GOOD NEWS FOR WOMEN

It will be good news for local housewives to learn that there is still time to take advantage of the remarkable range offer made by dealers and the power company. By special arrangement the Monarch range campaign which proved such a success during June has been extended another 30 days and the same low prices and terms will prevail. This is a most timely offer during this hot weather season when every housewife is interested in the cool, clean, automatic electric cooking to free her from the kitchen, and it is expected that many local women will take advantage of the special prices now in effect. Full details of this unusual electric range offer may be obtained from any dealer or from the power company.
