

# HE ANSWERS ADAMS

## Rev. Dr. Morrison, at Trinity, Discusses Speaker and Speech.

Rev. A. A. Morrison, in his sermon at Trinity Church last night, answered many of the statements made by Henry Adams in his course of lectures last week. Mr. Adams several times referred to this church and rector in his lectures.

Dr. Morrison told the previous history of Mr. Adams, who was formerly an Episcopal priest. He said that the lecturer made many assertions that were absolutely false, and then showed in what way they were incorrect. He ended by reading the Roman Catholic creed and commenting upon several portions of it.

### PREACHERS' MEETING.

At the meeting of the Methodist Preachers' Association this morning at the Y. M. C. A. Auditorium, a paper was read by Rev. C. E. Cline on "Have the Doctrines of the Methodist Episcopal Church Changed Within the Last Fifty Years." The paper gave a resume of the various conditions of the church during that period and showed that in the fundamental doctrines of the church few revisions have occurred, although in detail many changes have been made.

### DR. LEONARD'S LECTURE.

At the First Presbyterian Church last night a lecture was delivered by Dr. John E. Leonard, Presbyterian medical missionary from China. She was sent out by the Woman's North Pacific Board of Missions in 1885, and has but recently returned. She told of the siege of Peking and many incidents of the Boxer troubles, the address proving interesting to the large audience.

### CHRISTIAN CHURCH DEDICATED.

The First Christian Church, corner Park and Columbia streets, was dedicated yesterday to the service of the church, a sermon being preached by Rev. Charles R. Scoville. His text was: "God so Loved That He Gave," and presented this in its relation to the blessings given humanity, and that Christianity is the potent power that develops the hearts and minds of the people and makes nations strong and pulsant.

Nine members were taken into the church and \$300 subscribed for church expenses, which places the church in good condition.

At the afternoon services addresses were made by Rev. Bruce Wolverson and C. E. Cline, of the M. E. Church; Rev. Alexander Blackburn, of the First Baptist Church; Dr. S. M. Freeland, of Congregational Church; Oscar Cox, of the Y. M. C. A., and Rev. Allyn Eason, of Rodney Avenue Christian Church. Response was made by Rev. J. F. Gormley, pastor of the church.

### TO VISIT CHURCHES.

Rev. August Krause, of the German Lutheran Church, E. Twelfth and Clinton streets, goes to Tacoma this week to visit the Lutheran Church. He will be absent until Friday.

# THE KLICKITAT LINE

## Officers of the Company Visited Goldendale on Sunday.

(Journal Special Service.) GOLDENDALE, Wash., June 15.—Judge Rufus Mallory, H. L. Pitcock and H. C. Campbell, officers of the Klickitat River & Northern Railway, now being built from Lyle, arrived last evening from Bickleton and departed today for Portland. It is said these unusual Klickitat visitors were gathering much desired information about probable traffic from the East End. It is also reported that the trip was very gratifying. Judge Mallory, president of the company, declined an interview further than to say: "The work of building is progressing satisfactorily. Our present trip gives increased confidence in Klickitat resources." Goldendale is now experiencing a slow but substantial boom. In the last few days five farms near Goldendale were sold for aggregate sum of over \$30,000. The purchasers come chiefly from the Dakotas and Missouri. Captain Charles D. Wise, now a resident of Goldendale, and lately from West Superior, says of all sections of Washington he has visited, he believes Klickitat affords the most varied resources. Captain Wise makes special comment on the prospective strawberry culture, also the adaptability of Klickitat lands for the culture of apples. The captain has made some heavy investments in Klickitat timber land lately with scores of his Minnesota friends.

### Pressmen's Convention.

BALTIMORE, Md., June 15.—Several important questions are to be considered and acted upon by the convention of the International Pressmen's Union, which began in this city today, and will continue in session through the week. The most important relates to the segregation of press feeders and assistants, who are now affiliated with the union, and the formation by them of a distinct press feeders' and assistants' union. The question of the Allie Printing Trades label will also receive attention. There is some friction at present between the pressmen and the International Typographical Union and the position of the pressmen will be defined at the convention.

### To Fix Alabama Mining Scale.

(Journal Special Service.) BESSEMER, Ala., June 15.—The Alabama division of the United Mine Workers of America met in delegate convention in this city this morning at 10 o'clock and was called to order by President Edward Flynn. The gathering is the regular annual session for the discussion of the wage scale. The convention probably will be in session until Monday, when miners and operators meet at Birmingham to decide upon the scale. Officials of the union are extremely reticent in regard to the scale question, and it is not publicly known what demands, if any, are to be made of the operators.

