(Journal Special Service.) OREGON CITY, June 2.—The five days' session of the Evangelical Lutheran Synod closed last night with sermons by Rev. W. J. Rosner of Nehalem and Theo. Papers were presented as follows: "How to Keep up the Interests in the Sunday School," by Miss Walters of Tacoma; "Our Mission Sunday School," by Rev. E. Meyer, of Oregon City; "The Model Superintendent," by J. A. Less of Portland; "The Model Teacher," Rev. E. A. W. Yung of Seattle. Rev. A. Schoenberg of Mackburg preached the principal sermon yesterday. In the afternoon yesterday the Luther League held its annual session. Rev. E. Meyer presiding as chairman and Miss Meta Kern of Portland, filling the position of secretary. A paper on "Literature," by Rev. W. Brenner of The Dalles was presented, and Theo. The next session of the synod will be held at Seattle. An emigrant traveling in a chartered freight car, suffered serious loss yesterday evening by the accidental burning of the car. A south-bound freight train pulled in on a side track to await the arrival of an excursion train. While the excursion was getting his supper, the freight car was discovered to be on fire. The fire department was called out, and the fire was extinguished after a horse, a Shetland pony and two dogs were rescued, the former being seriously burned on the back. The household furniture and other articles in the car were badly damaged, and the train was delayed until instructions were received. The burglar car was the second one to the rear of the engine, and it is possible that the fire started from engine cinders. C. M. Toole and family left for Eugene this morning, where he will assume charge of the wool room in the new

ROSEBURG.

Canyonville Robber is Nailed at Owendale.

(Journal Special Service.) ROSEBURG, June 2.—C. A. Schibred of Portland, who is right of way agent for the proposed railroad from Coos Bay to Salt Lake, Utah, is in this city looking after the interests of his company. He expects to leave for the Coast in a few days. Mr. August Kranst has resigned his position as foreman with the Pfleiderer Publishing Company, and accepted a position in Astoria. Mr. Kranst was compelled to leave here on account of his health. During his residence of two years here he made many friends who were exceedingly sorry to have him take his departure. The Douglas Electric Company has received a new dynamo for its power station. It will supply 1500-16-candle power lights and will be installed into the plant in a few days. The burglar that broke into and robbed Mr. Conyear's store at Canyonville on May 28th, was captured yesterday in Owendale by Marshal Rohr of that city, and is now confined in the county jail at this place.

GRANTS PASS

The Woods Are Full of Eastern Timber Cruisers.

(Journal Special Service.) GRANTS PASS, June 2.—Another new strike has been made at the Copper Stamp mine of Mount Reuben district. While drifting from the lower or 60-foot level of this mine a four-foot vein was uncovered, whose values run up into the hundreds per ton. The rock fairly glitters with free gold. It is one of the richest strikes ever made on Mount Reuben. Timber lands are going fast in Josephine County. For the past two weeks there have been from 25 to 40 timbermen here at all times from Wisconsin, Michigan and Minnesota. These men come in squads of ten or more and each party is equipped with camping outfits, and fully prepared to make a several weeks cruise

through the mountain forests. Scores of claims have been filed on in Western and Northern Josephine County during the past two weeks. There yet remains considerable available timber in these sections of the county, but every tract will be taken up this summer if locators continue to arrive. Nearly all the timber that is being taken up is passing into the hands of Eastern men—men who have made their fortunes in the pine forests of Michigan, Wisconsin and Minnesota and now that the Eastern forests have been cleared they have come to Oregon to continue their work. A. C. Merrill, of Tacoma, and Geo. St. John, of San Francisco, the two leading stockholders in the Oregon Bonanza mine, of Williams district, are here inspecting their property and laying plans for extensive future work at the mine.

THE CONTEST

For The Journal Vacation Grows Apace.

Miss Winklemann First, Miss Benedict Second.

Still they come! The votes are pouring in every hour—not in thousands, of course, but in lots of tens and fifties, and all the contestants are getting some of them. The packages of thousands of votes will be sent in later, as the contest warms up. But that might prove the defeat of your favorites, for they might be too far behind to catch up. You know the old adage, "He who hesitates is lost." The vote is very satisfactory today to Miss Winklemann's friends, at least. She still heads the list, though Miss Benedict's vote went up with a boom, falling only a few short of the leader. Miss Chapman is a good third, with Miss Westler fourth. Hereafter all votes received after 8 a. m. will be included in the count for the following day. Here is the vote for today: Miss Etta Winklemann..... 850 Miss Margaret Benedict..... 801 Miss Margaret Chapman..... 692 Miss Barbara Westler..... 650 Miss Minnie Harris..... 237 Miss Alice Stayton..... 213 Miss Leale Lind..... 116 Mrs. Catherine Adams..... 110 Miss Elizabeth Reiffenrath..... 78 Miss Lizzie Wilson..... 71 Miss Mildred R. Lewton Replies to Merrill.

