

# FRAUD OF DR. VOLP

State Circuit Judge M. C. George, this morning rendered a decision, denying the petition of Dr. Heinrich Volp, for a writ of mandamus against the Board of Medical Examiners of this state, to compel them to strike from the records the order rescinding the petitioner's license.

Dr. Volp applied to the old medical board in '91, and after undergoing an examination, which was not altogether satisfactory, was given a permit to practice for six months, when he was to take another examination. After the permit had expired Dr. Volp applied again, but the board being still unsatisfied, granted a permit for a year. Neither of the permits had been numbered serially. In '96 a new board was created, and a new law, requiring all medical practitioners of the state to present their licenses for renewal, went into effect. Dr. Volp presented his permit, having first erased the evidence of the limitation. The secretary did not notice the change and entered the license. When the examiners heard of this they rescinded the license.

Judge George observed: "The case turns on whether the granting by the board of a permit to practice for six months (they having no statutory power to do so) was a full license to practice medicine indefinitely, though it never was so intended.

"The court does not think it was in effect such full license or that the petitioner was fully licensed, but that the act is void.

"A temporary permit, illegally issued, certainly gave no permanent right to practice and it should not now. The law never contemplated that the board should be given legal authority to say that a man, incompetent to practice, should have any temporary permit, notwithstanding the board may have in its practice, so given the permit, or that the fraudulent tampering with or presentation of such illegal permit should bind the public."

"What right had he to tamper with the permit? Presenting a mutilated paper was a fraud on the public medical board in this state. Tough fraud in securing an actual license may not be a statutory ground for revoking it, yet certainly fraud vitiates everything."

# MUNICIPAL OWNERSHIP

SALEM, May 2.—The agitation which has for some time been gaining strength in Salem that the city own and operate its own plant for municipal lighting at last promises to come to a head. Yesterday, G. L. Kinney, the representative for the John Martin Company, electrical engineers and contractors, was in consultation with the special committee on electric lighting recently appointed by the Council, and was by them asked to submit an approximate estimate for such a plant as would be commensurate to the needs of the city in this line. For a long time the city has been dissatisfied with the present method of lighting, and at last is likely to get in line with the most progressive communities in this way.

The proposition of using water power to develop the needed electricity is also being considered, and Chairman Griswold of the special committee above mentioned has in view a number of such sites which are considered suitable. They will be examined by the committee under the guidance of an expert in that line in the near future and a decision arrived at as to whether their advantages are greater than those of a steam plant, in which case the Council will at once proceed to purchase the site selected and enter upon the installation of a plant.

To The Journal—In yesterday's answer to Dr. Wise's article by the Oregonian through his columns, it claims that it is always willing to give space to the other side. Some time ago when the Albers case was prominently published in the Oregonian, I wrote an article defending the police department and its actions at the Albers fire. At the same time I showed how the Oregonian tried to make political capital out of that particular case. The Oregonian positively refused to print my article. After repeated demands for reasons why this was refused, and inclosing self-addressed envelope with stamp for reply, I received a very discouraging reply from the "this paper, which always gives a hearing to the other side," and declining to publish anything upon the subject, I can see no truth in its claims for fairness. Yours truly, PHIL STEIN.

# RESOLUTIONS ADOPTED.

Union No. 10, Brotherhood of Painters, Decorators and Paperhangers of America, held a meeting last night and adopted resolutions in sympathy with the laundry-workers' strike. They stated that, whereas reasonable demands of the laundrymen had not been granted, the action was taken to the extent of placing a fine of \$5 on all members who are known to patronize any unfair laundry.

The General Longshoremen's Association, Local No. 59, at a meeting held in this city last night, adopted the following resolution: "That we assist the Laundry-workers' Association in their present fight against their employers, financially, morally and physically if necessary."

A copy of these resolutions was sent to the laundry-workers.

**PATHETIC CASE**  
A very pathetic scene occurred in the private office of Judge Cameron this afternoon.

Robert St. Clair, better known to the police as "Half-Dollar Bill," was charged with the larceny of a lot of scrap iron from the Willamette Iron & Steel Works. James Lotan, president of the company, was present to prosecute the case. When the matter was sifted down among three other boys alleged to be implicated, one Willie Camps shouldered the blame and said that he alone was guilty.

After a little questioning the boy told his story, going into family history, when some boys heard which interrupted the interrogation. Mr. Lotan, who has had many a hard knock in this world, could not see a grandson of one of his oldest friends in disgrace without giving way to his feelings. There will be no prosecution in the case, it is unnecessary to say.

