## Board of Trade Suggests a Plan to Prevent It.

The Board of Trade is doing the best it can to prevent a strike of brickwork ers. Secretary Moore has sent out the following letter to the brick manufacturof this city:

"The Board of Trade has had its attention called to the possibility of the men working in the brick yards going on a strike for higher wages, and in the present state of the building operations of the city, it seems to be the general opinion of business men, and those directly interested in the purchasing of brick that a small advance in the prices would not be objected to to any great extent, provided that work would not be interfered with by a shortage in the supply.

It has been reported that an advance of 50 cents per thousand in the price of brick would more than offset the increase in wages asked for by the men, and it is thought that this advance would not be objected to by buyers. The secretary has been requested to write to all brick manufacturers urging them to use their efforts to secure a peaceable settlement with the men, and offering the services of the Board in adjusting any difficulties arising. If you have any suggestion to make to assist us in bringing about a poaceable arrangement by which the whole city would benefited. I would be very much pleased to receive the same, and you may rest assured that the Board in any action they may take, will give fair treatment to all questions brought

The Brickmakers Union was recently organized by Organizer L.A.Duke. It has a membership of 60. So far as can be learned there is no talk among the memhers of going on a strike. Mr. Duke says that this matter was talked of and settled at the time they organized. They are desirous, however, of having the various manufacturers to pay the employes of each concern the same scale of wages. As it is, each manufacturer pays a differnow is to induce them to pay the same schedule, but there is no talk of going on a strike to accom-

LONDON, June 3.-Kid McEadden, of San Francisco, knocked out Jem Williams of London at the National Sporting Club ight in the fight for the bantam weight championship of the world and a purse £230. This fight was the sharpest fiveround contest which has been seen in don for a long time. A big crowd attended, including Tom Sharkey, Gus Ruhlin, Joe Walcott and other participants in the pugilistic tournament to be held here in connection with the coronation festivities.

SALT LAKE, June 3.-Mose Lafontise, of Montana, and Buddy King, the Denger colored light weight, fought 20 rather some rounds to a draw at the Salt Lake Athletic Club tonight. Lafontise rushed the fight continually after the ninth round, but could not land effecttively. King's superior reach stood him good stead. He jabbed Lafontise in the face almost at will, but his blows lacked steam and did not harm. King had a odly puffed eye. Otherwise neither man was marked at the end of the contest.

## LAST MEET

PARIS, June 3.-The last council of the Valdeck-Rousseau Ministry was held today. The President received a definite resignation of the Cabinet and requested the members to continue until their successors were chosen.

Chief Campbell, of the fire department, was a proud man this poon when he saw rolled into headquarters the new \$5700, latest improved, fire engine.

The new engine is to be known as No. and will be located at Sixteenth and Washington streets, which location commands a very important territory in the fire limits. The engine will be drawn by three horses, and is in a location from which responses to the mills in the north end and the Willamette river water front can be covered without climbing a grade of any importance.

The engine is a beautiful affair, full nickle-plated and finely finished. The wheels are full bearings.

Chief Campbell has instructed Engineer McMullen, of No. 1, to thoroughly overhaul No. 3 and give it a test as soon as practicable, after which it will see immediate service.

A Japanese laborer met with a serious accident near Astoria last night while loading ice on an A. & C. R. R. car. A large cake of ice slipped and fell upon him and he was rolled into the river by its force. His fellow workmen rescued him with much difficulty and found one of his legs fractured and a bad contusion of the skull. He was brought to St. Vincent's and may recover from the ac cident, although it is serious.
