GOLD SEAL CREAMERY

People Should Demand the Products of This Company As It Is a Local Concern Deserving of Your Liberal Support.

This up-to-date concern is a very prominent institution which has aided in the upbuilding of the community and renders a valued and an essential service in the furnishing of their products. A well known concern under a management that is thoroughly conversant with every feature of the business.

Popular with both the producer and the customer is evidenced by the large number of farmers selling their cream to this well known concern, as it is a well known fact they pay the top of the market at all times.

Commendable publicity and valuable advertising is given our com-

munity by this progressive firm, far and wide. Their operations are of a most extensive nature and add to the commercial efficiency and attractiveness of the community as headquarters for quality products.

Why should not this company be able to produce as good, if not better dairy products than any other company.

Their supply of cream comes from the healthiest and best fed cows in this particularly advantageous section. The plant is positively as sanitary as long experience and the expenditure of much money can make it and it is in the

hands of men who are thoroughly conversant with every feature of the business.

There is no reason why they should not occupy a prominent place in the better class of dairy markets and the above are some of the reasons why their brands are more and more popular with particular buyers, and why this concern is prospering far beyond even the promoters' expectations.

In making this review we are glad to compliment the growing business the concern is conducting and to say that this firm will greatly aid in the development of this section of the state.

Located in Medford at 30 North Central—Telephone 105

This concern is one of the most progressive yet reliable institutions, whose admirable policies and superior service to the public is evidenced by the fact that their business has been more active than ever before.

This is one of the institutions which has aided to as great an extent as any other in the upbuilding of the social and home life of the community.

It is an institution in which the people have every confidence, not only because the laws of the state and nation make it a safe association to do business with, but also because its affairs have always been in the hands of men of wide experience in the commercial and financial world; men who know

the people and men whom the people know.

The object for which it was organized was to furnish a safe, profitable place for the investment of its members, and to use these investments to aid other members to build and own their own homes.

Many people have idle money or money which they think should be earning a higher rate of dividends. Perhaps they are uncertain as to what to do with it.
