

History's Boss!

Herbert Gambrell, history professor at Southern Methodist University, noted author and authority on Texas history, is in charge of the historical exhibits at the Texas Centennial Exposition which opens Dallas, June 6.

SCOUT EXECUTIVE OFF TO CONCLAVE

Irving P. Beesley, executive of Crater Lake Area Council of the Boy Scouts, left Sunday, March 8 for Portland, where he will join 30 other executives of region eleven, Oregon, Washington, Idaho, and Montana, en route to French Lick Springs, Ind., where the 6th national training conference for Scout Executives will open March 12. Beesley is scheduled to return March 23.

Nine hundred executives will attend the conference, the first to be held since 1928. Mr. Beesley is being sent as Crater Lake Area Council representative to secure the benefit of information and recommendations worked out by 12 special commissions which have been busy since 1928. Upon his return Crater Lake Area Council will be able to put in operation many new programs.

CONFIRMED

The appointment of John H. Fuller as postmaster of Ashland has been confirmed by the U. S. Senate. The same action was taken as to the appointment of Walter ... Powell of Burns.

Real Indian

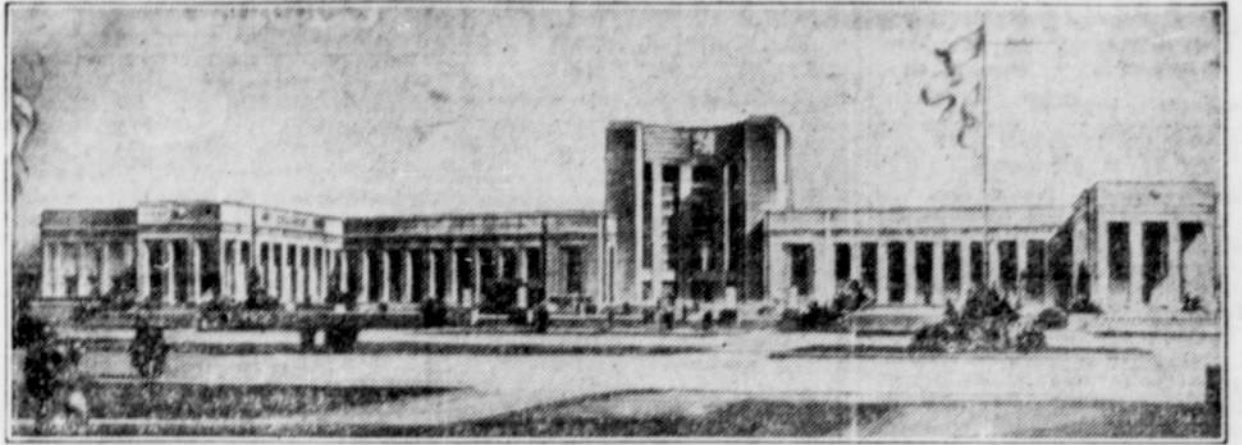

The Comanche war bonnet and ceremonial shield, displayed by Essie Lee Haynes, are from the collection of Steve Krom, of Dallas. Authentic, made by tribal feather-work experts half a century ago, these and other items of Mr. Krom's collection will be displayed at the Texas Centennial Exposition.

Mr. and Mrs. Chas. Gray gave a dinner Wednesday of this week honoring Mr. Gray's sister, Mrs. Martha McKinney of Thurston. Covers were laid for Mr. and Mrs. Elliott and Mr. and Mrs. William Hill. The Elliotts are leaving soon for Baker to look after their land interests.

Paul Byers and his mother received the sad news the first of the week of the death of a brother in Ohio. The sister passed away only a few weeks ago which makes it doubly hard.

\$1,200,000 Going Into Texas Hall of State

Work is well under way on the Texas Hall of State, showpiece of the Texas Centennial Exposition which opens June 6. Built of native limestone, it will cost \$1,200,000.

Now cook the *modern* way — preferred by the majority of all home makers in the West — with GAS. Gas is *quick* — no waiting for anything to "heat up" (especially important at breakfast). Gas is *clean*, eliminating smoke, soot, ashes and fuel storage. Gas is *economical*. A gas range is moderate in purchase price, costs practically nothing to maintain, and operates for a few cents a day on PETROLEUM NATURAL GAS at our NEW LOW RATES.

WEDGEWOOD GAS RANGE

The ultimate in kitchen style and beauty, in convenience and modern features! Made in the West for western homes. Come in and see our exhibit. A demonstration will prove the exclusive advantages of gas cookery. Our generous appraisal of your old stove (to apply on regular "Wedgewood" retail prices) means a real saving, a *bargain* for you. This offer may be withdrawn at any time. Call or phone at once.

NORGE
Rollator Refrigeration at

H. H. Elhart

ELHART'S

C. D. Elhart

● Come in and see the New Norge Rollator Refrigerator, the greatest Norge of all time. The 1936 Norge has reached new pinnacles of perfection. Always prized for its beauty, the New Norge is more exquisitely beautiful than ever. Cleverly arranged, adjustable and sliding shelves give easier accessibility to every part of the interior. Finer construction of parts, including the Rollator Compressor itself, enables the Norge to produce still more cold with even less electric current. See the New Norge. You will recognize it as the greatest Norge of all time.

Norge Rollator Refrigeration has been developed carefully. Every slightest change has been super-tested. The Norge has been *proved* by factory, laboratory and home tests; *approved* by over half a million enthusiastic users, and is now further *improved* to give you greater satisfaction at lower cost. See the New Norge Rollator Refrigerator before you buy.

THE ROLLATOR COMPRESSOR...

REG. U. S. PAT. OFF.

Smooth, easy, rolling power instead of the hurried back-and-forth action of the ordinary refrigerating mechanism. Result—more cold for the current used, and a mechanism which is almost everlasting. 39-C-4