Fred T. Merrill wishes to know who J. E. Lewton, H. G. Green and H. D. Steward are. I will answer for myself; the other two gentlemen can answer for themselves. I have been a resident of the City of Portland since April, 1901, just a little over a year. I came here from Roanoke, Va., where I owned a planing mill and did a general contracting business. The last three years I was there, from 1918 to 1921, I paid out over \$50,000 for labor, etc., and had from 20 to 50 men on the pay roll; so you can see that I am not very far behind Mr. Merrill. He has averaged \$25,000 a year since he has been in business, while I have averaged a little over \$16,000. If Mr. Merrill wishes to know anything more about me I will furnish him the addresses of any bank or business house in the City of Roanoke, Va. From Mr. Merrill's reply in the Oregonian somebody must have touched a sore spot. There is not a single falsehood in the article we published in The Journal. A few plain, straightforward questions were asked so that the friends of organized labor could find out just where Mr. Merrill stands. Mr. Merrill has not answered these questions squarely. He implies that they are Union. I am not any wiser than I was before the questions were answered. In reference to the "three rounders," I will state for Mr. Merrill's benefit that I do not smoke, neither do I drink or hang around saloons or other questionable places of resort. I am neither a Democrat or Republican, and I intend to vote for Union men, regardless of party politics, and if there are offices to be filled, that Union men have not been placed in nomination for, I shall vote for a man that I know is a friend of organized labor regardless of his political beliefs; provided he is pure in his daily life, and believes that a public office is a public trust. The laboring man is going to come out on top in this struggle because he is on the right side. For right is right, since God is God. And right the day must win. To doubt would be disloyalty. Yours for organized labor, J. E. LEWTON, 827 Mississippi Ave.

NOTES OF INTEREST ON ST. LOUIS FAIR ST. LOUIS, Mo., June 2.—The first flagpole to be raised on the World's Fair grounds is a mast of Oregon fir, on the tower of the Administration building. The Missouri and Kansas bankers, at their recent convention at Kansas City, adopted resolutions unanimously pledging their aid and encouragement to the Louisiana Purchase Exposition. It has been suggested that the Idaho building be constructed of lava rock, which abounds in that state. The World's Fair grounds are equipped with 12-inch water mains on two sides, from which other mains from six to 12 inches in diameter extend to various parts of the grounds. Numerous fire hydrants are in place and an 80-pound pressure is maintained. The St. Louis fire department maintains engine and chemical companies on the grounds, and the contractors have organized fire companies among their workmen. Senator Archer, as acting Governor of Ohio, has signed the bill appropriating \$75,000 for Ohio's representation at the World's Fair. Senator Archer himself introduced the bill. Mexico will send not only a detachment of mounted rurales to the World's Fair, but an artillery band of 40 or 50 men. Accommodations for the entire number, about 100, will be provided on the World's Fair grounds. The imperial government of Turkey has decided to participate in the World's Fair and to send a commission. This action has aroused the interest of the merchants and manufacturers of the Ottoman empire, who are encouraged to send exhibits. Lt. Morehouse, deputy clerk of the Supreme Court of Oregon, is an enthusiastic amateur photographer. Mr. Morehouse has a fine collection of historical Indian pictures and views taken along the Columbia River, with special reference to the route followed by Lewis and Clark in their exploration of the Oregon Country. These pictures, Mr. Morehouse has already declared, will be sent to the World's Fair exhibition. Tobacco and coffee, the principal products of the soil of Porto Rico, will be the main features of the Porto Rican exhibit at the World's Fair. The \$30,000 government appropriation for an exhibit from the beautiful West Indian island will be supplemented by a \$20,000 private subscription raised among the owners of the coffee and tobacco plantations. Senator Morrow of the Kansas World's Fair Commission says the lead and zinc miners are particularly anxious to collect an exhibit which will surpass that of Joplin, which is to be represented in the Missouri display. J. Sherwood Case of Brooklyn, N. Y., possessor of the identical master program which President Lincoln held in his hand at the time of his assassination, has applied for space for his exhibition at the St. Louis World's Fair. In reply to a letter from him asking about provision for the safe keeping of the precious relic, Secretary Stevens has written as follows: "Your application has been filed with the committee having charge of the historical exhibits. It is strongly probable that one of the Washington University buildings will be set apart especially for the exhibits, which promise to be not only numerous, but of great value and interest. The exposition management has received tenders of historical relics from this and other countries which encourages the belief that the collection will form one of the most interesting features of the exposition."

ILLEGAL OFFICIALS

The laws of Oregon are being ignored when candidates of election are permitted to act as judges and clerks, and thus have the power to pass upon their own contest. The violation of the law was disclosed by County Judge William Cake Saturday morning. He exhibited a copy of the laws of Oregon, wherein persons are expressly forbidden to act as judges and clerks if they are candidates for office. The judge observed that a number of the judges and clerks selected by the Commissioners are candidates for election.
