TACOMA FORFEITS.

Tacoma forfeited yesterday's game to Butte. In the fourth inning, it is alleged that the Tacoma team unduly delayed the game when they were behind, thinking that Umpire Cunningham would call the game on account of the rain, which was commencing to come down. The trick did not work, however, and the people from the Sound lost out. The sum-

there was no winner owing to the caim, but on Friday the Meteor finished 7 min-utes and 22 seconds ahead of the Cicely, but owing to the time allowance, the English boat won by 1 minute and 11 seconds.

TRAP SHOOT ENDED. The final shoot of the Sportsmen's Association of the Northwest, was held at the Irvington track Saturday. There

were three special events and some pool

shooting to come off yesterday. Of the three specials, the first was the contest for the Multnomah Club cup. which Frank Howe, of this city, won with the high score of 47 out of 50 targets, unknown angles. The Lefever shotgun, donated by the Lefever Arms Com-

HINTS TO BRITISHERS.

Tommy Ryan, the middle-weight chamdon, who is now in London, has been telling the Englishmen about the science of fighting. Most of the visiting marksmen have left

the city, but a few remain.

Jimmy Britt returned from Harbin Springs, says the San Francisco Bulletin, the picture of health and strength. The lightweigth boxer has been at the Springs for the past two weeks enjoying the mountain air and taking on flesh. He returned in splendid spirits. His "mits" are in good shape and he can go into the ring at short notice and pummel away as of yore. The rest he obtained has done him a world of good, judging by his appearance. Britt did some boxing and road able by all except the men in the ring, work to keep off excessive weight. He tips the scales in the neighborhood of 138 superfluous fiesi to work off nicely. Jimmy is ready to go into the fighting business again. His brother Willie is managing him and is ready to match him against George Mc-Fadden if he wins his fight tonight. Britt in the meantime is trying to arrange a Connors, the Stock Yards champion, is match for his brother in Oakland. He is willing to pit Jimmy against Jimmy Lawler or any other lightweight. Manager Billy Lavigne, of the Acme Club, is ready to give Jimmy a match with any man he will take on. It is very probable that Britt will box in Oakland on July 25 or some other night before the big fight. Jimmy thinks Jeffries is fit to enter the ring right now and says he will still be champion after the big fight unless something in the way of accidents happen between now and that time.

FROM PITZ'S CAMP. SKAGGS SPRINGS, June 30,-It is pleasure to see Fitzsimmons go to his work. There seems to be no stopping him. It is ding dong, hammer and tongs, this thing, that thing, but always something, and at the end of the day he seems just as anxious, while his trainers look as if the hayloft in a vast field or a hut high up in the mountains where they could sleep on and on for days to come would be more to their liking.

Wilson and Dawson can not give him enough work with mits, so they have made arrangements with Frank Griffin to come up and stand a third of the wear and tear If Griffin is in condition to go to work at once he will arrive on the 1

Fitzsimmons is just gloating over the ring arrangements that they have put up for him to exercise in for now the men can not get away from him and he just makes it merry for them. Yesterday was the first time that he has worked in it since it has been completed. He kept Soldier Wilson and George Dawson on the tired list for five rounds each, making a straight of ten rounds, the others alternating so as to be able to give Fitz some chance to work.

The ex-champion is the first out every morning and gives no one a rest until Dawson is in the saddle and they are away on the road for the ten-mile go, Of late when they have returned Fitz has taken to the mineral plung as the

creek water is a bit too cold. Everything is propitious to good train ing, the weather being just perfect, which has had the effect of letting the ex-champion work himself into better shape than on any previous occasion.

