● Out of the miles of charred, desolate wastes looming on the hills of Poor Man's creek after the fire a week ago comes one graphic lesson: People have learned that there is beauty in mere green slopes, whether they be timbered or only brush covered. The stretch of country between the Summit service station and Ruch never was considered particularly beautiful, in fact the drive was rather boring, and with this thought in mind one citizen listened to a comment on how the fire had ruined the country and replied, "How could it?" A glance at the black spectre of naked trees against a background of ashy barrenness reveals "how it could."

LOCAL COUPLE PLAN TRIP INTO MATRIMONIAL SEA

Dan Cupid has been recovering from the depression and his latest targets are, according to victims' own admission, Miss Geneva Ionia Coffman and Marion Sylvester Hulse, who plan to face Justice of the Peace Ray Coleman about Saturday, September 22.

Mr. Hulse is the son of Mr. and Mrs. P. A. Hulse of Sterling, his home, while Miss Coffman is the daughter of Mr. and Mrs. Ike L. Coffman of Jacksonville. The young couple plan to make their home in this city following Judge Coleman's hitching ceremony, where Mr. Hulse has been engaged in mining.

The marriage of the popular pair will be Jacksonville's first romance to burst into flower since quite an epidemic of marriage about a year ago, when several local swain and lasses decided to cast a double lot. The bride and groom-to-be will be receiving congratulations and best wishes, and possibly a charivari (it is feared) during next few days from their many friends.

\$20 Bill Racket Is Ruse for Mooching Off Applegaters

Free chicken from the generous neighboring farm homes has been the main dish on the table of a young Beverly Hills couple who have been camped at the McKee bridge on Big Applegate for several weeks.

The couple visited three different homes, purchasing a chicken by the old "20-dollar bill" method and a promise to pay later. Milk was obtained from a fourth farmer in the same manner.

Clad in their bathing suits, the young man having his hat perched awward at a jaunty angle, the couple approached one farm wife and obtained a dollar's worth of food, including a chicken, eggs, potatoes, jam and lard in which to fry their chicken. The housewife, doubting the possibility of changing a \$20 bill, was relieved when her son shouted from the window that he could change it. At this turn of the deal the couple returned to their sport model car and after searching for some time, declared they had forgot their money and had left it at camp. They said they were going to town the next day, and would leave the money. Showing great consideration for their benefactor, they asked the

housewife if she needed anything from town and offered to give back part of their purchase. The local woman declined, and pronounced the deal satisfactory if the visitors would pay tomorrow, but tomorrow hasn't arrived as yet.
