

HOT TAMMANY FIGHT IS DUE

New York Democracy Will Engage in Warm Contest.

(Journal Special Service.)
NEW YORK, June 18.—There is every sign of the hottest fight for the control of Tammany at the September election that has long history. According to current reports, the Carroll-Van Wyck faction is raising a big sum of money for use in the primary campaign, but the Murphy-McMahon-Haffen triumvirate will raise dollar for dollar and present man for man in the approaching battle.

There has been something of an exodus from New York since warm weather set in and those who cannot shut up their homes for a length of time and go to the country or seashore are taking advantage of inducements offered by the trolley companies to form trolley parties. A book has been published on the subject of trolley excursions giving all the best routes around New York, and a leading newspaper is getting up trolley parties, carrying such of its readers as care to go, in special cars without transfer, over an immense stretch of country in a single day.

For several summers evangelical meetings have been held in a big tent at Broadway and Fifty-sixth street, and many of the best known revivalists of this country have spoken there, including the late Dwight L. Moody. This tent church has now opened for a 20 weeks' summer campaign, and there is promised not only a number of celebrated speakers, but famous singers as well. Already the Tennessee quartet, composed of four Tennessee clergymen, have sung there with great success.

Wealthy New Yorkers are going in for palatial country estates on a larger plan each year. The latest millionaire or multi-millionaire to join the Long Island summer colony is William K. Vanderbilt, Jr., who has acquired 500 acres of land at Lakeville, near Great Neck, Long Island, on which a magnificent country home is in the course of erection. A one-mile automobile race track is to be one of the features of the estate and there are other innovations contemplated which will cause an eclipse of all the other great places owned by millionaires on Long Island.

Wall street is growing, and rapidly; that it will broaden out to the dimensions of the London market there is no doubt. The proposition to list consol certificates is a clear indication of this development. Recently the City Bank made arrangements to facilitate transactions in British consols by the Farmers' Loan & Trust Company against consols duly registered in the books of the Bank of England. It has been announced that these certificates will be listed on exchange. No formal application has, however, as yet been made.

The long projected dock improvement on the North River between Charles and West Twenty-third streets is now assured, the Board of Estimate having authorized an issue of \$5,000,000 bonds for this purpose. This is one of the most important of the many public improvements in which this city is engaged. It is of immense significance to the commerce of the port, for the 10 piers will be built 300 feet long, constructed of steel and will have back of them a marginal street 250 feet wide. Such piers are intended for the great ocean liners and it is not surprising that the steamship companies now have their application in for every one of them.

The great sporting event of the week will be the meeting of the National Automobile Racing Association at Brighton Beach next Saturday. The prizes will be cups and medals and the following events will be contested: Five miles, open to all motor cycles; two miles, open to all motor cycles; five miles, machines weighing less than 1000 pounds; 10 miles, machines weighing less than 2000 pounds; one mile, steam vehicles; one mile, electric machines; one mile, open for the circular track record; five miles, touring cars less than 2500 pounds carrying four persons; 25 miles, all machines, all weights; obstacle race, all machines.

JOHN MARSHALL MEMORIAL

(Journal Special Service.)
CHARLOTTESVILLE, Va., June 18.—Commencement day at the University of Virginia was made noteworthy today by the unveiling of a portrait of Chief Justice John Marshall, a gift to the university from John L. Williams of Richmond. Judge L. L. Lewis of Richmond made the presentation address and Professor W. M. Little responded on behalf of the university. Another feature of the exercises was the presentation of a loving cup to Colonel William E. Peters, who is about to retire from the faculty of the university after over 30 years of service.

AINING CHILDREN.

SIOUX FALLS, S. D., June 18.—Twenty states are represented at the annual convention of the National Children's Home Society, which opened here this afternoon with devotional services led by Rev. E. H. Brasted of North Dakota. Following interesting reports presented by state superintendents the convention listened to addresses by Mrs. P. Quiver of Nebraska and O. A. Wright, Inspector of Indian Schools. The former discussed the question, "How Can We Manage Our Older Girls?" and Inspector Wright told of ways and means for enlarging the influence and scope of the society. At the open meeting tonight, following an address of welcome, by Bishop Hare, Rev. H. H. Hart, L.L.D., of Illinois, delivered an address on "The New Philanthropy." The sessions are to be continued and concluded tomorrow.

HAVANA, Cuba, June 18.—The young women of the young republic are slowly copying the manners of the American ladies. Their costumes are not rapidly altered from the romantic styles of the past.

OUR POLO PLAYERS

Their Appearance in England Excites Interest.

(Journal Special Service.)
LONDON, June 18.—The coming of the American polo players has added greatly to the interest of the polo season. The Americans are a team playing together with a unity and precision which have only been equalled by the Rugby team as it was constituted last year. The Messrs. Waterbury are players quite equal to any we have in England. To find fault with the No. 1 play of Mr. John Cowdin, or the No. 4 of Mr. R. L. Agassiz, would be difficult. They have, moreover, Mr. Foxhall Keene in the background. Whether his brilliant play will materially strengthen the American team remains to be seen. His place is No. 3, and he will thus divide the two brothers, Waterbury, who are, when combined, a source of great strength to the team. Thus, whether we consider the players individually or as a team, we can so far find little to criticize. The English rules did not puzzle them in the least. Stick-crooking hampered them not at all.

REBATE IS TEMPORARY

Scropps-McRae News Association.
WASHINGTON, D. C., June 18.—Senator Burrows, speaking for the best-sugar men of the Senate, on the question of concessions to Cuba, said today: "It will be a temporary rebate or nothing."
This being reported to the leader of the Administration reciprocity forces elicited the response: "Then it will be nothing, except that they will have to take the responsibility."
The deadlock therefore continues, with the best-sugar interests contending at least 15 Republican votes. The President is standing out firmly for reciprocity with Cuba and against a rebate.

(Journal Special Service.)
ST. PETERSBURG, June 18.—Dr. Bunge, one of the foremost medical men of Russia, is arranging to establish a sanitarium for consumptives in the Polar regions. The project is based on his personal observations that the members of exploration parties returning from the Far North are always in perfect health, owing to the purity of the air and the complete absence of all harmful microbes. In the Polar regions bronchitis, laryngitis, influenza and other contagious diseases are unknown.

(Journal Special Service.)
SEATTLE, Wash., June 18.—Every incoming train today has brought large parties to the annual meeting of the Washington State Bankers' Association, which convenes tomorrow morning. At the headquarters of the local secretary there was a busy scene today. The registers were the objective point of a large crowd of bankers and visitors from around, who had to wait and take their turn at registering and receiving the official credentials. The program is the most notable ever arranged for a meeting of the kind in the Pacific Northwest. Besides leading bankers from all parts of the state the participants will include prominent capitalists and financiers from other parts of the country.
