ASHLAND, OREGON, FRIDAY, JUNE 21, 1935

COMICS AND FEATURES

"Corkscrew" Airplane Built in South Dakota

This corkscrew-shaped airplane-Zeppelin, called the Aerozep, is scheduled to make its test flights this summer at Rapid City and its inventors, Rev. C. H. Locke and Lorrin Hansen, expect it to show a speed of 300 miles an hour. An all-metal dirigible, with vanes running around it, the contrivance revolves in a steel frame 1,000 times a minute. It has wings like an airplane and a large rudder.

Battleship Salvaged Upside Down

When the German battleship Bayern, scuttled by her crew in the waters of Scapa Flow after the armistice, was salvaged, she came to the surface upside down. She is here shown as she arrived at Rosyth, Scotland, to be broken up for scrap metal.

New Bonus Army in Los Angeles

War veterans in Los Angeles responded quickly to a call for the formation of a new bonus army to go by automobile to Washington and plead for immediate bonus payment. In the picture Royal W. Robertson—at right, wearing a veteran's cap—is seen enrolling members of the army.

CHUMMY WITH WALES

For a time there was a mystery about the identity of this new friend of the prince of Wales who danced frequently with him in Paris. Then it was learned she is an American, the former Mrs. Wally Simpson, who is now the countess of Garrick. She was well known in Philadelphia, before her marriage, as Marion C. Donaghue.

Together in College and Congress

Here are three classmates of the University of Alabama, now in congress, talking over the good times they used to have. They are, left to right: Senator Bankhead of Alabama, Congressman O. H. Cross of Texas, and Senator Kenneth McKellar of Tennessee.

Smallest Bus Worries the Police

What is believed to be the smallest bus in operation is running around the streets of St. Paul, Minn., and into the hair of traffic police. The miniature transport, built by L. F. Wright of St. Paul, seats nine children and a driver. It is 11 feet long, three wide and three high. The power is derived from four 24-volt batteries and a maximum speed of 18 miles an hour is obtained. It can travel 50 miles without recharging and the state license costs \$5. Here is a traffic officer holding up the small bus for an inspection.

SHE SETS A RECORD

Miss Janet Rutter, twenty-five, of Washington, was admitted to the bar of the United States Supreme court, and she is said to be the youngest member of her sex permitted this honor. Miss Rutter is now an attorney in the office of George Peek, special foreign trade adviser to the President.

TEST OF NEW BALL

Alex Ednie, pro at Shelter Rock Country club, Long Island, recently drove a spun latex ball through a phone book almost an inch thick, containing more than 500 pages. Standing the book on end without support 4 feet in front of the tee, Ednie sent the ball through with such force that it carried and rolled 100 yards beyond. Traveling at the rate of approximately 114 miles an hour, the ball was averaging 167 feet a second when it hit the book. The drive, declared impossible by golfer and non-golfer alike, was made to test the new spun latex golf ball, a United States rubber product.
