

NEED OF A FIREBOAT

Chamber of Commerce Committee Takes Action.

Will Hold Meeting Sunday at Commercial Club.

Work in providing a fire boat for the City of Portland will be begun on Sunday, when the committee appointed by the Chamber of Commerce, consisting of E. M. Brannick, chairman, J. C. Flanders, John Foulson, F. H. Hanson and A. L. Bliss, will meet at the Commercial Club.

E. M. Brannick, in an interview, said: "The work of this committee will agitate the question and bring it before the public so that I believe we can work up a feeling that will enable the members of the Legislature from Multnomah to get a law passed whereby the city will be provided with a first-class fire boat."

In regard to the opinions of members of the Legislature on this subject, the following are extracts from letters received by the Chamber of Commerce: H. J. Fisher: "I am in full accord with the action taken by the board in the matter of a fire boat for the protection of our water front, and as a member of the forthcoming Legislature, I will use my very best efforts to further this matter along."

Wm. W. Banks: "I have no hesitancy in saying that I would be favorable to any legislation within the boundaries of reason and lawful authority which would insure a better protection of property along the water front, and that the most thing in my power by way of assisting legislation authorizing the city to acquire by purchasing the fire boat to be constructed at the expense of our citizens or aid in any other plan looking to the accomplishment of this end. I regard the construction of a fire boat for the City of Portland as an immediate necessity and am glad to see some active measures being taken in the premises."

S. B. Cobb: "The need of a fire boat for our city is or should be apparent to every one. I do not favor, as a rule, the building by subscription of a fire boat or anything else for public service that is clearly the duty of the taxpayers of the city to provide. I have always advocated the building or purchase of a fire boat so that maximum protection could be given to the property along the river front. Manufacturers and property-owners are justly entitled to such protection. My action in regard to the reimbursement of the subscribers to a fund, to build a fire boat and the maintenance of the same, will depend to some extent upon the character of boat they build. If the fire boat built by subscription proves satisfactory for the purpose intended, I shall favor the enactment of such legislation that will provide for the purchase of the same by the City of Portland."

Alex. Sweick: "I feel that a fire boat is something that the city needs and that one should be provided as soon as necessary arrangements can be made, and I will favor an enactment of such legislation as will be necessary to reimburse the people advancing the money for a reasonable expenditure, to provide a fire boat for the city at this time."

ASSAULT CASE

A. Hamilton was tried in the Police Court this morning behind closed doors. He was alleged to have committed an assault on the daughter of C. C. Drennen three weeks ago.

There was considerable feeling shown in the case, as the men have had a personal encounter, and Hamilton had Drennen arrested for assault and battery. Then the latter retaliated by having his prosecutor also arrested.

Considerable sensational testimony was taken but the extent of the assault laid simply in the placing of the defendant's hand on the girl's shoulder. This was a technical assault, and Judge Hogue was disposed to impose the lowest fine. The defense gave notice of appeal, however, so the amount was raised to \$20 to make the case appealable.

The fight of the two women will be aired into this afternoon.

on record in the City Health Office today and occasioned no little talk.

He stated that Mrs. Burns, who was one of the best-known ladies of the city, had been under his care for some time. She was afflicted with a chronic case of Bright's disease which in any case would have been fatal in time. Dispensing of aid from the regular medical profession the relatives of the deceased lady sought the aid of the Christian Scientists, which probably accounts for the peculiar death notice.

A recent report shows that 1,500 Christians were murdered in 1921 by the Turks. In only 51 cases were the murderers punished, and then with not more than four years' imprisonment.

NO BREAK IN RANKS OF RAILWAY STRIKERS

Superintendent Tiffany's Efforts to Secure Help Has Failed.

The strike of the street railway employees assumed a new aspect last night, and for awhile it began to look serious for the men.

Tiffany secured an audience with a number of them, and held out all sorts of inducements for them to return to work. He informed them that the company wants experienced men, and that if they would accept the positions proffered they never again would receive any harsh treatment from him. He would show them every consideration, and treat them royally. In a word, he would "be good."

Before giving the matter mature consideration nine of them gave him a half-way promise that they would do as he requested. After being acquainted with the trend of affairs the other employees took prompt action. They got the recalcitrant nine together and persuaded them to take the matter under advisement before taking the hasty-decided step. The men agreed to do so, and as a result there will be no break in the strikers' ranks.

A meeting of the employees has been in session nearly all day in Union Hall, and the entire situation has been carefully reviewed. Every man has gone on record that he will not re-enter the employ of the road until it is declared fair. It was shown that the men not only have the sympathy of the general public, but if it is deemed necessary financial aid will be extended them in order that an aggressive fight may be more successfully conducted. The street railway employees of San Francisco have sent them word that \$500 is at their disposal any time they wish to accept it.

The business men of Oregon City, Milwaukie and Sellwood, who urged them to demand Tiffany's removal, have also signified their willingness to assist them in every possible manner to gain their point. With such influential support the men are confident of receiving what they ask, and have no intention of giving up the fight until victory is written on their banner. This is the sentiment they are expressing today.

The report was circulated the other day that the horses had been badly treated on the ranges, and that many of them were cheap cayuses. Mr. Laughters states that of the 80 equines received, but one bears any marks, which is too insignificant to mention. He denies that the horses are cayuses, but says they are yearling colts of good stock.

Independence Day decorations are being placed about the City Hall today. The old reliable national flag is the chief article of embellishment and nearly every window in the building is a-flutter with the stars and stripes.
