

INJURED

Steamer's Cylinder Head Blown Out.

J. A. Hall, a Montana mining man, was injured this morning on the steamer Metlak of the White Collar Line, by the bursting of the cylinder head, near which he was standing. His injuries consist of two deep gashes cut in the ankle and calf of the left leg.

The accident occurred near the brickyard this side of Fisher's Landing, 30 miles up the river. He was bound for The Dalles to visit relatives.

The steamer returned to Portland with the injured man, who is now in St. Vincent's hospital receiving treatment.

It was first reported that Captain Sidney Scammon, of the Metlak, had been seriously hurt, the mistake being due to the indistinctness of the telephone message received. The captain's mother was summoned to meet the steamer at its arrival and was naturally rather excited.

MOROS DEFEATED

(Scripps-McRae News Association.)
MANILA, May 3.—General Davis, in command of the American forces in Mindanao, reports that fighting with the Moros began this morning, the American outposts being fired upon after a messenger, who has not returned, had been sent to the Moro camp with the American ultimatum.

Troops shelled the Moro fort and later captured it.

It was strong and well defended by about 300 men. Fort Pando Pando was next attacked—heavy firing continuing when the dispatch was sent.

Lieutenant Henry Wagner, Fourteenth Infantry, was seriously wounded.

Two other officers were slightly wounded, and 20 enlisted men were wounded.

BOERS DEPRESSED.

Fears That Boers in the Field Will Make Terms With England.

(Scripps-McRae News Association.)
AMSTERDAM, May 3.—There is great depression in Boer circles here, because it is generally believed that the Boers in the field intend to make peace without consulting the Boer agents in Europe.

CHINESE TROUBLE

(Scripps-McRae News Association.)
WASHINGTON, May 3.—Minister Conger sent the State Department the following cablegram today from Pekin:

There are serious disturbances in the southern portion of Pechili.

SOLDIER ROASTED.

Filipinos Inflicted Awful Torture On Americans.

WASHINGTON, May 3.—Inquiry into the infliction of the water cure on the Filipinos was resumed this morning by the Senate committee.

Ex-Sergeant L. E. Dallogg, Twenty-sixth Infantry, was the first witness.

He said he had seen the water cure administered to a number of natives suspected of murdering an American soldier.

After the administration of the water cure they confessed that the soldier had been roasted over a slow fire and then boiled.

The witness said he had seen blood come from the mouths of some of the victims of the water cure. He said he had known of half a dozen villages being burned, and that any time any information was desired he declared the water cure had been given.

WALLER'S MISTAKE.

Supposed Men He Killed Had Had Trial.

(Scripps-McRae News Association.)
WASHINGTON, May 3.—Advises received by mail this morning give full reports of the Major Waller court-martial.

It seems that Major Waller, according to report, based his defense not only on orders received from General Smith, but also on the allegation that the natives he executed had been given a trial, or semblance of one.

MEATS GO UP

Meats took another upward flight today. Eastern hams went up $\frac{1}{4}$ ¢, picnic $\frac{1}{4}$ ¢, salted meats $\frac{1}{4}$ ¢, bacon $\frac{1}{4}$ ¢, backs $\frac{1}{4}$ ¢. An advance of $\frac{1}{4}$ ¢ is also quoted on lard. Light receipts and Eastern advances are said to be the cause.

A small advance is noticed today in small white beans. The bean market is very strong throughout.

There is no change in the vegetable market today. A few potatoes are coming in, but the price remains as formerly.

Three cars of bananas arrived today and were distributed on the street.

Eggs are slightly weaker, but quotations are not affected. A large quantity are going into cold storage.

He faced Judge Cameron this morning in police court. "You are charged with being drunk," was asked. "Are you guilty?"

"No."

"Where did you get that bum lamp?" asked Prosecutor Davis.

"Don't know."

"What was the matter with you?" "I have the dyspepsia."

"Been doing your own cooking?"

"Yes."

"Did that give you the dyspepsia?"

"Guess so."

"Go back to Oregon City and take some peeps," said the court.

John Van Buskirk, of Clark County, Washington was the next prisoner. John had been very drunk. "He ye back to Clark County," said Judge Cameron, "or you will get pulled again."

Dennis Flynn, of Heppner, was charged with being drunk. "Have you got a return ticket?" asked the court. "Yes."

"Well, then use it."

Tim Matthews had been on a drunk. "Have we ever had the pleasure of seeing you before?" asked the judge.

"Yes, every time I come to town," said Tim.

