Bad Eye Pete, Calamity Jane and Alkali Ike as they will appear at Jacksonville's Gold Rush Jubilee Saturday, August 19. The trio will pose as tough sordoughs and a pioneer maiden with all the winsom charm of her grandmother. They are, in real life, (reading from left to right) Theron Appiebaker, Miss Venita Dailey and James Gwin. Such impersonations are but a part of the famous old town's preparation for a recreation of her glamorous past as Oregon's first gold camp.

Peckham late last week when they received word that their home was burning. Nearly all articles downstairs were saved, however, when a fisherman, noticing flames starting from the light plant at the back of the house, broke through a window and obtained aid of neighbors by telephone. The house, built by Ralph Jennings about 15 years ago, was the property of F. C. Preston.

● Bob Mason of San Francisco, former Medford boy, motored to Big Applegate with a friend Tuesday, and spent the day picnicking and swimming at the old Boy Scout camp. Mr. Mason, now a student at the University of California medical school, enjoyed reviewing the old haunts which he frequented as a loyal scout six years ago when W. W. Belcher was the scout executive. Even the farmer's grind stone where dull hatchets were slyly whetted was not overlooked by Mr. Mason. He expected to leave Wednesday morning for San Francisco.

Five needy families were represented. Miss Clair Hanley of Jacksonville, spent about two hours at the meeting instructing in the work. Similar meetings will be held for the Ruch vicinity every Tuesday, with the next one probably at the home of Mrs. A. S. Kleinhammer.

Hueners is crew chief at the "West Point of the Air" and has 16 months more time to serve with the army, joining five years ago. He has been stationed at Randolph — near San Antonio — since 1931. One Spike Won't Build a Railroad . . .

A single spike just marks a good intention. A thousand of them will hold together a track that will carry the weight of a great train. A single deposit in a savings account, like a spike, will rust from disuse without company. But add to those deposits regularly and you'll soon have enough to support the crushing weight of an emergency—