NEILL IS MATCHED. Billy Lavigue has returned from Stock-ton, where he left his brother George still under the care of the doctors. Billy says the Kid had a fever on Saturday and Sunday, but after that he cooled down and is now on the road to recev-

are scientific men. These use the short-arm jab. The vital points which a clever boxer tries to reach with his in-fighting jab are the point of the chin, the jugular vein and the pit of the stomach. The short-arm jab or hook on the point of the jaw, at the proper angle, jars the brain and stops the man. The jugular vein blow hinders the flow of blood to the heart to a certain extent and does the work nicely. The stomach short-arm blow is just as effective as either of the others, and is, perhaps, easier to land.

"There are other kinds of short-arm jags used in boxing, but the three mentioned are the ones most generally used by good boxers All three of the shortarm jabs are swift and almost unnoticeand they are the surest blows scientific fighters use."

A BIG TASK. Philadelphia Jack O'Brien will attempt to stop two men at Chicago tonight. Jack Peauscholte, who was with Jack Moffatt out in 'Frisco, is one of the men, and

Biddy Bishop's friends will be glad to hear that he is much improved in health and that he intends to leave Hot Springs early in July. After a short stop at St Louis Biddy will return to California and may eventually engage in the saloon business at Los Angeles,

INDIANS TELL OF SHIPWRECK

Jeanie May Have Gone Down Off Nunivak.

(Journal Special Service.)

SEATTLE, June 30.-The steamship John S. Kimball, Captain Twing, of the Pacific Clipper line, has arrived from Nome with eight passengers. She brought no tidings of the Portland or Jeanie, having left Nome June 18, before the Roanoke and Valencia.

Captain Twing verifies the report that he natives on the north side of Nunivak Island came alongside the ship June 8 in anoes and gave the officers to understand that a steam vessel had sunk in that vicinity. "The Indians pointed to my ship and then to the water," he says, and it was apparent that they wished to convey the idea that a vessel had sunk but whether they were referring to the Chas. D. Lane of the Jeanle can only be surmised. I believe it more probable, however, that the Jeanie was carried into the Arctic sea. The Indians told the same story of the officers of the Ore-

THE PRIVILEGES OF A "COLONEL"

WATERLOO, Ia., June 30.-What entitles an auctioneer to the prefix "Colonel" before his name was the principal question of discussion in the convention of the State Auctioners' Association here. There has been much loosness in the adplication of the title of late, and the association decided to place a definite limit on colonels. The motion that an auction-er must carry 1000 sales before he is entitled to be called colonel was at once adopted. This, it was argued, would restrict the title to the better class of auc-

Wheeler says that when he discovered his wife and Smith were in love with each other he offerd to leave his wife, mine and all other possessions if Smith

would pay him for the work he had done on the claim. This angered Smith and he attacked the husband with a club. The woman also took a hand against ner husband. Wheeler then drew a revolver and shot Smith twice through the left shoulder. Smith ran for the cabin, 150 yards away, where there was a shotgun. Wheeler seized his Winchester rifle, which was leaning against a tree near by, and fired 11 shots at Smith as he fell. One ball struck him in the left leg. below the knee, shattering the bone. Smith gained the cabin, however, and getting the shotgun, took a seat near the door to await a further attack. Without a word to the wife who had turned against him. CURIOUS LETTER

One of Many Received at World's Fair Headquarters.

(Journal Special Service.) ST. LOUIS, June 30.-In a letter re ceived from Sambel, Fla., at World's

Fair headquarters, the author expresses a desire to open up a correspondence with the Exposition Company concerning the \$15,000,000 paid by the United States for the Louisiana concessions in 1803. Was not some of this money lost-stolen by pirates?" he asks, and then he continues: "For many years people have been searching for \$11,500,000 of gold bullon buried here in the vicinity of Charlotte harbor by old Gasparilla and Lafitte, noted pirates. The survivors of this huge steal say it was the Louisiana purchase money. Lafitte only acted as a spy: Gasparilla did the stealing. I have searched for it seven years and find considerable evidence concerning it, though it is very difficult to exactly locate. If it can be found it will be the making of the Louisians Purchase accposition. Please let me know if toere was a portion of the money lost, for I am very much interested."
