

# THE FALL OF THE BASTILLE

## Makes Frisco Frenchmen Good to Martinique Sufferers.

(Journal Special Service.)  
SAN FRANCISCO, July 14.—The French residents of San Francisco commemorated the fall of the Bastille today with an elaborate celebration. The proceeds from the celebration will be devoted to the relief fund provided for the sufferers from the recent volcanic disturbance in Martinique.

IN OLD FRANCE.  
PARIS, July 14.—Today, the 113th anniversary of the fall of the Bastille, was celebrated as usual as a national holiday. There were numerous public entertainments and in many instances the proceeds will be donated to the Martinique relief fund. There was a military review at Longchamps, which was witnessed by a large number of people. There were also reviews at all military and naval stations, followed by illuminations, fireworks and balls in the evening.

The Parisians participated with their customary zest. Wreaths were placed on the Strasbourg monument in the Palace de la Concorde. President Loubet, while driving to the Longchamps race course to witness the grand annual review, was cheered all along the route. In the presidential tribune with him were the members of the Cabinet and the Ambassadors. In accordance with custom free performances were given in the subsidized theater. As the evening wore on the city presented an animated and brilliant spectacle, open-air dancing, pyrotechnic displays, and a general illumination being the principal features. At a late hour all the squares and open spaces were crowded with dancers and merry-makers, who gave no indication of an intention to give up their sport until dawn.

# BROOMS GOING UP

(Journal Special Service.)  
CHICAGO, July 14.—From all indications the housewife will have to pay a high price for her brooms in the near future. A careful summary of the reports from the broom-corn districts of Illinois, Missouri, Oklahoma and Kansas shows that the acreage planted in broom corn is fully 30 per cent short of the acreage of the year 1901 and 40 per cent short of the year 1900. The shortage in the crop has resulted in an advance of \$10 to \$20 a ton in the price, and further advances are expected. The price of broom corn has advanced the price of brooms and within the next week or two a meeting of the National Broom Manufacturers' Association will be held in this city to consider how much they shall advance the price of brooms.

# HE'S A ZEPHYR NOW

(Journal Special Service.)  
SAN FRANCISCO, July 14.—"I am a tornado from Nebraska, and I propose to do as I please," said Perry Law, when awakened in a Stockton street saloon by the proprietor and told to seek other apartments for a night's lodging. "We do as we please in the state I come from; you can bet on that, and if you will give me a gun I'll clean you and the rest of you out of here."  
Nobody offered to give the tornado a gun, but he was ejected from the place as Policeman Ceiner happened along. "We are looking for a breeze at the City Prison," said the policeman. I think you had better go there."  
"Cyclones and tornadoes are barred in Frisco," said Judge Morgan, after he had heard the testimony yesterday morning. I think the safest place for you is the County Jail. Come here tomorrow, and I will let you know how long you will be expected to fan the dust on the county roads."

# LOOKS PECULIAR

## Ferndale Case Has Some Peculiar Features.

(Journal Special Service.)  
WHATCOMB, July 14.—Sheriff Brisbin has abandoned search for the man who is supposed to have bound Mrs. Gifford and set fire to the house, leaving her to roast alive at Ferndale Tuesday.  
There are some peculiar circumstances surrounding the case as the throwing down of the purse in which there was \$100 in gold remaining, and if he had set the house fire the alarm which would have been given at once would have materially obstructed his escape and this would be an unusual performance for any man whose motive was apparently simple robbery.  
How the fire started is, of course, a mystery, but as Mrs. Gifford was ironing and had a hot fire its beginning can be at least conjectured.  
Another peculiar thing is that Mr. Gifford seemed to be unconcerned over the matter, going early to bed Wednesday night and rising in the morning and going to work as usual without, in the Sheriff's knowledge, joining in the chase at all.  
Regarding the man who did the deed, no one saw him come or go. The man who was brought to town Wednesday as answering the description, was seen by Miss Shields six miles from Gifford's at the time the incident occurred, proving conclusively that he is not the criminal, for her description of him corresponds to that of the tramp.

# HUSBAND FLED WITH INAMORATA

## Doctor Leaves Wife and Children for Young Girl.

SAN FRANCISCO, July 14.—Hunting for an erring husband, the deserter of wife and family, which has led a brother of the deserted wife over nearly 1500 miles of land and water, ended this afternoon when Dr. W. H. Gillard of Greenwood, E. C., applied for a warrant for the arrest of Robert W. Jakes, his brother-in-law. The story, to begin at the beginning, goes back several years. Dr. Jakes was a prominent physician in Greenwood, E.

