

BOY SCOUT SUMMER CAMP

The last session of Boy Scout summer camp at Camp McLoughlin, Lake O the Woods, opened last Sunday, July 26th, bringing to a close one of the most successful camping seasons in the history of the Council. Camp registrations for the four weeks totaled 314 Scout weeks. Scouts from all districts of the Council being registered in the four periods, going into camp with their own troop leaders and staying from one to four weeks.

Many activities are offered the Scouts—archery, hiking, swimming, leatherwork, beadwork, woodwork, fishing, boating, horseback riding as well as instruction in the many phases of Scouting. The Courts of Honor held each Sunday have shown much advancement in rank and many awards of merit badges, especially those required for the higher ranks of Star, Life and Eagle, such as First Aid, Pioneering, Personal Health, Public Health, Swimming, Life Saving, Camping, Bird Study, etc.

This year one of the new and outstanding activities is archery. A complete range has been set up in camp. Two classes of one hour each are conducted every day, the Scouts being given expert instruction not only in handling the bows and arrows but in the making and care of them. The attendance in these classes has been large, the majority of those in camp showing a great interest and receiving much benefit from the courses.

A number of boats this year were contributed by various organizations. They are large row boats, all constructed on the same design. The Medford Rotary Club, the Active Club and the American Legion and the Central Point 100F each built one of the boats, which have added much to the water front activities. Through funds made available by members of the Executive Board of the Crater Lake Area Council, a sail boat has been constructed for the older Scouts who will, after the close of the camping season, form a Sea Scout unit.

Irving P. Beesley, Scout Executive of the Crater Lake Area Council, has been acting as camp director, with Dwight E. Gilchrist, Scout Executive of the Modoc Council, Klamath Falls, as associate director. The Scouts in camp and those returning report that they have enjoyed themselves to the best and are anticipating next year's camp.

Many improvements have been made in the camp again this year, chief of which was the laying of a new pipe line for the water supply. Samples of water from the faucets and swimming area submitted to the state board of health have received the highest rating. The health of the Scouts is insured through pure water, sanitary facilities, and the best of food. The camp physician this year is Tim Emmons.

The interior of the kitchen has been completely changed, making it more convenient for cooking and cleaning and enlarging the space.

Long hikes have been taken each week by the Scouts. They have hiked up Mt. McLoughlin, to Four Mile Lake and to Lake Harriet. Horses are available and many Scouts have been riding daily.

Camp closes August 2nd, after which time a crew will remain in camp to prepare for the opening of Girl Scout camp on August 9th.

IOWA PICNIC

There's going to be an Iowa state picnic at Grants Pass on Sunday, August 16 and just about all the former Iowans are going to be there. Those who plan to attend and will have room in their cars for others who will share expenses, are asked to notify L. E. Sennett at Simpson's Hardware.

To Spend Few Days In Ashland

Mrs. W. E. Beers, of Lakewood and her son A. L. Beers, wife and two children are spending a few days visiting at the home of Mr. and Mrs. G. D. McDougal. Mrs. Beers is Mrs. McDougal's mother.

Crescent City Will Entertain

Crescent City on the coast, a California city and section that has more of the tang and character of Oregon than of its own state, knows how to do things in a big way.

The chamber of commerce over there has invited the public in general, but more particularly the people of southwestern Oregon, to a free crab feed there this coming Sunday, and from all reports it seems that the invitation is going to be widely accepted.

The feed will be served on the beach, starting at 11:30 Sunday morning and there will be an ample supply.

ASHLAND

A summary of improvements made possible in Ashland through use of WPA funds includes the Ashland water-shed fire protection, Foot Park improvement, Ashland street work, Ashland sewing room and Ashland Library. The total amount of money expended in the Ashland district was over \$21,000. This expenditure provided 56,719 hours of work.

VISIT HERE

Mr. and Mrs. Frank Morton and son of Vancouver, Washington, were visiting last week end with Mr. Henry Van Proyen, and Mrs. Emma Hager and daughter Eunice, on Scenic Drive.

-MOVIE FLASHES-

"San Francisco," which comes to the Lithia Theater Sunday and Monday, promises to become one of the most talked about pictures on many, many months.

First it teams three of the most popular screen stars for the first time—Clark Gable, Jeanette MacDonald and Spencer Tracy. It is a picture brimming with romance, love, comedy, beautiful music and excitement.

The picture takes us into the seething, mad excitement of the Barbary Coast when it was a byword around the world. It takes us into aristocratic Nob Hill, into the old Tivoli Opera house, the historic Palace Hotel and other landmarks of old San Francisco—and it takes us through the disaster that leveled a beautiful city to the ground thirty years ago, in a series of the most realistic disaster scenes ever filmed.

Clark Gable offers one of his greatest characterizations as Blackie Norton, owner of the most popular resort on the Coast. Jeanette MacDonald is superb as the country girl who starts her singing career on the Barbary Coast and rises to great operatic heights, only to return to the Coast because of the man she loves. Spencer Tracy scores in an unusual role as a kindly priest who chooses the wicked street for his evangelistic work. In the excellent supporting cast are Jack Holt, Jessie Ralph, Ted Healy, Shirley Ross, Margaret Irving, Harold Huber, and Al Shean.

LEGAL NOTICES

MURRAY FIELD IS NAME FOR SPORTS BOWL

LAVA BEDS—Recreational facilities here were greatly augmented when, under the direction of Lt. Radcliffe, Murray Field was added south of the camp.