(Scripps-McRae News Association.)  
WASHINGTON, May 2.—The State Department today received from the Mexican government a notification of its refusal to grant the request of the United States for the extradition of Charles Kraatz, wanted at St. Louis for bribery.

The extradition treaty between the two Republics does not cover bribery, and the United States asked for Kraatz's return as an act of international courtesy, but it refused to agree to reciprocate in similar cases, whereupon Mexico refused to return Kraatz.

Kraatz is one of the St. Louis Aldermen who jumped his bail and left the country when he was about to be punished for accepting bribes. These Aldermen had established a regular scale of prices for their votes, ranging from \$100 to \$100,000.

# DANIEL LAMONT FOR PRESIDENT

(Journal Special Service.)  
ST. LOUIS, May 2.—John S. M. Neill, manager of the Helena Independent, and member of the Democratic National Committee from Montana, who is in the city with Governor Toole and the other Montana world's fair commissioners, says that Daniel S. Lamont, former private secretary to President Cleveland, is the logical Democratic candidate for President in 1904.

Mr. Neill is thoroughly in earnest in his support of Colonel Lamont and he says there is a strong sentiment among the Democrats of the Northwest to drop the silver question.

"The Democratic party can not find a better or more able man than Dan Lamont," said Mr. Neill.  
"This is my mature judgment, after talking with some of the leading Democrats of our state. Daniel Lamont is a business man, but he also knows all the ins and outs of the political game and his nomination would raise the hopes of the party as nothing else would."

"Gorman and Hill are both accomplished politicians and would make splendid cabinet officers, but Lamont would outclass both of them as a candidate for President."  
Colonel A. J. Davidson, of Helena, a stockman and capitalist, who is also a member of the Montana commission, is another Lamont boomer, and does not hesitate to express his sentiments.

Colonel Davidson was Mr. Neill's predecessor on the Democratic National Committee.  
He says they learned to like Mr. Lamont when he was private secretary to President Cleveland. Since his retirement from politics his connection with the Northern Pacific railroad has brought him into close touch with the Northwest.

**WOOLEN MILL STRIKE.**  
(Journal Special Service.)  
OREGON CITY, May 2.—When the conference between President Jacobs of the woolen mill and a committee from the Textile Workers' Union ended yesterday evening, the strike situation was far from being settled. In fact, the conditions were not so favorable to a settlement as they had been several days previous.

It is reported that the woolen mill management submitted a new schedule of compensation, increasing the pay of day hands 12 1/2 cents per day, and substituting a new basis for the pay of the weavers, but the offer was not satisfactory.

Another meeting will be held this afternoon. Twenty-five cents increase per diem for day laborers and 1 cent per yard more for weavers is the compensation demanded by the union.

**ROSEBURG ITEMS.**  
(Journal Special Service.)  
ROSEBURG, May 2.—The new machinery for the Roseburg treasury has arrived and will be put into place as soon as the building is ready for its reception. The work on the building is being pushed with all possible speed by Contractor Patterson, who has a large force of men at work.

required the addition of extra equipment at Chicago, Kansas City and St. Omaha. The crowds coming in via Huntington are taking the O. R. & N. Company's service, but it has proven equal to the heavy demands. It is thought that the last of the rush will be over by the morning of May 4.

**Pants Way Down.**  
The advertisements of Ben Sellin, the clothier, are very much in the nature of a liberal education. A man can learn a lesson in the art of pushing and hustling by reading them. Today, for example, look at the ad on page 3 of The Journal, containing the joint announcement from Mr. Sellin's two stores, Fourth and Morrison streets and Third and Oak streets.

Herein Mr. Sellin, although bewailing the fact of continued cold weather in Portland, and the consequent slowness of Spring retail trade, declares that there simply can not and must not be a lull in the sales of clothing at either of his stores. To attain his object and make it impossible for people to delay buying, he offers men's trousers and boys' suits at simply unprecedented prices, values considered, for today and tomorrow. Under these circumstances no one can afford to overlook this opportunity, and the consequence is a rush of buyers to Ben Sellin's, Fourth and Morrison, and to the Meyer Clothing Company, Third and Oak streets.

**WOODBURN.**

The bath fund is now nearly \$5000 and during the time it has not been used it has drawn \$90 interest.

**LOCAL RAILROAD NOTES.**  
Traveling Freight Agent Lounsbury, of the Southern Pacific, is out on the line.  
B. H. Trumbull, commercial agent of the Illinois Central, is in from a business trip to Albany, Roseburg and Grants Pass. He is quite a nimrod.