# Police Captain Miles O'Rielly.

This is the energetic reformer who was brought to New York City from Brooklyn to clean out one of the worst districts. He did it.

C. He was at the head of the local hospital and one of the prominent men of the place. He was married to a sister of Dr. Gillard, who was at the time of the wedding a widow with two children.

To the couple two other children were born. Dr. Jakes built up a large practice and was very prosperous. Then he met Miss MacGregor, one of the pretty young girls of the place, and fell promptly in love with her. This, at last, is the story told by Dr. Gillard.

For a time the love affair was kept secret, and then gossip reached the ears of the wife. There was a scene, and Dr. Jakes was taxed with infidelity. This led to his running away with Miss MacGregor.

The couple first went to Vancouver, where they remained for a time, living at the hotel as Dr. and Mrs. Jackson. Then, learning that Dr. Gillard was after them, the couple moved to Seattle.

He followed the couple to Seattle, only to find that they had gone to Portland. So to Portland he went, too, and after a few weeks' hunt he found Dr. Jakes had learned of his presence in the city, and that he had once more eluded him.

Finally Dr. Gillard learned that the couple were in this city. He came here last night and went to the Buss House. He had little difficulty in finding the couple this time. He learned that they were living at the St. James Hotel, at 824 Laguna street, as Dr. and Mrs. Jackson. As soon as he was certain of this he procured a warrant for the arrest of his brother-in-law. He stated at the time that he merely wanted to force the man to support his wife and child, and added that Mrs. Jakes would have nothing further to do with her husband.

# HELENA MUST DIG

(Journal Special Service.)  
BOSTON, July 14.—The directors of the Helena Waterworks Company of Helena, Mont., the controlling stock of which is held in Boston, have voted to shut off the public service in that city after this month, unless the city government pays the bills for water supplied to date, amounting to \$75,000.

There has been some litigation over the bills rendered to the city, and the owners of the company, after consulting attorneys here have sent formal notice to the city authorities of Helena that an immediate settlement. The fire underwriters have also been notified. The shutting off of the water would leave the city without sewerage facilities or fire protection.

# A GREAT DRIVER

DOUGLAS, Wyo., July 14.—E. J. Lewis, a freighter, gave a remarkable exhibition of horsemanship here a few days ago. On a wagon of 35 he drove a string of 21 horses attached to five wagons loaded with 30,000 pounds of wool, turning four corners without the least trouble. The only time used was a long rope attached to the leading team and run through the bits of the other teams to the pole team, with the driver astride of one of the pole horses.

# THE TRIAL OF THE ARKANSAS

## The Million Dollar New Monitor Will Be Tested Today.

(Journal Special Service.)  
WASHINGTON, July 14.—In naval circles considerable interest is manifested in the trial of the new monitor Arkansas.

# Police Captain Miles O'Rielly.

This is the energetic reformer who was brought to New York City from Brooklyn to clean out one of the worst districts. He did it.

which is scheduled to begin today over the official course off the Delaware Capes. The Arkansas was recently completed at Newport News, and among the naval experts who have seen her the opinion was unanimous that she will more than fill the requirements of the contract. The Arkansas is of the same type and general dimensions as the Nevada, Florida

Sir Francis Laking

Sir Francis Laking is the physician of King Edward VII, and it is owing to his firm stand that the King yielded so soon as he did to the necessity of an operation. Of the three doctors in charge of the royal patient Laking is the one upon whose judgment Queen Alexandra most confidently relies.

and Wyoming, all of which are building, and each of which is of nearly twice the size and displacement of the single-turret monitors already in commission. Their cost amounts to nearly a million dollars each and they are designed to have a speed of 12 1/2 knots. Though inferior in size and armament to the battleships and first-class cruisers the monitors are nevertheless considered among the most formidable fighting machines afloat.

# TRAIN OF BUTTER

TOPEKA, Kan., July 14.—A fast freight train consisting of 11 cars containing jars of hermetically sealed butter has left over the Rock Island road for Brooklyn, N. Y. The contents of the jars are the product of a local creamery company, sold to the Government for use of the sailors in the Eastern navy yards.

Major Lang, a Government Inspector, was present to inspect and superintend the shipment, the value of which is \$40,000.

# A CRACKED SKULL

## Did Not Seem to Worry This Frisco Man.

(Journal Special Service.)  
SAN FRANCISCO, July 14.—Attendants at the Harbor hospital were surprised when Charles Walter, a hostler, walked in and announced that he had a cracked skull. His shirt front was spattered with blood and he had some soiled bandages around his head, but otherwise he seemed ready for more trouble.

