

EXTRA LAYING TRAP FOR TRACY

Officers Think He Will Return to Cabin Tonight.

Convict Took Breakfast at a Farm House Early This Morning.

Seattle, July 5.—At 2:15 Tracy was seen by two deputies traveling toward the Squak Slough cabin where his provisions are. He was two miles west. Cudihoe may ambush him now at any time as he is there by this time.

MERRILL DEAD.

TACOMA, July 5.—Mrs. Healy, really Mrs. Tracy, was interviewed in Tacoma this afternoon. She says it is positive that her brother, Merrill, is dead. She is believed to have received a letter from Tracy to that effect.

She denies that she is in sympathy with her husband, but the officers think she is.

SEATTLE, Wash., July 5.—Deputy Sheriff Nelson of King County and Deputy McCullen of Thurston searched the cabin at Syauw Slough, where the battle occurred Thursday, in which Deputy Raymond was killed. They found provisions sufficient to last two weeks, and among them was a frying-pan, a small coffee pot, a portion of a cartridge belt and a heavy gray blanket, described by Clark as being in the pack carried by Tracy. The blanket had the name of Harry Tracy scrawled in the corner with ink.

The searchers at the time of the battle failed to search the cabin.

The deputies who entered saw a ladder leading to the loft, but did not go up for fear Tracy was there. They did not know of the movements of the posse last night. They hurried to Bothell and told Sheriff Cudihoe, and at 2 o'clock he picked six men and drove hurriedly to the cabin.

He is confident that Tracy will return there tonight. He has notified the guards to clear out and permit Tracy to come to the cabin if he will. Cudihoe thinks capture is certain.

Tracy at Breakfast.

(Journal Special Service.)

SEATTLE, July 5.—Tracy ate breakfast at 8 o'clock this morning at Farmer Johnson's house, four miles north of Mrs. Vanhorn's. He left there, going north, and appeared much fresher than yesterday, confirming the belief that he had slept all night. He treated the farmer nicely, and said he had no desire to kill any one but his pursuers and the prison guards. He characterizes the stories of his bloodthirstiness as lies, and poses as a misrepresented man. He says no man who does him a favor will go unrewarded. He thinks his chances of escape are good.

Tracy Still at Large.

(Journal Special Service.)

SEATTLE, Wash., July 5.—A rumor this morning that Tracy had been killed near Ballard caused a flurry of excitement, but proved to be unfounded. Tracy is still uncaptured. He obtained

HUMAN HEAD FOUND

BERKELEY, Cal., July 5.—The finding of a human head in the hills near Berkeley last evening created a great mystery. The authorities now believe it was left there by some university student who was cramming for an anatomy examination.

Building About Finished.

The large new warehouse erected for Studebaker Bros. on the corner of East First and East Morrison streets is about completed. The glaziers were at work yesterday putting in the large plate-glass windows around the building. The firm moved into the building several weeks ago.

food from a woman near Murphy's slaughter house at 9 o'clock last night, a short distance from Woodland Park. He terrified her into silence. Soon after she notified Sheriff Zimmerman of Snohomish County, who reported here.

The officers believe Tracy slept yesterday in the woods near the park, hoping to catch a train last night. The police here hold to the theory that he is trying to get to Palmer, where he has a friend, to whom he wrote telling him he would try to reach there and asking him to plan for his secretion until the pursuit had died out, so that he could take a train for the East. The letter was lost by Tracy in his flight.

Many friends of Tracy here in the tenderloin district, where he used to live, are being closely watched.

Friday's Hunt.

SEATTLE, July 5.—Reports of all sorts were flying thick and fast here yesterday as to the whereabouts of Tracy, the Oregon convict, and nearly the whole day was spent in fruitless search for him. Where the murderer is now no one knows, and Sheriff Cudihoe, who heads the searchers, freely admits that the only thing to do is to maintain a careful watch for his next appearance. The consensus of opinion is that he is still in the immediate vicinity, and today the whole country is covered with small detachments of the man-hunters, so that when he is again discovered it will be but a short time before his pursuers are on his trail.

Rawley Dead.

Nell Rawley, who was shot in the battle at the Vanhorn house on Thursday night, died in the hospital here yesterday. Deputy Sheriff Williams, who was shot below the heart in the first fight, will probably recover, as the bullets have been extracted. There is reason to doubt that Rawley was killed by Tracy, as the post-mortem examination disclosed the fact that a .38-caliber pistol bullet had inflicted the fatal wound, and the probability seems to be that J. I. Knight, a member of the posse, fired the shot that took Rawley's life, as he is known to have carried a .38 revolver.