A volleyball court and horizontal bar were installed with plans calling for a quarter mile running track encircling jumping pits, flying rings, horseshoe courts, tennis court, soft ball diamond, and outdoor boxing arena.

The new athletic field lies in a natural hollow, and upon completion will be one of the most complete recreational areas in the district.

TALENT

IRRIGATION CANAL

Complimentary and satisfying reports have been made in connection with the work that the WPA crew did on the Enterprise Irrigation District in Klamath county. The men in charge of the work were highly pleased with progress made and stated that our workmen get to work faster work than was turned out in previous years.

● HILT NEWS ●

Mrs. Roy Hord's sister, Mrs. Jenkins, of Grants Pass and her children Alice and Buddy, have been spending a week with Mr. and Mrs. Roy Hord.

A business meeting of the P. T. A. was held at Mrs. Dunaway's home Wednesday afternoon.

Mr. Glen Young of Medford, former resident of Hilt, was in Hilt on business Wednesday.

Mrs. Joe Francis Sr. and daughter Lucille returned from San Francisco Wednesday. They have been visiting there for about a month.

Guests at the home of Mr. and Mrs. W. W. Walker Tuesday were Mr. and Mrs. J. F. Brower of Ashland, Mr. and Mrs. R. B. Farmer and son Stanley and Mr. and Mrs. Dick Plummer of Cottonwood. Mrs. Farmer is a sister of Mrs. Walker.

Mr. and Mrs. Kenneth Brown visited in Glendale over the week-end.

Mr. Aldo Ceccato returned from Medford where he has been working recently.

Mr. and Mrs. Roy Chevenger were in Yreka Saturday.

CHRISTIAN SCIENCE CHURCHES

"TRUTH" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 26.

The Golden Text was, "God shall send forth his mercy and his truth" (Ps. 57: 3).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Then said Jesus to those Jews which believed on him, if ye continue in my word, then are ye my disciples indeed: And ye shall know the truth, and the truth shall make you free" (John 8: 31, 32).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "The supposed laws which result in weariness and disease are not His laws, for the legitimate and only possible action of Truth is the production of harmony . . . Truth casts out all evils and materialistic methods with the actual spiritual law,—the law which gives sight to the blind, hearing to the deaf, voice to the dumb, feet to the lame" (p. 183).

Townsend Club News and Notes

In a review of the NRA some time ago, Professor Carpenter of the USC (California) Law School, called attention to the fact that there has arisen a new argument supporting minimum wage laws. He says "Now we see their value not only as a measure to protect the health of the employee, but as a necessity to prevent our economic machine from stopping. Purchasing power in the masses of the people is necessary to prevent stagnation in business. About five-sixths of the purchasing of consumable commodities in this country are made by wage earners in one group or another. Without purchasing power in the wage earner groups, the business of the employer must cease."

And then he calls attention to the fact that, under the competitive system, the employer cannot increase wages, or maintain a decent minimum wage; he must have the aid of a minimum wage law. The argument is sound. If courts are not persuaded by the necessity of keeping the productive machine going. A few clear-thinking business men, like Edward A. Filene of Boston, have seen this necessity, but the vast majority are blind because they will not see.

It is but a detail in the unanswerable argument of Dr. Townsend for the distribution of buying power. No doubt a minimum wage law would help, and we should have it, but it would be far from sufficient or adequate; the situation calls loudly for a more comprehensive measure. Every competent thinker who is writing or speaking on the current economic problems, mentions the need of purchasing power; they agree that it must be widely distributed; they have no plan to offer, and if their attention is directed to the Pension Plan, they smilingly reject it as "impracticable". Perhaps time and suffering will educate them. But in the meantime, it is our duty to bombard the leaders with argument for the Townsend Plan.

Miss Katherine Egner was here this week for a visit with Mr. and Mrs. Jack Egner. She was on the way to her home in San Francisco after visiting her parents in Portland.

TALENT ITEMS

Mrs. Alice O' Byrne returned from Mt. Shasta City where she has been attending summer school.

Mrs. E. C. Thurston is visiting her husband at La Porte, Calif. Mr. and Mrs. Keeney are taking care of the Thurston orchard and garden during her absence.

Mrs. Starbeck and two daughters of Sacramento, Calif., were guests of Mr. and Mrs. Lyle Tame last week.

Mrs. J. Sullivan of Oakland, California, is visiting Mrs. Alice O'Byrne of Talent. The two ladies are living in Ashland until September first.

Mrs. Ora Hunt and son of Stockton, California, are the guests of Mr. and Mrs. Ed Maxon and family.

Mr. and Mrs. R. F. Parks of the Parks Grocerteria, in Talent, are spending a few days fishing and vacationing at Crescent City and other beach points. They expect to visit Mr. and Mrs. Charles Estes of Smith River during the trip.

The Talendelphian Club held their bi-monthly meeting at the home of their educational advisor.

Prevent Fires!

Every summer appalling losses from fire are sustained by the people of our state. Forests, grain fields, farm buildings, and homes are destroyed each year by fires which are started in a surprisingly large number of cases by someone's carelessness.

NOW is the time to check up on wiring, machinery exhausts, gasoline storage, and stoves. Remove rubbish. Refill fire extinguishers. Extinguish all matches, cigarettes, or any other flaming or glowing substance before throwing them away.

A little fire prevention now may save a loss of hundreds or thousands of dollars.
