CITY SUBSCRIBERS.

If City Subscribers fail to secure their paper they will confer a favor if they will call up Main 500 and enter their complaints.

PORTLAND, ORE., JULY 15, 1902

LEE AND CROMWELL.

The Minneapolis Tribune believes that General Robert E. Lee, the flower of the Southern military, is not to be compared favorably with Oliver Cromwell, who led the English freedom forces and accelerated the movement toward the larger national life to which the British Nation has attained.

THE GENIUS OF WORK.

Kitchener, English Lord and military hero, was received with loud acclaim by the British people, and accorded honors seldom enjoyed by man. Yet, 20 years ago he was a homely young officer, with no apparent prospects, and not even sociability to utilize in winning his way to the forefront of his competers in the English Army.

THE COOS BAY ROAD.

Whatever may be the real financial force behind the Coos Bay railroad project that has been launched in this city, it cannot be denied that it holds great possibilities for Portland and Oregon. It will develop a region which the people know very little. It will bring into operation industries that otherwise would remain as mere potentialities.

DOECH A GOOD SELECTION.

In electing Colonel Henry E. Doesch to the position of director-general of the Lewis and Clark Centennial, the directors of the corporation have the indorsement of the people of this city and state. They know that Colonel Doesch is the man of all men to captain the Exposition to the success for which everyone is anxious.

OUR CROWDED PARKS.

Every park in Portland was crowded Sunday by people who wanted to get out into the open air and away from the dust of the city's center. They swarmed out on the street cars, in carriages and on bicycles, and there were thousands who swelled the throng of picnickers in those parks.

SUPPORT THE FAIR DIRECTORS.

Let debate rage never so earnestly, but let the people forget not to support the Fair directors heartily, even though they make decisions that are not in consonance with the ideas of some of the residents, however numerous those dissenting residents may be.

FRENCH HIGHWAYS.

As early as 1867 the improved macadamized highways of France had a total length of 200,000 miles, while the length of unfinished highways was then stated at 74,000 miles, most of which is now finished.

against any measure as his judgment dictates, and the vote will be an honest expression of honest opinion. Don't forget that every man of them sacrificed something in accepting positions upon the board, and is compelled to undergo adverse criticism from thousands of thoughtless people, who do not stop to consider all of the difficulties a board of directors of such an enterprise must face.

Because you do not agree with the directors, let it be no reason for withholding hearty support of them. Back them in every manner possible, pay subscriptions promptly to all stock held, and whatever be the decision as to the site, let every Portland man and woman determine that there shall be no divisions after the debate over the matter has ended.

NEW UNIFORM.

The United States army is to have a new uniform. Radical changes are to be made in both service and dress uniforms of officers and men of all branches of the service.

KNICKERBOCKER TO BE SUBSTITUTED FOR LONG TROUSERS.

Some time ago Secretary of War Root appointed a special commission of army officers to investigate and report on the question of improvement in the uniforms now worn. The commission has held a number of hearings, examined the uniforms of armies of other countries and will report to Secretary Root recommending a number of changes.

WAR ON RAILROADS.

That the Republican state convention in Washington is to be a battleground in a "war on the railroads" is probably about in the public prints. It should be true that this is a misnomer of the contest. There should be no war on the railroads. And the man who poses as an enemy of railroads is a demagogue.

BANISH THE PISTOL.

A man was accidentally shot on Sunday night by a pistol dropping from his pocket. Why need he carry a pistol? Why need any man carry a pistol, nowadays, in Portland, unless he be a peace officer or guard of some property, watching it as regular business?

A "WILD WEST" INCIDENT.

It was at the Wild West show. A young man and his best girl sat in front of the observer. Next to the man, on the other side, was a Hibernian gentleman. As the show progressed the broncho busters came on. Ed Solder's mounted the ugliest pony in the bunch, and immediately there was something doing all over the foreground.

OREGON NEEDS STATE PRIDE.

Scratch a Californian and you find that you have an enthusiastic champion of everything that bears the stamp of the Golden Gate State. Look up a Washingtonian and you discover one who booms his state in the most enthusiastic manner.

THE TURNOVER COLLARS.

The rage for the little turnover collars of hemstitched and embroidered linen is, we regret to say, not accompanied by a rage for cleanliness. How many of these gaudy bits of lingerie does one see that ought by right to be in the wash tub? As a matter of fact, the only rule to be observed in regard to these collars, as with all collars, is the good old staid one—a fresh one every day.

USES OF OLIVE OIL.

The increased use of olive oil for food should always be encouraged. If children are trained to eat it, there is little likelihood of their ever losing the appetite. Instead, the tendency is generally to an increasing use of oil not only with salads, but with almost all vegetables. Mayonnaise dressing and tartar sauce please many who do not care for plain oil.

THE SUMMER CURTAIN.

The furnishing of the windows is often a task of troublesome character, especially to the housekeeper who cannot have the advantages of city shopping, says Harper's Bazar. In the season's shopping of attraction fabrics nothing presents more certain for use in summer homes or cottages than the white or white and cream madras, a thin, scrim-like material, having a closely-strewn pattern over it that is done in fluffy lace, much like the snowflake materials.

TO RESTORE COLOR IN LINEN.

Color taken out of linen by careless washing or otherwise may be restored by immersing the article in a solution of one part acetic acid to 12 parts of water.

THE NEWEST WRIST BAG.

To wear with all black, all white or red, nothing smarter can be found than a little square bag of red morocco. It has trimmings of gun metal, and gives a vivid dash of color to a clever costume. A parcel to match and red leather heels on one's Oxfords makes one up to the latest seaside dressing.

JUST A HINT.

Kid belts in tan color and in colored leathers are clasped with gold fastenings, and yokes of kid are seen, but not so frequently. An oak leaf design in scru leather, with accents of leather dangling from short leather stems, is a unique trimming for any of the soft wools in the shades of brown.

HINTS TO WOMEN

TO RESTORE COLOR IN LINEN. Color taken out of linen by careless washing or otherwise may be restored by immersing the article in a solution of one part acetic acid to 12 parts of water.