Cannon Powder Exploded.

While endeavoring to ignite some cannon powder during the celebration about 3 o'clock yesterday afternoon, near Irvington, D. S. Bellinger of 634 East Morrison street was badly injured about the face and neck by a premature explosion. Mr. Bellinger was in the act of lighting the fuse when by some means the charge of powder was ignited, exploding with terrific force directly in his face. He was picked up in a semi-conscious condition, while Dr. Byron A. Miller was hastily summoned and spent a couple of hours in picking the burnt powder out of the skin and dressing the wounds of the unfortunate man. It was thought at first that his eyesight was destroyed, but fortunately this is not the case, as an examination showed that the eyes had received but little injury, and Mr. Bellinger probably will be able to get around again in a few days.

HE MADE A GOOD HAUL

A Masked Highwayman Sticks Up Twelve Gamblers.

(Scripps-McRae News Association.) SPOKANE, Wash., July 5.—A masked highwayman entered Chas. Schultz's saloon and gambling rooms at Colfax, Wash., at 2 o'clock this morning, held up 12 men, robbed each of them, took a bank roll amounting in all to about \$1000, and escaped.

UNION PACIFIC IS MENACED

Trainmen May Go Out in Sympathetic Strikes.

(Scripps-McRae News Association.) CHICAGO, July 5.—The strike of the Union Pacific machinists may spread to other branches of the service. The Brotherhoods of Engineers, Firemen and Trainmen have been notified that they may be called upon to strike in sympathy. It is understood they will go out when asked to do so.

FAIR STOCKHOLDERS

The annual meeting of stockholders of the Lewis and Clark Fair corporation will take place Monday morning, 10 o'clock, at the rooms of the secretary, 236 Washington street. The reports of President Corbett and Secretary Reed will be read and election of directors will take place.

STRIKE OF ENGINEERS

Both Sides Remain Firm—Boats Idle.

The Nickum & Kelly Transportation Company met the marine engineers' demands this morning. It is a small company, however, and only gives employment to one engineer. The firm operates the Hustler, which is engaged in towing barges of brick and sand.

With this one exception there have been no new developments whatever. The other companies are standing firm, and say that they intend to make no concessions. If the engineers wish to return to work at the old scale, the owners say that their positions will be open to them if they do not remain out too long.

Captain J. R. Jones, of the Willamette & Columbia River Towing Company, this morning said:

"The owners intend to stand pat. We are making arrangements to get other engineers, and by Monday we expect to have at least half of the boats running. There are many competent engineers on the Sound who have promised to come here just as soon as they are assured of positions, and it will not be long until all the boats are in operation. One of my boats, the Eugene, is running this morning, but I have four others lying idle. One of these, however, I think, will be running before night."

The owners held a meeting this afternoon at 3 o'clock, but they declare that it was not for the purpose of considering any plan by which they can get their former employees to return. They are simply getting together to size up the general situation, and decide upon the best course to pursue in order to resume the river traffic with as little delay as possible.

The engineers are also meeting regularly, but say that nothing new has come up further than the concession mentioned above. They are firm in their stand, and show no inclination of yielding.

The boats which are running are as follows: The Dixon, of the Shaver line; the Ione and Kehani, of the Washougal; the America, of the W. S. line; Polmona, of the Oregon City Company; Maseot, Undine and Lurline, of the Kamm line; Northwest and Joseph Kellogg, of the Kellogg Company; Glenola, of the Regulator line; Bailey Gatzert, of White Collar line, T. J. Potter, of the O. R. & N.; the Eugene, of a towing company.

COUNCIL IS RADICAL

The independent spirit of the new councilmen is showing itself. Already they have revolted from the time-honored custom of holding committee meetings on Saturday. They say it keeps them from the baseball games, and they actually have the audacity to put the pursuit of pleasure before the joys of investigating and discussing the streets and sewers of this model city. As a consequence of this insubordination, no committee meetings were held today, and the session has not so far decided when they will hold say.

COSTLY STRIKE

Anthracite Miners Have Lost Over Eleven Millions in Wages.

(Scripps-McRae News Association.) WILKESBARRE, Pa., July 5.—Unless the anthracite operators make some proposition for a settlement of the strike of the miners, it will drift without any radical move until the 15th, when a convention to consider the advisability of a general strike in the bituminous fields will be held. The estimated loss to date in miners' wages is \$11,500,000. Still no open discontent can be heard among the miners.