# Peabody's Memory Honored.

(Journal Special Service.) PEABODY, Mass., June 15.—The semi-centennial of the endowment by George Peabody of the well-known institute bearing his name was signalized today by the unveiling of a tablet marking the birthplace of the famous banker and philanthropist. The tablet is of bronze, and bears the following inscription: "Birthplace of George Peabody, February 15, 1795. Placed by the Peabody Historical Society, June 15, 1902." The tablet is bolted to a rough stone post which occupies a conspicuous position directly in front of the old part of the house in which Mr. Peabody was born. The unveiling was attended by brief addresses appropriate to the occasion.

# MISS HANNA WEDS

## Married to Mr. Harry Parsons This Afternoon.

(Journal Special Service.) CLEVELAND, Ohio, June 15.—A number of guests from out of town have arrived for the wedding of Miss Mabel Hanna and Mr. Harry Parsons, which takes place late this afternoon at the

# REFEREE OF BEEF TRUST HEARING.

ALBANY, N. Y., June 15.—Hon. Judson S. Landon, of Albany, is one of the first of the judiciary to hold the fate of the Beef Trust in his hands, although the names of the referees will be legion ere the various states get through with that modest organization.

Lake Avenue home of the bride's parents, Senator and Mrs. M. A. Hanna. All arrangements for the wedding have been completed. Simplicity will characterize the ceremony.

The ceremony will be performed by Bishop Leonard. The bridesmaids will be Miss Ruth Hanna, the bride's sister, and Miss Lucia McCurdy, her cousin, Mr. George F. Tilghman, of New York, will be Mr. Parsons' best man.

The gowns to be worn by the bride, as well as by her mother and sister, are all American made, copied from imported models. The conventional wedding robe of white satin made with a high neck and long sleeves, with trimming of point lace, will be worn by the bride. She will wear a wreath of orange blossoms and carry a bouquet of lilies of the valley. Both of the maids will be gowned in exquisite lace robes, made over white silk, with tiny ruffles of tulle and silk edging at the foot of the skirt. Mrs. Hanna's gown will be a fluffy creation of white mousseline de sole, with hand-painted wreaths of black roses about the foot. The gown will be worn over white silk, and the effect will be filmy and summery.

Immediately after the wedding festivities are over Mr. and Mrs. Parsons will depart for Mackinac, where the honeymoon will be spent in a little cottage presented by Senator Hanna to his daughter.

### ABOUT RAILROADS.

Traveling Passenger Agent McCann of the Missouri Pacific is the proud possessor of a fine gold watch and chain, presented to him by delegates to the convention of the Federation of Women's Clubs whom he piloted to California on a splendid special train and never allowed them to want for anything.

President Mellen of the Northern Pacific is making an extended tour of inspection, obtaining all the information he can regarding general traffic and railway conditions in the Northwest, after which he will probably make one of his periodic trips to New York.

If a standard telegraphic code proposed at the last meeting of the American Railway Association is adopted the saving in time to the railroad will, it is said, amount to thousands of dollars. It is reported from Duluth, that the Northern Pacific has bought the Duluth Transfer for \$500,000.

# CONNECTICUT VOTED TODAY

## On the New Constitution That Had Been Submitted.

(Journal Special Service.) HARTFORD, Conn., June 15.—The fate of the new Connecticut Constitution, which was submitted to the electors today for ratification or rejection, is uncertain and will not be known positively until the full returns of the election have been received. The chief provision of the proposed constitution relates to representation in the Legislature. Its adoption would leave about the same number of legislators as heretofore, but they would be redistributed so as to give the large cities more representation at the expense of the towns and rural districts.

The contest is almost devoid of partisan politics, and in most towns of over 2000 population whose representation in the Legislature would not be changed by the adoption of the new instrument, little or no interest is manifested by either party. The contest has practical-

women travelers have been utilized in what General Passenger Agent Fee considers the finest cars the company has ever owned.

The sleepers are 72½ feet long, the longest in the service. They contain 12 sections, drawing room and smoking room, and are finished throughout in mahogany, the interior design conforming to the standard of the North Coast Limited trains, in which they are to be used.

# THE WEST POINTERS

## New Cadets Accepted at the Military Academy.

WEST POINT, June 15.—The large number of candidates accepted at the United States Military Academy today brings the number of cadets up to within 30 of the full quota. To fill the vacancies additional appointments may be made by Congressmen until the middle of July.

Among the candidates accepted today were the following: H. D. R. Zimmerman, Colorado; Forrest E. Williford, Illinois; W. M. Wilhelm, Ohio; John Rufus Bell, Texas; A. R. Chaffee, Jr., large; C. B. Gatewood, large; G. F. N. Dalley, Iowa; Hally Fox, Mississippi; A. G. Gillispie, Michigan; James J. Loring, Arkansas; Matt E. Madigan, Kentucky; Earl McFarland, Kansas; C. M. Morrow, Jr., Arkansas; Robert C. White, Missouri; Oscar Westover, Michigan; Joseph C. King, Iowa; Harry H. Hyatt, Ohio; Lloyd P. Horrell, Wisconsin; Richard Griffith, Mississippi; George P. Gill, Illinois; Jesse C. Drain, Pennsylvania; W. S. Sturgill, North Carolina; Charlie H. Terry, Missouri; D. B. Crafton, Missouri; Henry A. Finch, Texas; E. H. Henderson, Illinois; Ernest Layfield, Georgia.

