Brownell's Henchmen Cry for

Fat Places in Politics. (Journal Special Service.) OREGON CITY, June 2-Now that the state election is settled, the local aspirants for Federal positions expect that the pledges made to them will be ful-

Months ago it was announced that a successor to Register C. B. Moores of the local land office would be named as soon as the June election was a thing of the past, and that a new postmaster also ator Brownell made the statement that he would name the new register of the land office, and that person would not be

It is generally believed that Senator Brownell's choice for the place is his right hand bower, A. S. Dresser, However, several prominent Republicans have expressed their opinion that the new register of the land office will be a non resident of Clackamas County, and a number of outside Republicans are firm in the opinion that Register Moores will be his own successor. No complaint has been heard of Mr. Moores' administraand it is now asserted that Senator Mitchell has no objections to him. Again, another prominent politician gives it as his opinion that United States Senator John H. Mitchell will attempt to postpone the filling of Federal positions in Oregon until after the adjournment of the next Legislature, when a successor to United States Senator Joseph Simon shall have been elected.

The local postoffice is another bone of contention. It is rumored that George H. Harton, the incumbent, has been assured that he can continue in the place if he chooses, and that Councilman Charles Albright and County Recorder Tom P. Randall each have castiron assurances of getting the appointment. Numerous positions have been promised to local po-litical workers, and there may not be places enough to go around. It is under stood that C. U. Barlow of Barlow has been assured by Senator Brownell that he will do his utmost to have him appointed a paymaster in the United States army. George L. Story, a local lawyer, expects to be chairman of the Senate fudiciary committee at the next session of the Legislature. A young man named Jones, it is reported, expects to succeed Holstrom, a Clackamas County man, as janitor at the Statehouse. And there are many more.

Many of Senator Brownell's close friends and strikers holdly assert that he will be the next United States Senator from Oregon. In fact, the Senator himself announced several times during the campaign that it was his ambition to go to the United States Senate, using it as an argument to secure votes. Senator Brownell's friends do not, apparently, consider Governor Geer a candidate, although they sometimes mention Senator Fulton's name in a complimentary way.

Geer ture for the purpose of securing legisla-tion on the state officers' salaries before the inauguration of the newly elected of-ficers has been widely discussed in this city, and there is a difference of opinion as to the necessity of such a proposition. With the common people the idea is popular, and many hope the demand will be strong enough to secure the extra session and legislation in guestion. It would be a reform in the right direction, it is argued, and as Governor Geer is known to be heartily in sympathy with the movement, and will do all in his power to bring about a reform in this direction, the plan may result in something

A QUEER NUGGET

Found Near Grants Pass-Other News of the Mines.

(Journal Special Service.) GRANTS PASS, June 9 .- A very valuable and most peculiarly shaped gold nugget has just been found by Road Supervisor Sam Gardner, who picked up the piece of gold just south of Josephine County and over the state line in California. The nugget contains \$330 in gold. It is not solid, the gold being imbedded in a clear white quarts. What makes the nugget the odd-est chunck of yellow metal ever found in the mining districts of the West is its shape-that of a human hand. It resembles a human hand in almost every detail, both in size and shape. It resembles a hand, nearly open, with every finger accurately outlined.

An example of what is to be accomplished by placer mining in Southern Oregon just as a small business was shown by the bag of gold brought into Grants Pass a few days ago by M. F. McNell, who owns a placer mines on Chitco river Southwestern Josephine County. The bag contained \$2,000, the results of a winter's work. The gold brought in was mostly Soarse, a number of the nuggets ranging from \$40 to \$100 in value.

SHE COURTED

(Journal Special Service.)

PORT CHESTER, N. Y., June 9 .- In this town it is against the law for a young, unmarried woman, particularly if she be pretty and winsome, to persistently telephone the husband of a married weman. Police Justice Marshall has just sentenced Miss Alice Meyers to 60 days in jail for attempting to alienate the affections of W. S. Wetmore by the telephone method.

