STRIKE OF TEAMSTERS

Boycott Is Playing an Important Part.

Some Wood Users Say They Will Soon Burn Oil.

As a result of the fuel teamsters' strike, some of the big firms in the city which consumed all the way from four to six cords of slabwood a day are preparing to put in oil plants and use oil as a fuel from now on. They say they cannot afford to be bothered with strikes and boycotts, and will make the change as soon as possible.

The interested parties on both sides of the strike have been pushing the boycott to the limit in order to gain their point and bring about a cessation of hostilities. The Banfield-Veysey Company is said to be visiting its largest customers and informing them that if they do not continue to take its slabwood they will be boycotted by the various members of the Employers' Association.

On the other hand, the teamsters visit them and explain that the unions will injure their business if they do not cease patronizing the boycotted firm. With both sides working upon them, many of the firms believe that the only solution of the dilemma in which they are placed is to make arrangements to put in oil-burners.

There is no indication of an early settlement of the strike. The sawmills are losing heavily every day that it continues, and are doing all in their power to assist the boycotted firm. It is said that Mr. Banfield attempted to form an association with the object in view of endeavoring to bring such pressure to bear upon the breweries that they would have to get their fuel from him. The effort failed, as the breweries combined and made arrangements to get fuel from other sources where none but union drivers are employed.

Other companies are following their lead, and it begins to look as if both sides will soon be represented by gigantic combinations with opposing ideas. The contest for supermacy gives every evidence of being bitterly fought out.

The men say that about all they intend to do at present is to enforce the boycott. They believe this will be sufficient to gain recognition from the Banfield-Veysey Company. E. Tooley, the business agent of the union, says the situation looks promising. A fight was made against the same company a year ago, and it continued three months, resulting in compromise. The present struggle has been in existence but three weeks.

DOG EAT DOG

(Journal Special Service.)

PUEBLO, Colo., July 14.—The Pueblo Retail Liquor Dealers' Protective Association has filed articles of incorporation with the Secretary of State. The purpose of this organization is to protect the law-abiding retail liquor dealers of Pueblo and to punish those who violate the ordinances, and to prevent, if possible, the operation of "blind pigs." It is stated in the incorporation papers that the association is opposed to class legislation, and that the members will do everything they can to see that retail liquor dealers obey the ordinances of the city.

MADE HER A NEW KNUCKLE

(Journal Special Service.)

CHICAGO, July 14.—In a remarkable surgical operation Dr. Nicholas Senn has succeeded in making a new knuckle for the thumb of Mrs. Thomas M. Hunter, wife of Ald. Hunter. Two years ago Mrs. Hunter caught a splinter of wood under her thumb nail. Inflammation set in recently and resulted in blood poisoning. Dr. Senn removed the knuckle and formed a new one of strips of bone.

Got Many Curios.

George H. Himes, assistant secretary of the Oregon Historical Society, has returned from a collecting trip up the Willamette Valley in the interests of the organization. He secured many interesting exhibits, which will be in Portland some time this week. While in Salem Mr. Himes attended the 50th anniversary of the establishment of the Congregational church.

MINES AND MINING.

L. V. Swaggett, a well-known mining and real estate man of Sumpter, has just returned from a trip East, and while there sold the Orleans quartz mine, which is separated from the Golconda by a fraction. It is an extension of the Columbia. The buyers are Iowa people, who will commence sinking on the property at once. E. H. Emery, one of the purchasers, is now in the city.

Arthur Conklin, editor of the Oregon Mining Journal, at Grant's Pass, was in the city Saturday. He reports that more interest is being shown in the mining industry in Southern Oregon this season than for several years past. Many new claims are undergoing development.

The well-known Phache mine, in the Greenhorn district, which one year ago was sold to Judge J. Fawcett, of Omaha will soon be equipped with a 10-stamp mill. Work is not being done on the vein at present, but a force of men are running a crosscut tunnel which has now reached 242 feet. This crosscut will be continued to a distance of 800 feet, tapping the vein at the 200-foot level. The tunnel is well timbered and is in good shape. The ore at the bottom of the shaft is equally as good as the first taken out.

Governor T. T. Geer has appointed 28 delegates to represent this state at the fifth annual convention of the International Mining Congress to be held in Butte Mont., September 1 to 5. The delegates named are: Clark Taber, Portland; Frank Balliet, Baker City; J. H. Robbins, Sumpter; Richard Wilson, Portland; Albert Geiser, Baker City; J. W. Virtue, Leland; W. T. MARINE NOTES.

The British bark Wynford, from Royal Roads, has arrived in port under charter to load wheat for Kerr, Gifford & Co. While the Wynfod was discharging her cargo at Nagasaki, Japan, one of her crew fell overboard and drowned.

The German bark Octavia has been chartered to load wheat at Portland at 28s 9d. The Octavia is en route from Hamburg to Santa Rosalia, and is now due at the Mexican port. She has never yet loaded at this port. She is a vessel of 2308 tons net register.

The number of vessels now en route to Portland and the Sound is the largest on record. There is listed for Portland and Puget Sound 50,000 tons net register. Last year at this time the tonnage en route to these ports was much less than the figures given, in spite of the higher freight rates paid then.

John Hermann, known along the waterfront of the Sound and San Francisco as "Bismarck," was murdered by the natives of St. Lawrence Island early in May. Charles A. Boyle, second mate of the steam whaling vessel William Bayless, gave the news in a letter written to friends at Seattle. Hermann was killed by medicine men of St. Lawrence Island. They supposed he was responsible for a large number of deaths that have occurred in the Indian tribe during the past year.

The freight rates on coal between Australia and San Francisco and Honolulu have fallen so low that vessels are returning in ballast rather than load with the product. The rate paid to some vessels this year has been as low as $2 per ton.

The big barge Telephone, recently built at Aberdeen, Wash., to be used in carrying grain on the Sacramento River, is now en route from Grays Harbor, where she was built, to the Golden Gate. She carried about 800,000 feet of lumber from the American mills.

The German steamship Elba, a 6000-ton vessel, has been chartered to load wheat and flour at Portland for South Africa.

THE MARKETS.

In the market eggs have reached the top of the ladder and are being sold at 22@22½ cents a dozen. Most of the sales are made at the latter price. A large quantity of Eastern and also of local cold storage eggs are being put on the market and are bringing top quotations. It is said that there is several thousand cases of eggs still in cold storage. Farmers should sell their eggs now as it is unlikely that another advance can be made on the prices. There was no receipts today.

The provision market is quite firm with receipts light. The prospects are that prices will not make any further advances for some time, if at all. At the present time it looks more like a decline will take place soon. Meats are higher this year than for many years past. The prices at present have been unheard of for this season of the year. There were no receipts of local fresh meats today.

Butter still holds its own with the very best brands of creamery selling at 25 cents a pound. Some of the lesser known brands are still quoted at 22½ cents. The reason for the stiffness in the quotations of butter is that the ice cream manufacturers are using such an enormous amount of cream. Store and dairy butter are firm at former quotations.

The vegetable market is entirely cleaned up of vegetables today. The steamer Columbia will arrive this evening from San Francisco and the markets will be well supplied tomorrow morning with fresh vegetables and small fruits of all kinds. Tomatoes are in larger receipts today, the California product being the only supply. No changes appear in quotations.

The grain market is dull as is usual between seasons. The quotations remain as formerly.