SUICIDE

Despondent Young Man Ends His Life by Shooting.

F. F. Grosshans, while sitting in a chair in his room in the Leonard house, 30½ East Morrison street, shot himself in the head with a revolver.

He was found by the proprietress at 11:30 o'clock this morning, sitting upright in the chair, with the revolver still clutched tightly in his right hand. The blood from a hole in his right temple had partially dried, and it is supposed that he took his life last evening, as he was dressed and the bed had not been disturbed.

Four cartridges had been removed from the 32-caliber revolver, and were found on the window sill near the dead man.

He left nothing except a letter by which he could be identified. The letter was written by a young lady in Silverton, and spoke about the payment of some money which Grosshans had borrowed from her. In a telescope basket were found a variety of small articles and some clothing.

Accord bearing the address of Miss Maud Williams, Oregon City, and an addressed envelope to Frank Reeves, Pontiac, Mich., were also found.

Grosshans was about 30 years of age, dark hair and eyes, medium stature and weighed about 130 pounds. Despondency and illness are given as the cause of his suicide.

MANY VISITORS

Fourth of July Excursionists Insect the City Hall Sights.

The rooms of the Oregon Historical Society and the corridors of the City Hall are today crowded with visitors from the country, who are improving their opportunity to inspect the many interesting exhibits. About 50 people had registered on the visitors' book maintained by the society at an early hour this afternoon, and this, of course, represents but a small proportion of the crowd.

Many of those of the visitors who were advanced in years, as they tolled up the steps, expressed very pointed regrets at the disuse of the elevators, and even the regular attaches of the city are bitterly complaining along the same line. This, however, probably will be remedied in the near future, an ordinance for that purpose being now before the city fathers for action.

SWALLOWED THE CRACKER

An incident not necessarily uncommon for the Fourth of July was reported at one of the hospitals yesterday. A lad who had been hit in the mouth by a rocket was reported somewhat injured, and it was said positively that he had swallowed the cracker, so sudden and complete was his disappearance. The boy was refused admittance to the hospital, very likely for the reason of fear of serious damage to the institution, there being an element of fear entertained that the rocket had not finished going off, and there might be still another explosion. Almost anything may be expected of the small boy on the Fourth.

ANOTHER CITY JOB

The health office holds an opportunity for some one to get a city position. This morning Health Officer Biersdorf, after consultation with Mayor Williams, decided to appoint an office deputy, so that himself and his assistants would have more time for outside work. It has not as yet been decided whether a woman or a man will be given the position.

STEAMBOATMEN FIGHT.

There was a lively "scrap" of short duration at the Washington-street dock this morning at 10 o'clock between Fred Turner, pilot, and Second Engineer Kelly, of the steamer Kehani. Personal differences are said to have been the cause of the trouble. The men waited till they got ashore and then proceeded to hammer one another with bare fists. Kelly is reported as having received several shades the worst of it.

LATEST EDITION ANDREE DIED IN THE NORTH

(Scripps-McRae News Association.) WINNIPEG, Manitoba, July 5.—Rev. Richard Farier, an Anglican missionary at Fort Churchill, has arrived here, and states definitely that the relics of Andree brought to the Hudson Bay post three weeks prior to his departure, on June 1, are undoubtedly authentic. The information received confirms the previous reports that the explorer and his company had been killed by Eskimos in the far North. More relics are expected to arrive in the next mail from the North.

MORE TROUBLE FOR CHICAGO

A Giant Street Car Strike May Be Declared.

(Scripps-McRae News Association.) CHICAGO, July 5.—The men employed on the North and West Side street-car lines are again talking strike. They claim the companies have violated the agreement made during the recent trouble. If they strike, over a million residents will be affected.

FILIPINOS WILL REFUSE AMNESTY

Irreconcilable Leaders Won't Take Oath of Allegiance.

(Scripps-McRae News Association.) WASHINGTON, July 5.—It is believed here that a number of the ex-leaders of the Filipino insurgents held prisoners at Guam will decline to accept the amnesty offered in the Fourth of July proclamation. It is pointed out that a similar proclamation was issued by the Philippine Commission a year ago, and the principal irreconcilables at that time refused to take the oath of allegiance upon which their freedom was made contingent.

GOOD HEALTH REPORT.

