

THE TRUTH HAS BEEN SUPPRESSED

Regarding the Serious Condition of King Edward VII.

Operated Upon Three Times Recently—Malignant Larynx Trouble.

(Scripps-McRae News Association.) LONDON, June 27.—The palace officials today strenuously protest that the reference to the renewed pain of last night does not necessarily mean that His Majesty was in any serious danger...

Had Three Operations. Reynolds' weekly newspaper, which has been extraordinarily accurate with reference to the King's condition, says today that the King has been operated upon no less than three times since last June for malignant affection of the larynx...

Was Dosed With Opium. On Saturday last the King's strength began to fall and several of the doctors knew that only an operation could save His Majesty's life...

Some Thought Him Dead. His temperature that night was 102 and he was vomiting fearfully. When the operation was performed over a pint of virulent puss was removed...

Consider Crisis Passed. LONDON, June 27.—It is now thought that if the King's condition continues favorable no regret will be necessary and the naval review may yet be held...

Early Morning Bulletin. LONDON, June 27.—The feeling of great anxiety caused by last night's bulletin of the King's condition was partly allayed this morning when the following bulletin was posted:

William Was Anxious. According to the Birmingham Post, immediately after hearing of the King's illness Emperor William telegraphed to Prince Henry of Prussia, who was in London, setting forth how he was moved by the news...

The Lancet's Statement. The Lancet, while declaring it is impossible to disguise the seriousness of the King's condition, says: "It is our joyful privilege to be able to contradict flatly some of the sinister rumors which have been prevalent for the last 48 hours throughout the world..."

Terrific Storm Drives Waters of Gulf Into City's Streets. (Scripps-McRae News Association.) FORT WORTH, Tex., June 27.—A fearful storm is raging today on the Gulf of Mexico and as far as the eye can see the waves are rolling mountain high and are dashing with terrible impact upon the low shores, hurling torrents of water far inland and threatening a repetition of the disasters which have before laid waste the whole coast...

DALLAS IS ALARMED. DALLAS, Tex., June 27.—Alarm is felt here for the whole Gulf Coast. A big storm is blowing in from the Gulf and Galveston and Sabine Pass are entirely cut off by wire. The wind is blowing a gale from the southeast.

YUKON RATE WAR ENDED. Canadians Will Hustle for the Klondike Trade. (Scripps-McRae News Association.) SEATTLE, June 27.—A Dawson special says the steamer rate war on the Upper Yukon has terminated in an agreement among the four big companies. Each has deposited a \$1000 forfeit. The new rates to White Horse are \$50 per ton for first-class freight, \$40 for second-class freight. From White Horse to Dawson they are \$45 and \$35, respectively. The White Pass gets \$10 additional for freight carried on its four fastest boats. George H. Hees, who was sent to Dawson by the Canadian Manufacturers' Association to learn why the Dawson trade goes to Portland, Tacoma and Seattle rather than to Canada, investigated quietly and left before his presence had become known. A fight will undoubtedly be made for the business by the Canadians.

JURY DISAGREED. After being out all night, the jury in the \$10,000 damage suit of Mrs. M. C. Wells against the City & Suburban Railway Company, reported a disagreement to Judge Fraser in the State Circuit Court this morning. In the opinion of the foreman there was no prospect of arriving at a verdict, and on motion of the attorneys, Judge Fraser discharged the jurors from the case and from further attendance on court.

CASTRO'S STAR IS WANING. Venezuelan Insurgents Winning All Along the Line. (Scripps-McRae News Association.) NEW YORK, June 27.—Ships arriving here today from ports in the Spanish Main report considerable fighting in Venezuela. The forces of President Castro have been repeatedly defeated, and his overthrow is forecasted. It was said his government could not last 10 days at the time the ships left port. SENATE DISAGREES. Don't Like Amendments to the Philippines Civil Bill. (Scripps-McRae News Association.) WASHINGTON, June 27.—The Senate today disagreed to the amendments to the Philippines civil bill as passed by the House and asked for a conference. Both houses have appointed conferees.

DEWEY'S ACCOUNT. Of How the City of Manila Showed the White Flag. (Journal Special Service.) WASHINGTON, June 27.—Resuming his testimony this morning before the Senate committee on the Philippines, Admiral Dewey gave further details regarding the arrangement he had with the Governor General for the surrender of Manila just as soon as the American troops arrived to take possession. He says he fired a few shots at Fort Malate and then signalled the Spaniards asking them if they surrendered. A few seconds later a white flag was hoisted by the enemy. It was fully understood among the squadron that there was to be no resistance by the city. He admitted all his preparations for battle, however, as neither he nor General Merritt trusted the Spaniards. Continuing, Admiral Dewey gave it as his opinion that a suicide went to Manila for the sole purpose of gain-for-lost and money.

TRACY IS KILLED. Desperate Convict Meets His Doom in Whatcom, Wash. (Scripps-McRae News Association.) SEATTLE, Wash., June 27.—A special from Whatcom, Wash., says Convict Tracy was killed there just before noon by Officer Alvord.

CONSTERNATION. Reigns at Castle Rock—Posse Doubts Story. (Journal Special Service.) CASTLE ROCK, Wash., June 27.—When the news was received here this afternoon that a man supposed to be Tracy had been killed by a policeman at Whatcom, consternation reigned and even yet many people do not hesitate to disavow any belief in the story. The fact that Tracy and Merrill were seen near Kelso only the day before yesterday, leads many to believe that it would have been impossible for Tracy to have covered such a distance in the course of 24 hours, although they admit that had he been fortunate enough to catch a freight within a few hours from the time he was last seen near here, it might be done. News of the story has been sent out to Sheriff Huntington, but until it is confirmed the vigilance of the officers here will not be relaxed.

He expresses himself as having enjoyed the trip immensely, but says he should have been pleased to see Harvard, his old college, win in the intercollegiate rowing contest with Yale.