### Class Day at Northwestern.

CHICAGO, June 15.—Class day exercises were held today at Northwestern University and an interesting program was carried out. The class poem was read by G. C. Stewart, the prophecy given by Grace E. Shuman, and the class history by Harriett D. Ely. Mary Wadden was the ivy orator and Louis Clements presented the class gifts. Frank H. West delivered the class oration, and George H. Parkinson presented the memorial to the university, a large stone drinking fountain.

### School in Philanthropy.

NEW YORK, June 15.—The summer school in philanthropic work conducted by the Charity Organization Society began its fifth annual session today. The object of the school, which is the pioneer of its kind in the United States, is to give an introduction to actual conditions as met by philanthropic workers and also an introduction to the organization and technical knowledge which are brought to bear upon such conditions.

### Wagner Renominated.

PHILADELPHIA, Pa., June 15.—Republicans of the Eighth district met at Quakertown today and renominated Congressman Irving P. Wanger of Norris-town.

### Commencement at Kalamazoo.

KALAMAZOO, Mich., June 15.—Commencement week at Kalamazoo College was inaugurated auspiciously today with the dedication of Bowen hall, a handsome new addition to the college buildings, which has been in progress of construction for several years. The dedication was accompanied by interesting exercises, in which the faculty, students and a large body of alumni participated.

### RAILROAD NOTES.

Some 30 members of the Utah Press Association visited the city ticket office of the Denver & Rio Grande and the Rio Grande Western while here. They bore with them sample vials of the water of Great Salt Lake. They were greatly pleased with the many fine views of Utah in General Agent Mansfield's office.

W. C. Sechrist, North Pacific Coast agent of the New York Central lines is advised by wire that the Twentieth Century Limited, which goes into service tomorrow on the lines of his company between New York and Chicago, is in addition to the present full complement of 18 trains per day. The new train will make the run in 20 hours.

A. E. Cooper, general agent of the passenger department of the Rock Island, has received information that becomes effective today that cars on his line east of Chicago via the Lake Shore, will leave Chicago in train No. 14 at 3 p. m., instead of No. 10 at 10:30. He has been so advised by General Passenger Agent John Sebastian.

Dr. J. Wylie Anderson, of the Critique, published at Denver, Colo., is in the city. He is the advance guard of a number of Colorado and Utah men who are to look over Oregon as a health resort. This is in accord with a newly-adopted policy of the O. R. & N. Company's general passenger agent, A. L. Craig. Mr. Craig has been working for sometime on the idea of having Utah and Colorado physicians and editors look into the just claims of Oregon beaches as health restoratives to invalids. Much good will result from this action.

General Freight Agent Miller of the O. R. & N. Company, is back from a trip to Shaniko, where he attended a wool sale. He is much amused at the manner in which the representative of a Boston firm of wool buyers, who became affected with the malady known as "cold feet," was subjected to a course of efficacious treatment. It was heroic, but it did the business.

Last night Manager Koehler of the Southern Pacific returned from a trip over the lines of the company in this state. He went out on a tour of inspection and was away four days.

### Recent Legal Decisions.

The amount recoverable from a preference creditor, against which under section 60c of the bankruptcy act, he is entitled to set off further credit extended to the bankrupt in good faith, is held, in Peter son vs. Nash Bros. (C. C. A. 8th Cir.), 95 L. R. A. 24, not to be limited to the amount of preference knowingly received, but to include payments innocently received, which he is entitled to surrender under section 61g, as a condition of proving his claim to the bankruptcy proceedings. The right of the creditor to set off new credits given after a preference is considered in a note to this case.

# JIM HILL'S PIPE DREAM

## E. H. McHenry's Opinion of His Ambitious Schemes.

In a recent interview at Minneapolis, E. H. McHenry, who was formerly chief engineer for the Northern Pacific, and who is now chief engineer at Montreal for the Canadian Pacific, is not afraid to express himself regarding James J. Hill's ambitions. He even goes so far as to ridicule Mr. Hill's dreams of commercial conquest and the acquisition of empire in China. Among other things, Mr. McHenry said:

"I believe a certain very wonderful man, living not a thousand miles from here, has been estimating the amount of wheat which the Chinese will soon be scrambling over themselves to buy in America. He has it all figured that if one Chinaman ate every 10,000th part of one biscuit made of American wheat one in each year, that the total amount of wheat exported from the States would fill a procession of ships moving so closely together that a whale could not break through between the boats. If that was not the exact basis of computation it was one equally remarkable.

