BARBERS AID STRIKERS' CAUSE

Hotels and Restaurants Handicapped—Paper Napkins Now the Style.

The laundry workers are in a jubilant mood this morning, and are confident of ultimate success.

They are exceedingly encouraged by the unmistakable attitude of the Barbers' Union, which held a special meeting last night and declared unanimously to support the strike morally, financially and in every other legitimate manner. They decided to not give the laundries any patronage until they concede to the strikers' terms in every particular, and absolutely refuse to handle any linen provided by the laundries after Friday night.

J. B. Hutchinson, president of the Barbers' Union, said this morning: "The barbers are in this fight just as deep as the laundry workers; their interests are ours, and we intend to give them every possible aid, not merely morally, but financially, if they need it. The union is out to win."

Complaints are being made all over town as to the manner in which laundered goods are being done up since the strike. The Creamery Restaurant sent a notice this morning to the laundry with which it is dealing that if its laundry arrived in such poor condition again as it did today, that the restaurant would make arrangements to do its own washing. The City Chop House and many other restaurants have already substituted paper napkins and oil cloths for the linen which they have heretofore used, and intend to

do so until the strike is settled.

The union workers held a big ratification meeting last night, at which speeches were made and new plans considered for furthering their interests. A visitor from a neighboring union who was present reported that the proprietor of the lodging-house where he stopped forcibly took his laundry from one of the strikers yesterday morning after learning that a strike was on.

Another reported that a guest at one of the lodging-houses informed the proprietor that he need not change his bed clothes for two months if this strike is not settled before then. It was also stated that the drivers are resorting to all sorts of methods to drum up trade for their houses, and in many instances have been bluntly called down.

Some of the union officers today: "This strike affects more people than any recent labor trouble which has occurred in this city, and with all the unions extending such liberal support to us as they are now doing, we are sure to win a great victory."

The laundries are nearly all running today, but light handed. They are turning out some work. It is claimed by some of the proprietors that there have been many deserters from the union cause, but the union men claim that only nine unionists went back to work.

The proprietors claim they are able to fill orders.

GENERAL McARTHUR EXCULPATES FUNSTON

Aguinaldo Was Tricked and He Was Responsible.

WASHINGTON, April 29.—General MacArthur continued his testimony before the Senate Philippines committee today. Asked if he knew that Aguinaldo was deceived by the forged signature of General Luna, brought to him by Funston,

General MacArthur said: "I know he was deceived, but I may say right here that Funston was not responsible for any of the methods that resulted in the capture of Aguinaldo. I am myself responsible for all of them."

NOW THE TRUST HAS CORNERED "HEN FRUIT"

CHICAGO, April 29.—Recent rumors to the effect that the packers would attempt to corner all the eggs in the market were substantiated today when buyers for the alleged beef trust went into the market and bought everything in sight. And

they are also placing orders for future delivery. Dealers say that it is the intention of the packers to put the eggs in cold storage until next winter when they will be able to sell for high prices.

BROWNSVILLE BANK ROBBED

(Journal Special Service.) BROWNSVILLE, Or., April 29.—While the cashier, J. H. Glass, was at dinner yesterday the Bank of Brownsville was robbed of \$1,500. Mr. Glass had not closed the outer doors of the vault, but had shut and locked the frail inner ones. The robber had stealthily entered through a rear window, hurriedly pried open the

vault and snatched what money he could and decamped. He undoubtedly had accomplices watching the front and rear of the building, and on this belief O. W. Tycer and Thos. Vennum, well known characters of the town, have been arrested.

LONG ASKS FOR INFORMATION

Wants Full Report of Arrest of American Marines.

(Scripps-McRae News Association.) WASHINGTON, April 29.—Secretary Long this morning cabled Commander Dayton, of the cruiser Chicago, asking for an immediate report giving all details concerning the arrest and conviction of the Venetian corps of certain officers and men of his ship.

The occasion for the dispatch was the cabled press report stating that several members of the crew of the United States cruiser Chicago had been arrested at Venice and imprisoned for disorderly conduct upon the streets.

The cable said that their terms of imprisonment ranged from three to four months each, and that Captain Robert P. Wynne, commanding the marine guard of the Chicago; Robert E. Ledbetter, assistant surgeon of the Chicago; Lieutenant John S. Doddridge, of the Chicago, and a marine named Wilfred Langley were the men sentenced. At their trial in the San Marco Police Court, the prisoners admitted that they were intoxicated when the disorders occurred, and pleaded that they acted in self-defense when mobbed by the crowd. The Public Prosecutor demanded a sentence of seven months' imprisonment for Assistant Surgeon Ledbetter, and sentences of six months' imprisonment for the others. It is understood that the prisoners will pay the costs of the trial and compensate the persons who sustained injuries as a result of their disorderly conduct. Two of the injured persons claim \$100 each.

Some of the naval officers on duty in the department who have had experience in the Mediterranean service express the opinion that the American sailors may be the victims of what is known as the "trick table," which is a device used in some of the saloons frequented by foreigners. This table is constructed to collapse at a slight touch, breaking all of the dishes and glasses, and a claim is immediately made for extortionate damages upon the "jackies."

At the American Embassy in Rome a painful impression has been caused by the actions at Venice of the men from the Chicago. It was said at the Embassy that after the Italian courts had finished with the offenders they will be arraigned before an American court-martial.

The object is alleged to be to enable officers to identify members of the union. It will probably implicate the police department of the city.

MURDER

Brakeman Kills Man With His Fist.

In a street brawl in Tacoma last night Mike Burke, a brakeman, struck a stranger in the neck, killing him. Burke disappeared.

Being a railway man, the Tacoma police rightly surmised that the murderer would attempt escape by train, so they telephoned Chief McLaughlin to be on the lookout.

It was supposed that Burke was concealed by friends on board of freight train No. 53 coming this way. Several local officers were down the river waiting for the train to arrive when a telephone message was received from Sheriff Huntington, at Kalama, to the effect that Burke had been captured there.

The prisoner will be returned to Tacoma on this afternoon's overland train.
