## Wouldn't Be President to Please Any Old Club.

(Scripps-McRae News Association.)  
MEMPHIS, Tenn., June 20.—Richard Olney, whom the Olney Club of Memphis endorsed for the Presidency two weeks ago, has declined to come to this city to deliver an address, saying that he is not a candidate for the Presidency and that his acceptance of the invitation would place him in a wrong light.

# QUIET REIGNS IN PATERSON

## State Troops Overawe the Anarchistic Strikers.

(Scripps-McRae News Association.)  
PATERSON, N. J., June 20.—The state troops asked for by the Mayor last night arrived here this morning. The strikers show no intention of causing trouble. The silk manufacturers say the presence of the troops will have a great moral effect on the anarchistic strikers.

# MONTAVILLA.

Victor Newall is convalescing after a long siege of typhoid fever. A lawn social was given last evening at the residence of Mrs. J. H. Emerson, Smith street, under the auspices of George Wright's Relief Corps. Ice cream and cake and other refreshments were served. Preparations are on foot to institute a tent of the Knights of the Maccabeh in Montavilla this latter part of the week. Aylsworth's Hall has been secured. Mrs. Traut has purchased the residence formerly occupied by the family of George A. White and family. Mrs. Traut is a recent arrival from the East. A letter has been received from Henry Wingard at Dufur stating that he was recovering his health. Mrs. George Evans left yesterday morning for a visit to her daughter, Mrs. Lois Stephens at Dufur. Mrs. Williamson has returned from a short visit with friends in Ashland. An office was given at the new residence of J. E. Blackburn on Misner street last Saturday evening. A large number of his friends were present and thoroughly enjoyed themselves. Richard Milkea is preparing to construct a new residence in the Rosenthal tract. A number of local members of the Woodmen of the World attended the district convention at Woodburn this week. At the school election held this week Mr. Bookner was elected to the office of Director, to succeed L. R. Small, whose term expired. Albert Ellers was re-elected clerk to succeed himself. The election was very quiet, very little interest being manifested. Montavilla Assembly, United Artisans, spent a very pleasant evening last night, the assembly being invited to visit at the residence of Joseph Hartley near Rocky Butte and fill up on nice, large strawberries. Quite a large number of the members attended. The little daughter of William Armstrong, who has been very ill for some time, is now reported as convalescing. Mrs. Captain H. Schneider has been ill the past week. Complaint is being made by numerous residents of Montavilla against the action of the water company in refusing to allow consumers to sprinkle their residences or stores. Some talk is being made of organizing another company.

# STEAMER DELAYED.

The Geo. W. Elder arrived in port from San Francisco at 5 o'clock this morning, being about 10 hours late. She encountered a stiff gale all the way up. This is the season of trade winds and their general direction is from north to south. A vessel coming north labors against them, but going south she goes with the wind and makes good time. For this reason the Columbia arrived at San Francisco last evening ahead of schedule time, covering the long stretch in just 48 hours from the time she left here. The Elder had aboard 875 tons of general merchandise this trip and 125 passengers.

# FISH INDUSTRY.

The run of fish is making a gradual increase, and the salmon are much larger than those caught at the beginning of the season. The writer passed on the fish has been caught with gill-nets, but the trap, seines and wheels are now making good catches. At the various canneries the pack up to date amounts to from 50 to 100 per cent more than last year.

# MUST PAY FOR STOLEN HORSES

Seventy-one horses, stolen from Peter Nelson, of Umatilla, and sold in 1888 by thieves to the Western Packing & Fertilizing Company, of this county, for canning purposes, are, in the minds of the jury, worth \$500. A verdict to that effect was returned in Judge Cleland's department in the State Circuit Court this morning. Nelson sued for \$3485, alleging that the horses were worth \$35 a head. The jurors considered that the animals were valued at about \$9 each.

# SOLDIERS' MONUMENT.

The contract for the granite work on the soldiers' monument to be erected in Riverview Cemetery by the Oregon Veterans of the Spanish-American War was yesterday awarded to Otto Schumann for \$647. The bronze work will be done by Mullands & Co. of Ohio. The contract calls for the completion of the work on September 1. The monument will resemble that on the battlefield of Gettysburg, measuring 17 feet in height. Upon the granite base will stand the bronze figure of the soldier on the firing line, wearing the field uniform used in the Philippines, and will be in the act of loading his gun. The figure will be 6 feet 4 inches in height. On the base of the monument will be carved the names of all the soldiers who died in service during the war with Spain.

