## THE SAWMILL STRIKE

### Non-Union Man Relieved of a Revolver—Both Sides Confident

The strike is still on at the Portland Lumbering & Manufacturing Company's sawmill. Strenuous efforts are being made by the proprietors to secure a new crew, but so far they have not succeeded.

The first thing of any note which occurred at the mill this morning was the alarming of a nonunion man who is in the employ of the company. A police officer arrived on the scene and arrested him long enough to relieve him of a dangerous looking revolver which he was carrying in anticipation of trouble. He was permitted to continue at work, but after being disarmed union pickets prevailed upon him, with success, to throw up his position and join their ranks.

This is pay day at the mill, and beginning this afternoon at 5 o'clock all the union employees will be paid off. The whole force of 100 men will be there at that time, and it is believed that the proprietors will do everything in their power to induce the men to return to work. Nothing short of recognizing the union and signing the scale, so the men assert, will, under any possible considerations. Some of the men are anticipating trouble this evening, but the leaders scoff at the idea and say that no disturbances of any kind will result.

Since the action of the strikers has been indorsed by the Federated Trades Council, they are exceedingly hopeful and look for a speedy settlement of the trouble.

"When the entire machinery of organized labor is set in motion against the mill," said the president of the union, "the proprietors will be almost compelled to sue for peace."

All labor unions have promised their assistance, and if not settled soon it promises to be a fight to the finish. Teamsters will not handle the lumber.

## HOLLAND'S SORROW

### Fears That Her Queen Must Pass From Life—Her Successor.

(Scripps-McRae News Association.) LONDON, May 5.—Conflicting reports regarding the condition of Queen Wilhelmina reached London this morning. A dispatch timed 7 A. M. says the Queen is still alive, but her condition is so serious that none of the physicians left the palace in the night.

An official bulletin issued from Castle Loo confirms the statement that her condition is caused by premature birth, but declares that for the moment the situation is satisfactory.

Great sorrow is expressed throughout the entire Kingdom over the turn for the worse that came so suddenly upon the Queen. All hearts are grieved, and all fear that if she should pass away an acceptable ruler may be foisted upon the people, and apart from the difficulties surrounding the question of the succession to the throne of Holland, the death of Queen Wilhelmina, if this should, unhappily occur, would tend to convulse the Continent politically. In Germany especially it is a matter of the deepest importance. The German press claims that Prince Albrecht, of Hohenzollern, the acting regent of Brunswick, is among the nearest in the Dutch succession, and in all the European capitals nervous apprehension exists that the absence of a direct heir to the Dutch throne might precipitate a struggle for the possession of Holland, which in Berlin is regarded as Germany's natural right.

PRAYERS FOR THEIR SOVEREIGN. HET LOO, Holland, May 5.—Prayers are being offered for Queen Wilhelmina in all the churches today.

The official bulletin today says: "All things considered, her majesty's condition is satisfactory at the present moment."

THE LATEST—4 P. M. HET LOO, May 5.—This afternoon's bulletin reports the Queen's condition as still satisfactory, but the doctors do not deny that she is very weak.

## WHAT EMPLOYER AND EMPLOYEE OUGHT TO DO

The seriousness of the labor strikes in Portland is apparent to all. The closing of the sawmills and planing mills if persisted in will seriously handicap building operations.

The Journal believes that both the employers and the employees have the welfare of the city at heart, and it today suggests that a mutual understanding could be arranged if only both sides would make concessions in the interest of harmony, and in the interest of the city and state.

The millowners and the employees should hold a conference at once and come to a decision. The employees seem to have the advantage, and they might do themselves and their cause much good by arranging an immediate conference, if the proprietors will grant them a hearing.

The Journal believes that there is not a single millowner so prejudiced as not to meet his employees and discuss business matters of mutual interest. The Journal also believes that not a single employee would take advantage of any proprietor in this struggle. Then why not a conference? Let them meet at once.

## COAL MINERS STRIKE LIKELY

(Scripps-McRae News Association.) NEW YORK, May 5.—John Mitchell, president of the Miners' Union, today said that the situation in the anthracite field depended entirely upon the meeting on Wednesday of the miners' executive committee.