Day after day Miss Meyers called Wetmore's house. When Mrs. Wetmore answered the 'phone she was politely but earnestly told she was not wanted, that her husband was the desired party. She stood close to the 'phone at times and heard endearing conversation from the other end of the wire. Then she ripped out the telephone and swore out a warrant for the arrest of the young woman. The justice sent the offender to jail and her lawyer secured a writ of habeas corpus, contending that the conduct of Miss Meyers was not "disorderly," as intended by the statute.

BEAUTY. HOW IT CAN BE OBTAINED

How to Make a Marvelously Perfect Complexion and Restore Youthful Looks.

HOW TO REMOVE PIMPLES, FRECKLES, MOTH, BROWN PATCHES, BLACKHEADS, OILINESS AND ALL DE-FECTS FROM THE FACE, NECK AND ARMS.

There is nothing more beautiful than the human face with its vivacious countenance, its sparkling eye, its pleasant smile and perfect symmetry.

But the crowning glory of the lace is a radiant complexion with its lively glow, its youthful tings, and its fine, smooth textures.

But the question is can such a complexion be attained?

In this wonderfully progressive age of art, literature and science; of the steam engine, the mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric-making machines; what is there that is impossible?

By a careful study of the nature and texture of the skin, and a thorough research in the realms of chemistry and compounding of ingredients, a remedy has been at last perfected that will accomplish these results.

This remedy is Mine. A. Ruppert's Face Bleach.

WHAT FACE BLEACH IS.—Face Bleach is not a commetic to cover up, but it absolutely removes once and forever all the discolorations and blemishes to which the complexion is subject. I can positively guarantee every woman it will do all I claim. Its action on the skin cannot fall to remove every defect. It's a well-known fact that the blood in order to cleanse itself is comstantly throwing off its impurities through the peres of the skin I now if the pores are not kept open, the impurities of the blood cannot escape, but collect below the surface and produce all manner of skin troubles, such as PIMPLES, PREV. LES, MOTH, SALLOW—NESS, EZEMA. ACNE AND NUMEROUS OTHER SKIN DISEASES AND DISCOLORATIONS.

ACTION OF FACE BLEACH.—Now Face Bleach has this two-fold action; first, it has a magnetical action, which attracts and draws to the suiface the impurities which havecoleted under the skin; and, secondly, a chemical action which removes by scaling of (in the form of a five dandruff) the surface of the outer diseased or dead cuticle, leaving the under skin—beautiful, youthful-looking and delicately tinted by nature—clear, smooth and perfect. This method is perfectly harmless to the most delicate skin, as it immoniz

and nature, the two factors which we must adhere to and follow if we wish to permanently improve our personal appearance.

IffOUSANDS BENEFITED. — Thousands of patrons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvement Madams Empert's Face Bleach has produced in their skins. Many complexions, covered with pimples, freckles and externatous eruptions (ftching, burning and annoying) have been changed to bright, beautiful skins, and the Improvements made in their looks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this wonderful remedy. Framature wrinkles and lines—those innoids of beauty—are quickly effected, and those muddy, disfiguring, sallow, jaundiced skins are quickly transformed into clear, wholesome ones by its use. Flasby skins—which also mark the ravages of time—become firm and smooth after a few applications. Skins troubles which have buffed the most skilful physicians have been removed and cured promptly, and many have expressed, personally and by letter, their heartiest and profoundest thanks for this wonderful Face Bleach.

A positive guarantee is given if Face Bleach is used a coording to the new special directions.

A positive guarantee is given if Face Bleach is used according to the new special directions, which are furnished with each order, that it will remove every discoloration and impurity from your complexion.

HOT FIGHT

(Journal Special Service.) PARKERSBURG, W. Va., June 9 .- A thrilling mid-air battle was seen here today between two bridge builders working on the Baltimore & Ohio Railroad bridge. They were William Nelson and a man known as "Yellow Kid." They fought for 30 minutes on a platform bare-ly three feet square, suspended from the bridge 60 feet in air. Two policemen and crowd of 100 persons watched them, but were powerless to interfere. Nelson fell off, but caught on a board a foot below and repeatedly hit his adversary with a mallet. He was struck with an iron bolt in return and lost seven teeth. Both men were badly pusished and fought until they were exhausted.
