SPORT SHORTS

By Bill Hulen

After a lapse of several years, state basketball district number nine which is composed of Ashland, Medford and Grants Pass high schools, is using its head again.

For the past several seasons the three schools, competing for the right to enter the State tourney, have played only four league games; each team meeting the other twice. And the result, to probably one hundred per cent of the fans not to mention the siliings of a FOUR game proving anything definite, has been a big pain in the neck.

Fans want league basketball; basketball where something more tangible than mere victory is the driving force. And what is more important; fans want Ashland vs. Medford basketball; not a drizzle but a deluge of it.

And, they get it this year. Instead of the two games played between the bitterest rivals in the state as has been the custom the past few years, the Grizzlies and Tigers face each other four times. Four real events in the lives of students and fans of both towns instead of a measly two. Also four instead of two times to go slightly hatty.

The reason for the sudden change of mind by the powers that be? Simple. Four Ashland-Medford basketball games mean four packed, jammed, over-flowing howling and stampeding gymnasiums. And that means everything to a high school that depends almost entirely upon the revenue from athletic games to sustain those same athletic games.

Questions we'd like to have answered. How come Prink Callison, university of Oregon football coach can state that Medford high's Bob Smith was the best grinder in the state last year when he didn't ev-

In order to devote his entire time to mining and timber properties, E. T. Staples, who has been actively engaged in business in Ashland during the past 33 years, is closing his real estate and insurance office.

His many friends hope that Mr. Staples will continue to make his home in Ashland. He has been an active member of a number of civic and fraternal organizations, including the Chamber of Commerce, the Hillah Temple Shrine, and the Elks Lodge.

It's pretty tough on the school children who study geography. By the time they get the maps of countries of the world duly fixed in their minds and learn the names of the capitals, invaders change a lot of the maps and the names. It's so that new geographies are necessary about every year.

Mr. and Mrs. David Bullis entertained a group of friends last Friday evening at a dinner party. Those present were Mr. and Mrs. A. B. Freeman, Vivian and Marjorie Freeman, Mr. and Mrs. Ray Clary, Alma Jean Clary and Harvey Bullis.

en see him play? Also, how come that all the well known sports writers are wondering if Joe Lewis, the Dusky Devastator, can take it as well as hand it out, when it is a fact that in one of his first professional fights, he was knocked down something like eight times, but came back to "cold storage" his opponent.

And, going further into this "dark" affair; how come that Lewis is already being rated the greatest heavyweight of all times when about all he has done is to knock out a mouthy Levinsky, a saffron hued Baer, and an old man named Uzcudun.