"We start the rockpile going Monday," said the judge; "you had better make your visits like those of the angels, few and far between."

The principal office is to be Portland and the capital stock of the company to be \$50,000, to be divided into 1,000 shares at a par value of \$50 each.

Miss Mabel Craft, of San Francisco, read a paper on the "Advantages of Co-Education," and many other subjects of interest to women were debated. Two sessions were held this afternoon.

MAKES ANOTHER BUNGLER.

Passengers on the Portland City & Oregon Railway were greatly discommodated this morning between 8 and 8:30 o'clock by a car getting off the track on the East Side, between Union avenue and the east approach, on Hawthorne avenue, to the Madison-street bridge. By the bungling of some motorman, the car was run off the tracks, congesting traffic and causing a most vexatious delay. As the long line of passengers were compelled to walk over the bridge, their remarks regarding the kind of service that is being furnished were not pleasant to hear.

BANK PROMOTIONS.

There were several promotions at the First National Bank, owing to the death of G. E. Withington, the cashier. The board of directors advanced Assistant Cashier John W. Newkirk to cashier, Second Assistant Cashier W. C. Alvord to Assistant Cashier, and Receiving Teller Benjamin F. Stevens to second assistant cashier.

During his absence some unknown person entered the office and took from the till all the money it contained. The inspector has been notified and an effort will be made to apprehend the thief. A number of suspicious people have of late been hanging around Orient.

POLITICAL DOINGS

The Republican campaign was opened at Astoria last night by a speech of John P. Kavanaugh of Portland to the Young Men's Republican Club.

The acceptance of Charles P. Rutherford of Burns, candidate for Supreme Judge on the Socialist ticket, has not been filed with the Secretary of State. The time for this has expired, and Mr. Rutherford's name will not be on the official ballot.

Colonel James H. Raley, Democratic candidate for Attorney General, returned last night from Southern Oregon, where he has been with Mr. Chamberlain and the other members of the state ticket. He will go to his home at Pendleton tonight to spend Sunday.

Colonel W. F. Butcher, the Democratic candidate for Congress in the Second district, left last night for Hood River, where he made the opening speech of the campaign.

J. B. Godfrey of St. Helens, the member of the Republican Congressional committee from Columbia County, was in the city last evening.

State Senator B. F. Mulkey of Polk County is in the city.

The city and county Republican committee has not opened up headquarters and will probably not do so for the next two weeks. The secretary, Frank S. Grant, spends every evening at room 5, at the state headquarters at the Benson building.

JEALOUS HUSBAND

Killed His Wife's Attorney in Chicago.

(Scripps-McRae News Association.)
CHICAGO, May 3.—Lewis Mitchell, a prominent attorney, was shot and fatally wounded in his office this morning by Robert Bremner, the husband of one of Mitchell's clients.

Mrs. Bremner was seeking a divorce and Bremner accused Mitchell of attempting to win her affections.

He called on Mitchell this morning and before the latter could defend himself he shot him four times.

In the struggle for the revolver, Bremner was shot through the hand. He was arrested.

RESCINDED.

The Philippines Committee Has Now Decided to Call Gardiner.

(Scripps-McRae News Association.)
WASHINGTON, May 3.—A resolution insisting upon the immediate appearance before the Senate Committee on Philippines of Major Gardiner, Civil Governor of Taybas, was laid before the Senate this morning.

In speaking upon the previous action of the committee in deciding not to call Gardiner, Senator Lodge said this action was based on a report from Chaffee setting forth that Gardiner had failed to substantiate his charges, but that now Gardiner had reiterated his charges of inhuman conduct on the part of the American soldiers, and had added charges of persecution.

Chaffee had stated that the widest investigation of Gardiner's charge would be made, and under the circumstances the committee deemed it unwise to call Gardiner at this time.

HUMAN SWINE

The Packers Are Pinching Everybody in Chicago.

(Scripps-McRae News Association.)
CHICAGO, May 3.—The market for meat is higher in price than at any time known in the history of packing-house products, but a reaction is expected next week by "killers and jobbers." This, they say, will be the result of instructions to cattle-raisers not to ship cattle to Chicago, and the unwillingness of the latter to accept a reduction in prices of from 15 to 20 cents.

Members of the alleged beef trust have practically boycotted the buying pens of the stockyards.

The few cattle shipped here are allowed to remain in the pens unsold, notwithstanding previous statements of the packers that they could not get "killers" and were forced to ask higher prices because of the scarcity of stock.

PARTISAN QUESTION

Admission of Territories Opposed on Political Grounds.