Inquiry at the City Health Office as to the general health of Portland develops the fact that very little disease of a contagious nature exists here. There are at present 23 cases of smallpox in the city, but none of them are of a virulent type, and, according to Dr. Zan, the City Physician, their number is decreasing every day. The habit of the people of getting out in the fresh air, he says, is the greatest aid to the stamping out of the disease, and he hopes in the course of the next few weeks to have the pest entirely eradicated.

Fever, scarletina and other kindred disorders have but a very slight hold. Indeed, there are fewer cases of this kind than in any past season at the same time of the year for a long time.

THE WEATHER.

The rains in the North Pacific States have practically ceased, but a few showers occurred last night in the Willamette valley and in Eastern Oregon, Eastern Washington and Western Idaho.

The temperatures west of the Rocky Mountains are generally from 5 degrees to 10 degrees below the normal.

The indications are for fair weather, with rising temperatures in this district Sunday.

EDWARD A. BEALS, Forecast Official.

Injured by a Rocket.

During the display of fireworks last evening at the south end of Seventh street, C. King, of Haleigh, was struck on the arm and badly bruised by a falling rocket stick. Fortunately he wore a heavy coat, or a laceration of the left forearm, about half way between the elbow and wrist, would have occurred instead of the wound received.

Each rocket has a stick about eight feet in length attached to it which acts as a guide in its course through the air, and it was this falling stick by which Mr. King was injured. The rocket sped through its flight directly over the heads of thousands of spectators and some one in the crowd shouted, "Look out for the stick." In another moment the whistling sound of the falling stick and then a dull thud were heard, telling that some one had been struck.

The force of the blow was sufficient to cause Mr. King for an instant and he would have fallen had not ready arms supported him.

It would seem that more care should be exercised in directing the rockets, as one of these sticks, weighing several pounds, and striking a person upon the head, would mean almost certain death.

PLUNGED DOWN A MOUNTAIN'S SIDE

Fearful Scenes of Death Enacted at Gloversville, N. Y.

(Scripps-McRae News Association.) GLOVERSVILLE, N. Y., July 5.—The most frightful wreck in the history of this vicinity occurred late last night on the Mountain Lake Railroad, on a short curve at the point where the train begins to climb up the steep mountain side. Eleven persons were killed and at least 50 injured, some of whom are expected to die.

The accident was caused by the car running away while going down grade and crashing into the car ahead of it. After the collision both cars raced down the grade at lightning speed. The first car plunged off the track when the curve

was reached, crushing the life out of some of its passengers and injuring many others.

The dead are: Mrs. Edward Baird, Electa Baird, Margaret Main, Mrs. Oran Eastman, Edward Trevitt, Joseph Saloy, Mrs. Joseph Saloy, Sheridan Brown, Fred Cronin, Maria Anibel, Isidore Aotherberg.

KING OUT OF DANGER

Edward VII Has Passed the Crucial Point Safely and Will Live.

LONDON, July 5.—An official bulletin issued this morning says the King is now out of danger. He is cheerful and feels much stronger. The King's monster dinner to the London poor was given today.

Most of the dinners were given at the parks and in small halls throughout the city. The destitute were nearly all fed, as well as many whose wages are below the living standard. The number fed amounted to half a million, and the dinner cost in the neighborhood of £30,000.

The Prince and Princess of Wales visited the various dining centers.

At Bishops Park 14,000 were fed, and at Arlington omnibus factory over 10,000 sat down. The dinner was typically English, consisting of steak and kidney pie, veal pie, ham, roast beef, potatoes, tart, cheese, beer and lime juice. In even the poorest quarters all showed some effort to dress for the occasion. The guests were amused by 300 actors and actresses, who had volunteered for the occasion.

EVIDENCE OF AN ERUPTION

Miles of Floating Pumice Seen on the North Pacific.

(Scripps-McRae News Association.) TACOMA, July 5.—The ship Florence, which arrived from Dutch Harbor last night, reports having sailed for 200 miles through a sea covered with pumice stone off Akulan Pass. The phenomenon is thought to have come from the eruption of some submarine volcano or volcano on the coast.

THE POLICE ARE MYSTIFIED

Train Robbers Vanish and Leave Not a Trace.

(Scripps-McRae News Association.) CHICAGO, July 5.—The police are without clues as to the whereabouts of the two men who held up the Rock Island express on Thursday night near Joliet.

Charles Lessler, the man who was arrested, will be released, as the police are satisfied he was an unwilling aid to the robbers.
