IN TOO BIG A HURRY

Four times a man in Los Angeles presented himself at the Georgia Street Receiving hospital, stating that he had been beaten and robbed and that he was suffering from severe pains in the head. Three of these times he was given a hurried examination and put back into the street. The fourth time he was sent to the general hospital, where he was found to have a fractured skull, and where he died 14 days after his injury. Looks as if somebody had been in too big a hurry in the first three examinations.—Golden Age.