# BIG MILLS FOR SOUND AUSTRALIAN WOOL TO BE MANUFACTURED THERE.

(Scripps-McRae News Association.)  
TACOMA, June 20.—R. A. Alley, representing the United Australian Wool Growers, proposes to establish on Puget Sound woolen mills employing a thousand persons to manufacture for the Oriental trade. The labor conditions and the American duty prevent woolen manufacturing in Australia. Three vessels now running to England will carry Australian wool here. Preparations are on foot to institute a tent of the Knights of the Maccabeh in Montavilla this latter part of the week. Aylsworth's Hall has been secured. Mrs. Traut has purchased the residence formerly occupied by the family of George A. White and family. Mrs. Traut is a recent arrival from the East. A letter has been received from Henry Wingard at Dufur stating that he was recovering his health. Mrs. George Evans left yesterday morning for a visit to her daughter, Mrs. Lois Stephens at Dufur. # URGING MORGAN'S APPOINTMENT

## He Is the Choice of Water Front for Harbor Master.

M. G. Morgan is being boomed by the water front residents for the next Harbor Master. The appointment will be made shortly after July 1 by Mayor Williams. Morgan is peculiarly fitted for the position, so they assert, and they are using their united influence in his interest regardless of partisan politics, which they are desirous of being kept out of the matter. Yesterday and today many personal letters were sent to Judge Williams urging the appointment of Morgan. They were written and signed by proprietors of sawmills, steamboats, grain docks and flour mills. One of these men, who did not wish his name used this morning said: "Morgan has had practical experience along the water front for years, and thoroughly understands the many duties which he would be called upon to perform if given the office. He is an experienced steamboat captain and a submarine diver and knows every foot of the harbor."

# THE WEATHER.

Abnormally low temperatures prevail this morning east of the Rocky Mountains and light to heavy frosts are reported in Montana. Good rains have fallen during the last 24 hours in Illinois, Missouri, Iowa, Nebraska, Kansas, Western Colorado, Minnesota, the Dakotas and Wyoming. In the districts west of the Rocky Mountains fair weather has continued. It is much warmer this morning in the Willamette valley and Western Washington, and correspondingly cooler in Montana and Wyoming, where temperatures are reported. The indications are for generally fair weather in this district, Saturday. Cooler weather will be felt west of the Cascade Mountains Saturday. A. B. WOLLABER, Acting Forecast Official.

# ALLEGED HORSE THIEVES.

W. F. Fannon and Archie A. West were arrested at 8:30 o'clock last night by Deputy Sheriff Harry Meyer in the act of taking off the steamer Bailey Gatzert a horse that had been stolen from Hood River, Tuesday night. L. E. Morse, of the Transfer & Delivery Company, furnished the information. The men claimed they had bought the horse from an Indian for \$25; and that they had paid \$30 down, leaving a balance of \$22 due. They seemed in a great hurry to pay the freight bill on the animal and get away, when taken into custody. They are held in the county jail to be turned over to Sheriff Kelly of The Dalles.

# RAILROAD NOTES.

The residents of a number of the West Side towns of the Willamette Valley are circulating petitions for signatures. They desire to have the Southern Pacific inaugurate a double-train service for Sunday the same as for other days. It is argued that under such an arrangement country people can spend their Sunday in Portland, and the residents of Portland can visit their friends in the country towns more conveniently than at present. Local Southern Pacific officials will defer any action until this matter is officially brought to their notice. G. M. Thompson of Peabody, Kan., passenger and freight agent of the Rock Island, is in the city. He arrived here this morning, accompanied by John C. Condit of Kingfisher, O. T., and both gentlemen come in from San Francisco. Mr. Condit is a banker and a member of India Temple of the Myrtle Shrine at his home. Both are impressed favorably with Portland. Mr. Condit was too seasick to be able to enjoy his ocean trip on the Elder. R. R. Ritchie (appropriately called "Railroad Ritchie") of San Francisco, and who is the Pacific Coast agent of the Chicago & Northwestern, is in the city. C. J. Eddy, former general freight agent of the Milwaukee, is now at Wilnetka, near Chicago. He expected to return to Portland to turn over the affairs of his office to his successor, Mayor Rowe, on July 1. He has notified Traveling Freight and Passenger Agent Casey by letter that he will not return to Portland. A. A. Gilbert, who has charge of the abstract division in the auditing department of the Southern Pacific at San Francisco, came in this morning. This is his first visit to Portland. He has been in the service for 28 years. For eight years he was purser on the steamers in the steamer division of the Central Pacific, running on the Sacramento and San Joaquin rivers. For 20 years he has been in the auditing department. He brought a letter of introduction to Detective Cordano from the latter's relatives at Oakland. As Mr. Gilbert jokingly remarked, "I have squared myself first of all with the police department."

