Now that there is no boycott on building material or any unsettled question pending between woodworkers and the manufacturers of so-called "unfair" material, and since the stonemasons, plasterers, bricklayers, etc., are on excellent terms with the contractors, building is bound once more to go on.

The setback which was given to constructive work was a most serious one, but it is possible that the bunching together of

which were delayed may be overcom now that the impediment is removed. Congested conditions, usually by their own sheer force, bear away all obstructions. It is not an impossible thing, even now, perhaps, to recover most of the ground that has been lost while labor problems have been working out their own solution. Should such prove to be the case, under the general law of average, 1902 will probably be fully as great in the way of building as any previous year, or even greater. Yesterday work was resumed on the

FIVE-STORY BUILDING to take up the half block on the north side of Oak between Fourth and Fifth belonging to Henry Weinhard. Mr. Weinhard was ready some time ago to go on with the building, but while the prospects were good for a general strike he hesitated, for the very good reason that he did not care to get into any misunderstanding with the unions.

The work on the new Weinhard building will be pushed with all possible expedition. The possibilities are that a similar building will be erected adjoining this building at no very distant period. Mr. Weinhard may decide to extend his building to a full six stories. There are a great

COPENHAGEN, July 9. - Feminine leaders from many parts of the world are gathered in the Danish capital for the annual meeting of the executive committee of the International Council of Women, to be held here during the next three days. The initial session was held today at the home of the president of the Danish Council, Froken Henni Forchamer. Mrs. Susa Young Gates was present as the representative of the National Council of Women of the United

Among the delegates there is much discussion concerning the next president of the international council. Until the election of the incumbent, Mrs. May Wright Sewall, the honor had always remained in England and it is reported that a coalition is afoot to bring back the presidency to this side of the water at the next election. Two items of business to receive attention at the present meeting are the proposal to form a new cooperative committee on internationalism, and a recommendation that international societies be allowed affiliation with the international council.

BRADDOCK'S DEFEAT

(Journal Special Service.) PITTSBURG, July 9.-It is interesting to note on this, the 147th anniversary of the defeat of the English General, Braddock, by the French and Indians, that definite steps have been taken to erect an appropriate monument to mark the scene of the engagement, where Washingion first displayed the superb military centus and valor which resulted in his afterward being chosen to command the American forces in '76. The monument is to stand in Kennywood Park, on a site commanding an extensive view of the battleground.

RAILROAD NOTES.

The Southern Pacific will run seven extra trains from now on until July 19, between Portland and Oregon City, to eccommodate the traffic to the Chautauqua Assembly at Gladstone Park.

The heat of the sun was so severe on the tracks of the O. R. & N. Company ar a point five miles east of The Dalles yesterday as to cause the rails to expand. They were moved from their fastenings, causing a derailment. The engine and two cars bumped over the ties for a rod or two, but no special injury was occasioned. This caused one section of the train, due here from the Bast at 4:30, to come in four hours late. About midnight the other section arrived.

The Columbia Southern in 1900 carried only 7599 passengers; in 1901, 20,656, and for the first six months of the present year, 26,877. Freight traffic has increased in a corresponding ratio.

Preparations are making for the storage of petroleum to be utilized as fuel by the Columbia Southern on its locomotives. A 6000-gallon tank will be erected at Shaniko and two at Biggs. Each of the latter will have a capacity of 20,-900 gallons, and will be made of redwood. The tanks will be filled and drawn HOPS WOOL AND HIDES. from by the process of gravitys. The rush for the seaside has set in, and although the unusually cold season has made the opening of the resorts a little later than usual, still there will be more persons who will visit the seaside attractions this year than ever. The O. R. & N. Company's steamer T. J. Potter is making regular trips down river now, and carries large numbers every trip. The Astoria & Columbia is carrying more than ever before, and the Southern Pacific is making extra efforts this year to accommodate seaside re-