Dr. Harvey removed the bandages and was more astonished than ever when he found that Walter was right and that he really did have a compound, comminuted fracture of the frontal bone.

"Get into a cot here and don't you stir," said the doctor to Walter. "You must go through an operation and I don't know what the outcome will be."  
Walter undressed and crawled into a cot, but refused to become unconscious. Instead, he cheerfully recounted his experiences of how he got into a fight and was hit over the head.

# PRICE SET ON HANNA'S HEAD

(Journal Special Service.)  
CANTON, O., July 14.—George Fisher, giving Pittsburgh as his home, has made an attempt to see Mrs. McKinley, claiming that he had important disclosures to make to her of the plot which led to the assassination of her husband. The colored porter notified him that Mrs. McKinley was too ill to see anyone.

Fisher then went to Mayor J. H. Robertson and told him his story. He had been in Cleveland, where he made an unsuccessful attempt to see Senator Hanna. He declares that the anarchists have set a price of \$50,000 upon Hanna's head, and that five attempts have been made to assassinate him. The Townsley Trustees bought him a ticket to Pittsburgh, to get him out of the city.

# A BIG MEET OF WHEELMEN

(Journal Special Service.)  
ATLANTIC CITY, N. J., July 14.—Wednesday will witness the opening of an event toward which the Atlantic City wheelmen have looked forward for a long time—the opening of the National meet of the League of American Wheelmen. Beginning early tomorrow morning the reception committee of the local wheelmen will be constantly on duty, and immediately upon arrival the visiting wheelmen will be made to feel at home. Headquarters will be established in the Grand Atlantic Hotel, and visitors will have to lose no time in finding out what- ever they want to know. The parade, which is set for Thursday, will be one of the bright features of the meet. Hand- some prizes will be offered to the club

Sir Francis Laking

Sir Francis Laking is the physician of King Edward VII, and it is owing to his firm stand that the King yielded so soon as he did to the necessity of an operation. Of the three doctors in charge of the royal patient Laking is the one upon whose judgment Queen Alexandra most confidently relies.

having the largest number of men in line, for the second largest number, and for the club making the best appearance.

Of course to many the most interesting part of the week will be that devoted to racing. The Coliseum track is one of the finest in the country and with the scores of fast racing men entered for the various events the contests promise to be of unusual note.

Some of the special entertainment features announced are a pioneers' banquet at the Grand Atlantic Hotel, yachting trips, free pool and surf bathing and an all-night "smoker" at Inlet Pavilion.

# BOLD GETAWAY

(Journal Special Service.)  
SAN DIEGO, July 14.—Fred Beate Hall, diamond thief, and J. M. Brooks, a burglar, under penitentiary sentences, attacked their jailer here, beat, bound, gagged and locked him in a cell and escaped.

# TO PLAY "GOLF" IN WINDY CITY

## Crack Players From All Over the Union Are There.

(Journal Special Service.)  
CHICAGO, July 14.—A small army of golfers from many parts of the country thronged the Glenview Club links today. It was the advance guard of the amateur championship competitors, who will begin tomorrow their first round for the highest golf honors in the United States.

That this year's affair will outline any of its predecessors seems to be a foregone conclusion. Of course, there is the present champion, William J. Travis, and among the other Eastern cranks who are on hand to compete for the \$1000 trophy and medals are Findlay S. Douglas, Allan Kennady, the New Jersey state champion; J. G. Thorp, the Massachusetts state champion and others of equal prominence. To try conclusions with the Easterners there will be any number of the best golfers the West has produced, including representatives not only of the clubs in Chicago and vicinity, but from as far distant as Southern California.

The contest will begin at 9:15 o'clock tomorrow morning. The full 18-hole course will be used, and it is in very good condition.

# BIG TIMBER LAND DEAL

(Journal Special Service.)  
SAN FRANCISCO, July 14.—One of the biggest timber land deals that has been recorded is the Scott & Van Arsdale Lumber Company's sale of 115,000 acres in the McCloud region of Siskiyou county for \$3,000,000, the purchasers being capitalists of the Middle West.

It is virtually a sale of the land, although in the form of stock transfers. The company retains its old name, and there will be no present change of officers, but the control of the corporation is now vested in the new owners.