"I doubt very much if the gentleman really knows how much wheat is raised in China, or he would not make such optimistic prophecies for the future of the American wheat trade on the Pacific coast. When I was in China I gave the subject very close attention, and was amazed at what I discovered.

"The whole valley of the Yangtze Kian, for fully 1500 miles, is one waving field of wheat and millet. Hundreds of thousands of Chinese are engaged in the growing of these cereals and millions of bushels are annually produced.

"The Chinese consume more wheat flour than people seem to understand. There is no place in America better adapted to the growing of wheat than the valley mentioned. It is folly to expect that there will not be ships enough to carry American wheat to China."

### "Boomer's" Convention.

DETROIT, Mich., June 15.—The members of the National Association of Managers of Newspaper Circulation gathered at the Cadillac Hotel today for their fourth annual convention. The sessions are to continue three days, during which time the various plans and methods for increasing the circulation figures will be exhaustively discussed.

### Illinois Democrats.

SPRINGFIELD, Ill., June 15.—A majority of the 1902 delegates, together with a large number of other visitors, have arrived for the Democratic state convention, which will be called to order at

# BEAUTY. HOW IT CAN BE OBTAINED

## How to Make a Marvelously Perfect Complexion and Restore Youthful Looks.

### HOW TO REMOVE PIMPLES, FRECKLES, MOTH, BROWN PATCHES, BLACKHEADS, OILINESS AND ALL DEFECTS FROM THE FACE, NECK AND ARMS.

There is nothing more beautiful than the human face with its vivacious countenance, its sparkling eye, its pleasant smile and perfect symmetry.

But the crowning glory of the face is a radiant complexion with its lively glow, its youthfulness, and its fine, smooth texture.

But the question is can such a complexion be attained? In this wonderfully progressive age of art, literature and science; of the steam engine, its mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric-making machines; what is there that is impossible? By a careful study of the nature and texture of the skin, and a thorough research in the realm of chemistry and compounding of ingredients, a remedy has been discovered that will accomplish these results.

This remedy is Zappert's Face Bleach. Zappert's Face Bleach is not a cosmetic to cover up, but it absolutely removes once and forever all the discolorations and blemishes to which the complexion is subject. It can positively guarantee every woman it will do all I claim. Its action on the skin causes it to remove every defect. It is a well-known fact that the blood in order to cleanse itself is constantly showing off its impurities through the pores of the skin; now if the pores are not kept open, the impurities of the blood cannot escape, but collect below the surface and produce all manner of skin troubles, such as PIMPLES, FRECKLES, MOTH, BROWN PIMPLES, ACNE AND NUMEROUS OTHER SKIN DISEASES AND DISCOLORATIONS.

ACTION OF FACE BLEACH.—Now Face Bleach has this two-fold action; first, it has a mechanical action, which attracts and draws to the surface the impurities which have collected under the skin; and, secondly, a chemical action which removes by scaling off (in the form of a fine sand) the surface of the outer, dead cuticle, leaving the under skin—beautiful, youthful-looking and delicately tinted by nature—clear, smooth and perfect. This method is perfectly harmless to the most delicate skin, as it harmonizes with the laws of hygiene and nature, the two factors which we must adhere to and follow if we wish to permanently improve our personal appearance.

THOUSANDS BENEFITED.—Thousands of patrons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvement Madame Zappert's Face Bleach has produced in their skins. Many complexions covered with pimples, freckles and occasional eruptions (itching, burning and annoying) have been changed to bright, beautiful skins, and the improvements made in their looks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this wonderful remedy. Premature wrinkles and lines—those tokens of beauty—are quickly effaced, and those muddy, disfiguring, sallow, jaundiced skins are quickly transformed into clear, wholesome ones by its use. Flabby skins—which also mark the ravages of time—become firm and smooth after a few applications. Skin troubles which have baffled the most skillful physicians have been removed and cured promptly, and many have expressed, personally and by letter, their heartfelt and profoundest thanks for this wonderful Face Bleach.

A positive guarantee is given if Face Bleach is used according to the new special directions, which are furnished with each order, that it will remove every discoloration and impurity from your complexion.

All of Mme. A. Zappert's world renowned preparations are sold by us at reduced prices.

# Olds, Wortman & King

## SOLE AGENTS.

10 o'clock tomorrow morning in Machinery Hall at the state fair grounds. The election this year is for minor state officials only, and interest in the convention centers not so much in the nominations as in the attitude to be taken regarding state and national campaign issues. Unless the expressed opinions of prominent party leaders count for naught, the resolutions will be silent regarding Bryan and his doctrines and concerning national affairs will be confined to a denunciation of the Philippine policy of the present administration and other questions which have come to the front since the Chicago convention.
