She passed through the Suez Canal to Shanghai and brought in a cargo of coal from some point port in Japan to Singapore, and from there she was delivered into the service of the Portland Asiatic Steamship

Company at Hong Kong. The Indrasahma brought in 2500 tons this trip. Her cargo for Portland comprises coffee, pepper, taploca, pincapples, mattress fibre, hemp, Chinese goods, matting and clay for the paper mills at Oregon City. A portion of her cargo will be transshipped from Pertland to San Francisco, and among other items, includes block tin and pineapples, as well as taploca and copeck-a sort of vegetable floss. She has, also, a large quantity of silk for New York, which goes through from here by passenger train to secure speedy delivery. The remainder of the cargo is for other Eastern points, and includes liberal consignments of tea and matting.

The vessel left Yokohamo June 27, and her passage was made in the average length of time.

James Gonlan and Richard Brown, boys, found the body of a man yesterday floating in Mock's slough, Willamstte River, near University Park. They at once notified Coroner Finley of the find, and the body was brought to the coroner's office. It has not yet been identified. The doomed man was evidently a laborer, and a German. No marks of violence were found on the body. It was probably a case of suicide or accidental drowing.

An inquest will be held late this after-

SPOKANE, July 14.-Patrick Clark, who developed the Republic mine to a plant where it paid dividends of \$15,000 a month, has again assumed the presi-

dency of the Republic Company, and operations on the mine will be resumed under his direction, probably within a nonth. At a meeting of the stockholders of the Republic Consolidated Gold Mining Com-

pany in Spokane on Friday, the following Spokane men were elected to the board of directors:

Patrick Clark, W. M. Ridpath, Huber Rasher, A. L. Kempland, John Bresnahan. The five comprise a majority out of the

board of nine. . The other four are Eastern Canadians, and the management of the company therefore will be in the hands of the Spokane men in harmony with Mr. Clark.

# WATCHES FOR SECURITY.

Bicycle Deputies Measts. Knight, Weir, Kelly and Eaton, are doing good work seizing unlicensed wheels on the various paths in the city. Thirty untagged bicycles are now stored away in the court house in the custody of the Sheriff. The owners redeem them usually soon after they are taken. The Sheriff also has a drawer full of watches of all kinds, taken from persons who gave the property up as security for their wheels. The law permits the Sheriff to seize personal

Portland was not "in it" in Saturday's game. It was simply a case of being outplayed at every turn of the road. The champions played a very loose game, which Tacoma made the best of at every opportunity. The summary:

If values will do it, tomorrow will be one of the red letter days of our July clearance sale. A mere glance at this list will satisfy you as to the fact that fewer items than usual make up the list. Fewer, 'tis true, but infinitely better from a money-saving point of of view. There is no need to add lengthy argument or emphasis to such bargain snaps as these for Tuesday. In every respect the goods are what they should be, thoroughly reliable and trustworthy. As for prices and values we leave you to judge. Come and see.

DETROIT'S TROTTING MEET. DETROIT, Mich., July 14 .- Three hundred and 21 horses, including such cracks as The Abbot, The Monk and Junitorio, are entered for the various trotting and pacing stakes and purses that will be given by the Detroit Driving Club at the blue ribbon trotting meeting, which opened at the Grosse Pointe track today.

The meeting, which opens the grand circuit trotting events, promises to be one of the most successful ever given by the club. The entries average over 15 to each class. The chief event of the four days' meeting is the historic merchants and manufacturers' \$10,000 stake, for 2:24 class trotters.

It's fine." The words came easy, without catch of a breath, and despite the fact that the big, bronzed body had been going through exertions for an hour that not one man in 10,000 could have stood and kept his wind. The champion's control of his breathing is really the most wonderful thing about him. He left Harbin this morning about five minutes street. Mrs. Rubicum, who underwent ahead of the stage with "Kid" Eagan, his secretary, driving a cart as pacemaker, and he reached Miduletown, "four and a half miles" away, ahead of the conveyance. The time consumed was 25 minutes. The people of the Springs and the town say that the distance mentioned is exact: if it is, then the miles were measured by railroad land agents. Jeff is unlike other pugilists in training in that he follows no routine. F Every day brings with it the introduction of some diversion in the way of exe. cise. It may be a hunt on mule back over wooded mountain or through rocky gorge, a run with the hounds, a tramp over hill and dale or a wade in the cool waters of some creek or brook, whipping them for trout. When he returns to his quarters

he may lounge oround and relax.