The buyers of the 3,000,000 block of stock, in the deal that was closed last Wednesday, are: The Carpenter Land Company of Dubuque, Ia.; the Hixon Sash and Door Company, of Merrill, Wis.; Curtis Brothers & Company, of Clinton, Ia.; Walter Alexander and the Stewart Brothers, of Wausau, Wis. An inspection of the lands and other property was completed last week by a party of the syndicate's representatives, composed of J. E. Carpenter, F. P. Hixon, George H. Curtis, the Stewarts and Walter Alexander.

With the sale of the stock goes the control of not only the Scott & Van Arsdale Lumber Company, but also of the McCloud River Railroad Company, the McCloud River Lumber Company, the Siskiyou Lumber Company, and the Siskiyou Lumber and Mercantile Company.

# BECAME CRAZY AND RAN AMUCK

(Journal Special Service.)  
BOSTON, July 14.—A young man ran wildly through the streets of Dorchester toward Franklin Park today, and disappeared among the trees. A few moments later those who had seen the fleeing man learned that he was Herbert Hill of Roxbury, and that he had just shot and killed his married sister and had wounded his mother so seriously that she probably will die. Police were soon on the man's trail and entered the park in the hope of capturing the murderer.

It is said that Hill, who is 21 years of age, is demented. The police feared that the young man would hide himself and commit suicide.

The murdered woman, Mrs. Alice Riley, was instantly killed. The mother, Mrs. Amelia Hill, has a bad wound at the back of the head, inflicted, apparently, with the butt of a revolver. Her condition is considered critical.

Hill was finally arrested at Milton Lower Mills. He had every appearance of being insane.

# SHE WAS EASY

(Journal Special Service.)  
NEW YORK, July 14.—After robbing the jewelry store of Jacob Shapiro, in Brooklyn, of a tray containing 97 pieces worth nearly \$500, the thief boldly walked out the front door and brushed arms with Mr. Shapiro's daughter, who was in charge of the store while her father was absent. A second man had engaged her in conversation and lured her to the street door while his companion stole the rings.

Mr. Shapiro's store was robbed of several hundred dollars' worth of jewelry less than a year ago in a similar manner.

# Reduced Rates to Newport.

Commencing June 15, the Southern Pacific Company will sell round-trip tickets, Portland to Newport and return, good via either East or West Side divisions, in connection with the Corvallis & Eastern Railroad. Three-day Sunday excursion tickets, good going Saturday, returning Monday, \$1.50. Seaside tickets, good returning until October 10, \$6. Baggage checked through to Newport.

For further information call at City Ticket Office, corner Third and Washington streets, Portland, Or.

# CHAUTAQUA SPECIAL TRAIN SERVICE SOUTHERN PACIFIC.

Leave Portland, East Washington street—8:45, 9:30, 11:30 a. m.; 1:00, 2:45, 4:15, 6:20, 7:15 p. m.  
Leave Gladstone Park—7:00, 9:25, 10:30 a. m.; 12:21, 1:51, 3:48, 5:25, 6:17, 10:00 p. m.

# BEAUTY. HOW IT CAN BE OBTAINED

## How to Make a Marvelously Perfect Complexion and Restore Youthful Looks.

## HOW TO REMOVE PIMPLES, FRECKLES, MOTH, BROWN PATCHES, BLACKHEADS, OILINESS AND ALL DEFECTS FROM THE FACE, NECK AND ARMS.

There is nothing more beautiful than the human face with its vivacious countenance, its sparkling eye, its pleasant smile and perfect symmetry.

But the crowning glory of the face is a radiant complexion with its lively glow, its youthful tone, and its fine, smooth texture.

But the question is can such a complexion be attained? In this wonderfully progressive age of art, literature and science; of the steam engine, the mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric-making machines; what is there that is impossible?

By a careful study of the nature and texture of the skin, and a thorough research in the realm of chemistry and compounding of ingredients, a remedy has been at last perfected that will accomplish these results.

This remedy is **Mme. A. Ruppert's Face Bleach**. **WEAT FLOUR BLEACH**—Face Bleach is not a cosmetic to cover up, but it absolutely removes once and forever all the discolorations and blemishes to which the complexion is subject. I can positively guarantee every woman it will do all I claim. Its action on the skin causes it to remove every defect. It's a well-known fact that the blood in order to cleanse itself is constantly throwing off its impurities through the pores of the skin; now if the pores are not kept open, the impurities of the blood cannot escape, but collect below the surface, and produce all manner of skin troubles, such as PIMPLES, FRECKLES, MOTH, BROWNNESS, ECZEMA, ACNE AND NUMEROUS OTHER SKIN DISEASES AND DISCOLORATIONS.