(Scripps-McRae News Association.)
WASHINGTON, May 3.—Next week will be a busy one in the House if the programme mapped out by the leaders is carried out.

One of the first measures to be considered is the bill admitting New Mexico, Oklahoma and Arizona to statehood. There is much opposition to the bill from the Republican side, because of the fear that two of those territories, if admitted to statehood, will send Democrats to the Senate.

It is expected the bill will pass the House, but the Senate is expected to hold it up quietly but effectively.

"Another important measure to come up is the one providing for the coining of subsidiary coin from bullion set apart for the coining of silver dollars, or from silver dollars themselves.

Democrats declare that under this bill the coining of silver dollars will cease absolutely, and promise to make a fight against it for that reason.

The Philippines bill will occupy the Senate's time.

RESIGNATIONS ACCEPTED.

The resignations of Major Robert C. Yancy, surgeon, Third Regiment, O. N. G., Portland, and Captain Walter Lyon, Company F, Fourth Regiment, O. N. G., Salem, were accepted today.

STRIKE

There are some new and important developments in the laundry situation today.

Yesterday W. T. Lambert sold the Novelty laundry to Andrew Meyers, C. M. Baumgartner and C. N. Fraley, who are practical laundrymen and union members. The new company opened for business this morning with a full complement of union help, a total of 26 workers.

Dalton's, the house which signed the agreement yesterday morning, is also running with a crew of 18.

Each of these establishments intends to put on three 8-hour shifts at once, which will give employment to 132 people, and in this way situations will be provided for a major portion of the union employes.

It is reported by the President of the union today that another steam laundry, to be operated by the organization, will be running one week from Monday. A seven-year lease for a building has been secured and a complete plant will be installed in a few days. He declines to divulge the names of the new proprietors.

A committee of the union will visit Mr. Luckie, of the Luckie, King & Cakes Co., this afternoon and request him to use his influence with the Troy Laundry people, with whom he is associated, towards getting them to sign the agreement and effect a settlement. Several of the other laundries are expected to sign up this afternoon.

SETTLED

Laundry Strike Will be Over Today.

Manager Gilliland of the Union Laundry signed the agreement this afternoon, and the laundry is now in operation with a full union crew.

A meeting is now in session between the other proprietors of the several laundries, and it is almost an absolute certainty that shortly after this paper goes to press the great strike will be but a memory.

ENCOURAGING.

The Millmen's Union reports that the situation at the Portland Lumbering Company's mill is favorable to the strikers. Six men who were sent to the mill yesterday from the East End mills were prevailed upon by the pickets to quit work until the difficulty is settled. The mill is keeping up steam and has a smaller force at work than yesterday.

The Federated Trades Council last night placed the mill on the unfair list. When the Carpenters' Union meets Monday night, the members of that organization will be asked not to work with any lumber coming from the Portland mill. The same request will be made of the painters, lathers and teamsters, at their meeting nights occur.

Both sides seem confident of victory, and the end of the struggle is not yet in sight.

United Commercial Travelers.

At 2 this afternoon the annual meeting of the Grand Council of the Oregon and Washington division of the United Commercial Travelers opened at the Hotel Portland. Delegates from the councils of Seattle, Tacoma and Spokane united with those from the Portland council. A delegate will be chosen this afternoon to the Supreme Council which will convene at Columbus, Ohio, in June. The Oregon and Washington division comprises upwards of 400 members and was organized four years ago.

LOUNSBURY AT WALKERS.

Harvey E. Lounsbury, traveling freight agent for the Southern Pacific Company, addressed the "Farmers' Club" at Walkers yesterday, 4 1/2 miles north of Cottleville. He spoke on the construction of railroads and the benefits resulting therefrom. He cited the undeveloped condition of the Rogue River Valley before the advent of the Southern Pacific and compared the crude state of affairs then, which have been so changed to the present one. He went back even to the days of the tramways in England, 200 years ago, built to carry coal to tide-water, and showed how from small beginnings the railroad has evolved to its present wonderful stage. Those who heard Mr. Lounsbury, speak in terms of great praise of his effort.

STRIKE NOTES.

Many of the popular restaurants in the city are resorting to paper napkins, instead of the usual squares of linen. Not many of the guests have so far made complaint when the situation has been explained to them.

Sixteen leather-workers went into the St. Charles restaurant yesterday for lunch. Noticing the spotless tablecloths and napkins with which the tables were adorned, they declined to remain until paper napkins and cloths were substituted. Their request was granted.
