Koyukuk, built by Joseph Supple for the Northern Commercial Company for the Alaskan river trade, was shipped north in "knock-down" form Saturday. When placed in commission the steamer will be in command of Captain J. T. Gray.

NEW TODAY

AUCTION SALES

Ford & Laws, AUCTIONEERS Successors to J. T. Wilson.

This fine stock of fresh groceries only six weeks out of the wholesale house, has been placed in our hands for auction sale. We will sell at retail, Monday, Tuesday and Wednesday, and on Thursday, Friday and Saturday, we will close out the balance at auction sale. We wish to call your attention to the fact that this stock was well selected and every article in it is of the highest quality.

FACTS AND FIGURES

"Among domestic animals the sheep is the most useful to man. In the British Isles alone there are 20,000,000 sheep. The world's total stock is 50,000,000, or fully 100,000,000 more than all other domestic animals combined. It might be possible to dispense with the 2,000,000 tons of mutton the world devours in the course of a year, though it comprises one-fifth of the total meat supply, but what we could not do without is the wool.

Great Britain alone imports \$1,000,000,000 worth of wool in a year, turning this vast amount of fleece into materials valued at \$200,000,000. The world at large works up very nearly 12,000,000 tons of sheep's wool in the same period. This is a hugely greater amount than that of any other material used for cloth-making. For the other 40 fibers in common use do not altogether aggregate half of this amount.

NEW TODAY

Lewis and Clark Centennial Exposition.

Have you tried to plan in your mind what we could have on a site away from the river that would interest Eastern people? Are you aware that the best show that we could have on such a site would not match one of the annual state fairs held by many of the Eastern states? Our best efforts on such a site must prove to be a failure.

If the Exposition be held at University Park, we can show our harbor, the ships, sailing and going, our mountain scenery, 300 miles of standing timber extending from Mount Rainier to Mount Jefferson, as part of our Exposition.

We can have nothing on a site away from the river, but we can have many attractions on the river that we can not have away from the river. Then, why not have the best possible for the money we shall have to expend?

Only Sites Considered

Hawthorne Park, in connection with Ladd's Addition, is the only place, besides University Park, that has any considerable number of advocates. The only claim made for Hawthorne Park is that "it is central." While it is nearer to the Postoffice than University Park, it is not as accessible. Hawthorne Park would have to depend wholly on the street-cars and carriages, which will be burdened to their fullest capacity with the internal business of the city wherever the Exposition may be held.

The unobstructed boats and railroads to University Park will make the trip in less time than the street-cars could reach Hawthorne Park. Think of the crush at an open draw which must take place many times daily. Think of the delays at street crossings, to avoid crashing into heavy trucks or to avoid killing pedestrians. Compare this with a clean, breezy boat ride to University Park, without crowding or hanging to strap, or with a 10-minute run on the railroad, where all wagon roads are overhead, except the one at Lower Albina, and where the liability of accidents would not exist. Even its claim of central must vanish before the superior facilities of reaching University Park.

Paramount Consideration

No petty personal consideration should be allowed to stand in the way of the greatest good to the whole city and country. The benefits to the whole city and country should be paramount to any selfish shopping or lot-selling schemes. Hoping that you will view this subject from a broad, patriotic base, and use your influence for the location that will produce the most lasting benefits for the money and energy expended, we are,

PENINSULA BOARD OF TRADE

DURING THE HARD TIMES

We obtained by foreclosure a number of pieces of property in COUCH ADDITION and in other choice residence locations. Some are in shape for homes; others are attractive investments. All are offered at reasonable prices. Call on us for particulars.

PORTLAND TRUST COMPANY OF OREGON

Coal Coal Coal WESTERN FEED & FUEL CO.

Dealers in all kinds of Coal, Coke, Charcoal. Try the Famous ROCK SPRINGS COAL.

PROPOSALS FOR LUMBER

County Court, Multnomah County, Portland, Oregon. Sealed bids will be received at the office of the Clerk of the County Court for Multnomah County until 10 o'clock a. m., Monday, the 5th day of May, 1902, for furnishing and delivering lumber for repairs of the Madison-street and Morrison-street bridges. Specifications for said lumber are now on file and may be seen at the office of the Clerk of the County Court.

The successful bidder will be required to promptly execute a formal contract to be approved by the District Attorney of this county, and also to execute and deliver to the Clerk of the County Court a good and sufficient bond in (total) the amount of contract price for the faithful performance of such contract. All bids must be accompanied by a certified check in the amount of 10 per cent of the bid.

The County Court reserves the right to reject any and all bids. By order of the County Court, L. G. SWEETLAND, Clerk. Portland, April 22, 1902.