**ACTION OF FACE BLEACH**—Now Face Bleach has this two-fold action; first, it has a magisterial action, which attracts and draws to the surface the impurities which have collected under the skin; and, secondly, a chemical action which removes by scaling off (in the form of a fine dandruff) the surface of the outer, diseased or dead cuticle, leaving the under skin—beautiful, youthful-looking and delicately tinted by nature—clear, smooth and perfect. This method is perfectly harmless to the most delicate skin, as it harmonizes with the laws of hygiene and nature, the two factors which we must adhere to and follow if we wish to permanently improve our personal appearance.

**THOUSANDS BENEFITED**—Thousands of patrons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvement Madame Ruppert's Face Bleach has produced in their skins. Many complexions covered with pimples, freckles and acnes eruptions (itching, burning and annoying) have been changed to bright, beautiful skins, and the improvements made in their looks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this wonderful remedy. Premature wrinkles and lines—those ironroads of beauty—are quickly effaced, and those muddy, disagreeing, sallow, jaundiced skins are quickly transformed into clear, wholesome ones by its use. Flabby skins—which also mark the ravages of time—become firm and smooth after a few applications. Skin troubles which have baffled the most skillful physicians have been removed and cured promptly, and many have expressed, personally and by letter, their heartfelt and profoundest thanks for this wonderful Face Bleach.

A positive guarantee is given if Face Bleach is used according to the new special directions, which are furnished with each order, that it will remove every discoloration and impurity from your complexion.

All of Mme. A. Ruppert's world renowned preparations are sold by us at reduced prices.

# Olds, Wortman & King SOLE AGENTS.

# SMOKERS FOR BELGE WOMEN DENVER FULL OF IRISHMEN

(Journal Special Service.)  
LONDON, July 14.—Health says that on some of the Belgian railroads smoking apartments are to be provided exclusively for women.

This result has been brought about through a young lady protesting herself the object of much fondness on her producing a cigarette in an ordinary compartment reserved for ladies. The young lady has taken action to compel all the Belgian companies to provide smoking accommodations for ladies.

# WILL DREDGE THE STEWART Former Governor of the Yukon Wants to Be a Miner.

(Journal Special Service.)  
TACOMA, July 14.—William Ogilvie, former Governor of Yukon Territory, is taking a big dredger, costing \$20,000, and other paraphernalia to Stewart River, where he will dredge for gold. He says he resigned his official position to undertake this enterprise, but it has taken nearly a year longer to assemble the necessary machinery than was originally anticipated. The company he represents has a concession from the Dominion Government.

# A RAILROAD SOLD. FATALLY STABBED

From California comes an interesting bit of railroad information. General R. W. Woodbury, of New York, and R. S. Selbert, of Los Angeles, have sold the California Eastern to the Santa Fe. This road is 45 miles long, and extends from Goff, a station on the Santa Fe line, 30 miles west of Needles, north via Marvel and Vanderbilt to Ivanpah.

The belief is current in California that Edward H. Harriman will extend the Oregon Short Line to a connection with the Santa Fe's new line at Ivanpah, and from there on, by way of Goff, Barstow and San Bernardino, that he will use, under a common traffic agreement between his lines and those of the Santa Fe, find entrance to Los Angeles.

This course would give Mr. Harriman a cutoff between Salt Lake and Los Angeles that would obviate the necessity of building a large amount of expensive road.

It may be stated in this connection that the extension of the Oregon Short Line through Southeastern Nevada is progressing rapidly and it will not be long before it will be complete.

The new directory just issued by the Columbia Telephone Company shows that company to be growing.

TRINIDAD, Colo., July 14.—George Thibault, Deputy Sheriff at Terico, has brought Estimerico Martinez to this city and placed him in the county jail, charged with assault to kill. Recently Remigio Martinez and another Mexican, both intoxicated, engaged in a fight, during which Estimerico took a hand, stabbing the other Martinez in the abdomen several times, seriously, if not fatally, injuring him. The two Martinez are in no way related. The victim is at a hospital here and is not expected to live.

**Objectionable Signs.**  
Ordinance No. 719, providing for the position of all business signs attached to buildings, is to be strictly enforced. The police will remove today all signs which are not flush with the building line. A great many signs project over the street and these are the ones to which objection is made.

**Suspicious Character.**  
Detectives Kerigan and Snow appeared in the police court today as the prosecutors of Tom Burns, charged with vagrancy. The man was found with some tools on his person which he could not account for. The penalty was five days on the rock pile.
