COMICS AND FEATURES

Howard Hughes Tests New Pursuit Plane

Surprising a huge crowd of pilots and airplane manufacturers, Howard Hughes, wealthy sportsman and film producer, permitted his new mystery racing ship to be photographed at Municipal airport, Los Angeles. The low-wing monoplane, powered by a 14-cylinder twin row Wasp engine, has an expected top speed of 365 miles per hour with a cruising speed of 350 miles per hour. Built over a period of two years, the plane is estimated to have cost more than \$100,000. It is equipped with retractable landing gear and a tail skid, and has wing flaps and air brakes.

Giant Submarine During Battle Practice

Here is the Nautilus No. 2, one of the most powerful submarines in the United States navy, as seen from her sister ship, Narwhal, during battle practice off Los Angeles.

Alleged Polygamist Colony in Arizona

Down in Arizona a colony of alleged polygamists has been discovered at the village of Short Creek, which is shown in the illustration. Elmo Bollinger, a county attorney, heard of it and started prosecutions. The twenty-five or thirty families in the town belong to the "Brethren of the United Order" and were excommunicated by the Mormon church. They admit they believe in polygamy but deny that they practice it.

He Finds Romance Again at 90

Twice a widower after marriages which lasted 28 and 38 years respectively, David L. Selke, ninety-year-old head of the congressional information bureau, was wed to Sally Mason, fifty-nine-year-old music teacher of California and Washington. Mr. Selke said he had so many children that he had stopped counting them. The bride and groom are shown above.

Corn Roast High Above New York

A corn roast from corn grown in the vegetable garden on the eleventh floor roof of the RCA building in New York was held in the Gardens of the Nations. The corn was roasted by 12 Girl Scouts over a hunter's fire built by them on a terrace of the gardens. The girls roasted the corn to fulfill one requirement for their cook's badge—the preparation of an outdoor meal. Miss Mary Margaret McBride, nationally known food authority, judged their cooking abilities.

Dogs and Cats at Home

Once he becomes attached to his human master, the dog is at home wherever that master may go. Cats, however, become attached to the surroundings of a home and its immediate neighborhood. They resent a change and often have been known to forsake the new home of their owner to return to the old known haunts.

Scallops Related to Oysters

Scallops form a group of bivalves related to the oyster. The two shells are shaped like fans, usually marked with prominent ridges that radiate from the hinge, and the edges are undulated. They are found along our Atlantic shores. The central muscle is the edible part; the season is October to March.
