POLICE CHIEF TALENT REVIEWS RULES FOR TRAFFIC SAFETY

"Above all, look out for the children."

Such is the admonition of Chief of Police C. P. Talent to drivers of automobiles, in an article dealing with traffic safety. Various civic leaders are contributing articles to the local press as one feature of the safety campaign being conducted by the Ashland chamber of commerce.

Chief Talent gives a few rules for safe driving, as follows:

Don't take chances; when in doubt, stop.

Keep your hands on the wheel whenever the car is in motion.

Any conversation which requires the driver to turn around should be avoided.

Slow down and give ample clearance for bicyclists and children.

Safety zones are for pedestrians; keep your car out of them as much as possible.

If you are aware that a pedestrian has become confused while crossing the street or road in front of you, give them the benefit of the doubt, and stop.

Be sure the gears of your car are in neutral before using the crank or starter.

Do not guess; be sure you are right and that you know all traffic signals and obey them. Giving the wrong signal at an intersection when turning has caused many ac-

cidents, entailing loss of property and life.

Never pass an overtaken vehicle at an intersection.

Never follow another car or truck too closely.

When parking your car, see that both right hand wheels are within at least 15 inches of the curb line.

Never park closer than 10 feet to a fire hydrant.

When driving up to, or away from the curb, be sure that the movement can be made with safety and give proper signals.

Never back up your car without looking behind you, for there may be children near.

Do not be a road hog—courtesy among drivers is the surest way to prevent accidents.

If you desire to drive more slowly than the majority of traffic, keep to the right side of the road or street in order that other cars may pass you with safety.

When contemplating a turn to the right or left, get in the proper lane of traffic. When turning to the left, keep close to the center line. When turning to the right, keep close to the curb side of the street.

And be sure to stop, look, and listen before crossing railroad tracks. Danger lurks behind every blind corner and drivers should slow down when approaching one.

Petition Is Filed For State Bank

Sponsored by the State Grange and the State Federation of Labor, a preliminary initiative petition was filed Tuesday with the secretary of state at Salem for the creation and operation of a state bank.

In order to qualify for a place on the ballot, the petition must be signed by more than sixteen thousand voters. The proposed measure is similar to the senate bill introduced during the last session, which failed to pass.

The proposed act would provide for the creation of a state bank for a depository of all public funds. The bank would be in charge of a board of directors composed of the state treasurer, the governor, secretary of state, attorney general, and labor commissioner.

Jackson County Teachers' Chorus

Among the more important musical organizations of Southern Oregon is the Jackson County Teachers' Chorus which is beginning its fourth year this fall. They have an organization which has grown in numbers and in quality of ensemble singing under the leadership of Mrs. Esther Church Leake, music director of the Medford schools, until it has received favorable comment from many parts of the state. Each year it has added to its library of choral music and this year plans have been made to make further additions of new modern worthwhile music.

Mrs. Leake has called the first meeting for Saturday, September 28th at 10 a.m. in the Jackson county court house. All teachers who sing are asked to meet with the chorus to begin the fall practice.

WHAT FORESTS NEED

Sustained yield of forests in the Northwest, according to B. F. Heintzleman, forest official, will require an effective system of fire protection to prevent losses of young growth; provision for adequate sources of seed supply to secure restocking of cutover lands; a method of taxation which will relieve pressure for immediate timber liquidation, and at the same time provide for annual county budget needs; a system of long term financing providing federal forest credits to timbermen who operate on a sustained yield basis.

TO HOLD 4-H FAIR

The 4-H clubs of the Valley View and Bellview schools are to hold an all-day fair tomorrow, Saturday at the Bellview school house. A picnic dinner, sponsored by the Grange, and an afternoon program of sports will feature the meeting. The Grange will award prizes.

BUYS RESIDENCE

Having recently purchased residence property on Granite street, T. L. O'Hara is having new floors put in and making other improvements, including redecorating and renovation. He expects soon to occupy the residence.

Mr. and Mrs. Ralph Billings arrived home Tuesday from a trip which included Lakeview, Malin, Burns, the John Day district, Prineville, McKenzie Pass, Belknap Springs and other interesting points.

Drama Season to Open at Normal

Angus L. Bowmer, dramatic director of Southern Oregon Normal school, has outlined an extensive program for the coming school year and also for next summer's events in the Elizabethan theater.

The first play to be given is "Seven Keys to Baldpate." Mr. Bowmer is now busy with the casting for that event and is making preparations for rehearsals. A number of other good plays are scheduled for the season, including "Emperor Jones," which will be presented during the latter part of the winter quarter.

Co. Agent Warns Of Blight Fungus

C. B. Cordy, assistant county agent, warns that with the beginning of winter rains, the peach blight fungus will become active and destroy many buds and fruit spurs unless a protective spray is applied soon.

This disease attacks peach and apricot trees in the fall and early winter and its effects are not noticed until early spring. When the tree starts growth many twigs and spurs are blighted and have lumps of gum exuding from them. Severely attacked buds fail to develop, others bloom weakly and fall off. In severe cases large limbs may be killed.

An application of 5-5-50 Bordeaux before the fall rains is necessary for control. The trees should be thoroughly sprayed, particular attention should be given to covering all the fruit spurs, as they suffer most from the disease.

Further information on the disease or the home mixing of Bordeaux spray may be obtained at the county agent's office.

HIGHER OREGON FARM INCOME IS EXPECTED

Higher average prices and slightly better crop yields are expected to bring to the farmers of Oregon 5 million dollars more cash income from the crop and animal production of 1935 than received from that of 1934, and possibly 10 million more, says the September report on the agricultural situation just released by the O.S.C. agricultural extension service. It is also indicated that purchasing power of farm income per acre will be greater than in any of the previous four years.

Cash farm income from 1935 production is placed at 85 million dollars—possibly 90 million, depending on price trends during the balance of the marketing season. At the higher figure 1935 cash farm income would approach 75 per cent of the estimated annual average of 124 million from 1926 to 1930. The lower figure, 85 million, is approximately 70 per cent of the 1926-1930 average, but is greater than in any year from 1931 to 1934, both in amount and purchasing power.

YOUR INSURANCE FRIEND

MR. MARRIED MAN:

Can you write a check for \$1000.00?

Did you ever stop to think that if your wife should be taken sick or have an accident and pass out of the picture that about this amount would have to come from somewhere?

Did you know that for a small deposit each year, you could start a contract that would guarantee that amount immediately if anything should happen, AND if nothing does happen in the next twenty years you could have all of your money back?

California Western States Life Insurance Co. pays three times the face of the contract for accidental death while riding in an automobile.

Is there any reason why you should not find out more about these contracts?