# JAMES WILLIAMS NOW ON TRIAL

The trial of James Williams for the murder of George Hicks in this city May 11 last, was commenced before Judge M. C. George in the State Circuit Court this morning. Attorney John Ditchburn appeared for Williams and District Attorney George E. Chamberlain and Deputy A. C. Spencer, represented the state. The greater part of the forenoon was taken in the selection of a jury. Attorney Ditchburn states that the result of the autopsy goes a long way toward clearing his client. He says that the way in which the bullet wound was inflicted indicates conclusively that the shot was fired instantaneously and with out forethought. The bullet is said to have entered the body on the left side between the seventh and eighth ribs, and came out between the fifth and sixth ribs on the opposite side. "This shows," continued Attorney Ditchburn, "that Williams must have fired the shot while the gun was far below his shoulder, a circumstance which proves that the man fired as quickly as he could in self-defense. Had the deed been committed in cold blood and after deliberation, he would have put the gun to his shoulder and fired. There is no question in my mind but that Williams thought Hicks was coming at him with a knife or a pistol, and fired to save himself."

# BRYAN CRIES SOUR GRAPES

## Says Cleveland and Hill Are Wall Street Tools.

LINCOLN, June 20.—Bryan in today's Commoner says: "Why should it be necessary to hate me? I am a man of peace. They will always be in harmony whenever Wall street demands harmony."

# STRIKE SITUATION.

Inasmuch as their men will not work if material is used from the boycotted mills, master builders are experiencing considerable trouble in carrying out their contracts. Work has been totally suspended at several places on this account, and it is the intention of the strikers to see that the boycott is strictly enforced. There are no indications to be seen on either side that the trouble will soon be settled. Both sides to the controversy seem as firm as determined as ever. No further talk of arbitration is heard, and the matter seems to be settling down to a fight to the finish.

# WILL SAVE MONEY

## No More Revenue Stamps Used After July 1.

On July 1 the documentary stamp law becomes null and void. It was inaugurated at the beginning of the Spanish-American War, and has afforded an immense source of revenue to the government. The act bore quite heavily upon the railroad and express companies. There was a 1 cent stamp affixed to all shipping receipts, and bills of lading, etc. The Southern Pacific, Northern Pacific and O. R. & N. companies have issued cancellation circulars, calling attention to the abrogation of the law. The Southern Pacific has issued a circular addressed to agents which reads: "On and after July 1, 1902, revenue stamps are not to be affixed to any document issued from your office, the War Revenue law having been repealed." This change will amount to a saving of many thousands of dollars a month to each of the railroad and express companies here.

# Up-to-Date Drummer.

J. Minor of San Francisco was a passenger on the Geo. W. Elder, which arrived here this morning. He is a traveling salesman, representing a large whisky house in the Bay City. He brought with him a monster automobile, weighing 2000 pounds, on which he intends to visit the various towns tributary to Portland in the interest of his firm. The horseless wagon attracted considerable attention, as it is the largest ever seen here. Later on Mr. Minor will go to Seattle in his magnificent carriage.

# Hands Badly Burned.

Some children playing in the residence occupied by Max Otto, 651 East Morrison street, started a fire in some rubbish this morning, and when discovered the blaze reached nearly to the ceiling. Max Otto, in carrying the burning rubbish out of the house, badly burned one of her hands but saved the structure.

# RIVER BULLETIN.

The river is falling steadily, the stage at Portland this morning being 17.4 feet. The temperatures this morning over the upper Columbia and the Snake River basins range between 46 degrees and 54 degrees and the weather is clear. It will be warmer tonight at the headwaters of the Snake and Columbia rivers.

# BIRTHS.
