The interesting thing about these checks isn't that he has \$900,000 on the first of every month, or any month, but that the checks do not decrease his capital. He draws them on his lucome account. When the railroud is done it will have been completed without costing Clark a cent of his capital. The income from his mines and other enterprises will have paid for it.—

Secretary Moore reported that he had prepared a resolution for the Portland-Ainsha Transportation Company, which will be presented to the merchants today, stating the reasons why a steamship line from Portland to Alaska is a necessity, and concluding with;

"East of the undersigned hereby agrees after set opposite to his name, and no more, but only upon condition that con-tributions to the aggregate amount of directors. The structure will be two stories high, built of pressed brick, and equipped with all modern conveniences. 25,000 be obtained. This agreement to be supplemented when contributions to said amount of \$25,000 is subscribed by a pernament written agreement to be entere into and signed by all the contributors and said corporation." Secretary Moore also read a letter from

Congressman Tongue, in which he said he did not favor the board's proposal that the Cuban tariff be reduced. "A reduction of the duty on tobacco and sugar would not benefit the consumer, but would benefit the dealer or planter. The time for free trade with the Philippines would not arrive until the American tax system could be put in effect and the govern-ment made self-supporting." The question of the City Market was

brought up by Fred T. Merrill, who said that in his opinion the best plan would be to lease the market to a private corporation, which would make a success of it. If the city was to own it, no but if it were leased to a private company for at least 10 years, at the end of that time the city would own a new building with an asphalt pavemen round it, and would be some money in besides, as the corporation in question would tear down the old building and remove the old sidewals, and would put up a new building and lay an asphalt pavement. This was referred to Messrs. Townsend, Harding and Moore to investigate and report.

Mr. Guinean made a brief but impas-sioned address in favor of the planing mill strikers, advancing a nine-hour day and denouncing the employers for refusing to arbitrate.

- RANCHISE Organs FREE For TWO Years.

Nearly Sixty to Do It With.

A Proposition That Will Interest Every Oregon Home Not Having a Musical Instrument—Progressive Business Methods At Eilers Piano House.

A broad-guage method of doing business, the finest planes and organs obtainab e, low prices, easy payments, quick salesnearly every day an old record smashed. This is the situation in a nutshell at Ellers Piano House.

Our remarkable organ proposition explains this in some de-gree. It is something new. Here it is: We have received in exchange from our numerous plano sales lately a very large number of slightly used organs. They have been thoroughly overhauled at our factory, put in the finest possible condition and are guaranteed in every respect. Just at the present time we can't give up valuable floor space to them though. We hardly have room for the carloads of pianos that are arriving daily. We must make room and these organs must go. So we say to you take your choice of them, pay \$5 or \$10 down, and \$3 to \$5 a mouth. At any time within two years from the date of your purchase we will accept your organ in exchange for a new plane for full price you have paid us for the organ. In this way you get the use of the organ for two years absolutely free,

Every one of these organs is a bargain. We cut the prices squarely in two on them before we began this sale, making these the greatest bargains in organs that have ever been of fered on the Pacific coast. Add to this the proposition for two years' use free and you have the opportunity of a lifetime if you want an organ. If you don't want one it is because you don't understand the beauties of the instrument. It is a mistaken idea to suppose that a home is complete if it has a piano. The restfulness and beauty of organ tones are not approached by those of any other instrument. You know this. Of course you do, but you have simply forgotten it. Put a good organ in your home and you won't want to part with it. Here is a list to suggest prices. Look it over and then come and examine the instruments themselves. They will convince you better than words.

When help arrived, the mother was dead, and tonight the girl is in a most dangerous condition. The dead woman is Mrs. Elisabeth Hubbard, wife of T. C. Hubbard, and the accident occurred while mother and daughter were driving from the Hubbard farm in John-

son Canyon to this city. The horse, attached to a light buggy became frightened, and ran a distance of one mile. The child was able to give but a gurbled account of the affair, ow-ing to weakness and dell'ium. The carriage struck a rock, and its occupants were thrown against a barbed wire fence. Mrs. Hubbard's head was crushed in and the sharp brads of the wire tore her abdomen open. The girl was unable to speak when she reached the nearest farm house, but pointed down the road toward where her mother lay.

Thousands Visit Baths.

The new public swimming baths being finished in the shippard at the foot of Belmont street is attracting large crowds of admiring small boys and their parents. Condition Is Bad.

The condition of Grand avenue, South from East Morrison to East Clay streets, is so bad that it is eausing comment throughout the city. The svenue was planked a number of years ago but has been in a bad state for several years. In some places the large planks have entirely disappeared. The avenue is the principal outlet for formers from the South end. There is some talk of a petition about to be circulated for the purpose of the improvement.
