Friendly Folk
Most folk are friendly—even in large cities. Though city life tends to form a sort of veneer of coldness, it takes but a scratch to penetrate the veneer. Underneath, one finds pleasant friendliness to a surprising degree.

OF INTEREST TO THE HOUSEWIFE

Woolen socks will not shrink if washed carefully in tepid water and white soap suds. Rinse in clear, lukewarm water, wring out, and hang in the air to dry quickly.

It is much quicker when frying doughnuts, to cut dough in diamond shapes instead of using a doughnut cutter. They taste just as good when cut in this way.

If you enjoy painting try your skill on one of the unpainted dressing tables. They are most useful and ornamental.

It is time to change the water in goldfish bowl when water is so warm fish come to the top of bowl for air. Goldfish like to be kept cool.

Have you tried serving baked cranberry apples with a roast pork dinner? Fill the cavity left in apple after core has been removed with cranberry sauce and bake.

A squeaking in hardwood floors is caused by floors not being properly nailed or when subflooring is omitted or laid parallel to flooring strips. An experienced floor-layer will remove the squeak.

When making a pumpkin pie, beat the whites of eggs stiff and fold them into mixture just before baking instead of beating the egg yolks and whites together. The pumpkin filling will be much lighter if prepared in this way.

Casserole dishes made of meat, vegetables or fish can be cooked in the morning and reheated just before they are to be served.

Always test cake before removing from the oven, even though it may already have baked the length of time stated in the recipe.

Interference

"Are you still writing profound articles?" asked the lady with a roll of manuscript.

"No," answered Miss Cayenne, "I found it interfered with my more serious duties. You can't spill ink and pour tea simultaneously."

Fishermen Stranded for Five Days on Sea Bottom

Thousands of fishermen returning to Caspian ports recently told an astonishing story of having been marooned on the bottom of the sea for five days. They reported that at the busiest period of the fishing season the sea itself retired from under the fleet.

The sea receded along 150 miles of the northern shoreline, leaving the boats stuck several kilometers from solid earth. Airplanes dropped food to the stranded men until the tide flowed back and allowed them to refloat their ships.

Hostess—Are you really a bank examiner, Mr. Tompkins?
Mr. Tompkins—Yes, madam, I happen to be.
Hostess—Then I hope you will have time to examine the baby's bank. No matter how much we shake it, nothing ever comes out of it.

Why does Calumet give such "luck"? Why is it different from other baking powders?

Calumet combines two distinct leavening actions. A quick one for the mixing bowl—a slower one for the oven. This Double-Action is so perfectly balanced and controlled that it produces perfect leavening. Calumet is a product of General Foods.
